Prior to the issuance of the licence, the licensee shall, at his own expense, obtain from a qualified Steamboat Inspector, a certificate as to the seaworthiness of the vessels to be employed under the said licence, and shall file the said certificate with the Minister of Public Works of Canada.

The Minister of Public Works of Canada shall have the right to reject any vessel which may at any time be placed on the landing dock or wharf provided by the licensee, should he consider them, or any of them, respectively, unsuitable to the service or inadequate to meet the wants of the public.

Permit to explore

2. The Minister may issue to any person applying therefor a permit conveying the exclusive right to explore for petroleum and natural gas in lands, the property of the Crown, in the Northwest Territories and the Yukon Territory, if he is satisfied that the exploratory program to be undertaken is of such a nature that information of value will be obtained.

Area

3. (1) The maximum area which may be held under one permit shall be sixty-four thousand acres and the minimum area shall be thirty-two thousand acres.

(2) Every such area shall be rectangular in form, the length being not greater than three times its breadth, and may be staked in any direction; provided, however, that where any area adjoins or is in close proximity to or is crossed by any important navigable river or rivers, the smaller dimension of such area shall be in the general direction of such river, or should there be more than one river, then in the general direction of the larger river.

(3) No person shall at any one time hold more than eight permits.

Term

4. Unless sooner cancelled under these regulations, every permit shall be valid for a period of three years and may be renewed for a further period of three years.

Assignment

Fee—Deposit

8. Every application for a permit shall be accompanied,

(*a*) by a fee of two hundred and fifty dollars,

(*b*) by a deposit of money or guarantee bond satisfactory to the Minister, to the value of five cents for each acre included in the area for which application is made, to cover the first eighteen months' period of the permit,

Information to be furnished

(*c*) by complete information setting out the extent and character of the examination to be made and an estimate of the cost thereof,

Description of area

(*d*) by a written description by metes and bounds of the area applied for, together with an explanatory sketch plan drawn to a suitable scale, indicating the positions of the legal posts, the positions of the four corners, the positions and lengths of the reference lines, the distances apart of cairns or mounds on the reference lines and the astronomic northing or southing and easting or westing from the most suitable recognizable natural feature or features shown on the official map sheet or sheets of the National Topographic series at the scale of eight miles to one inch; the sketch plan shall contain marginal diagrams in the form of squares of suitable size, opposite the sides of which will be indicated the markings on the corresponding sides of the legal post planted,

Method of staking

(*e*) by evidence supported by affidavit to show that the following requirements have been complied with:—

(i) that the area has been marked on the ground by at least one legal post planted preferably at one of the four corners or otherwise planted

one one of the four side lines, an additional legal post to be planted wherever any one of the side lines is intersected by a travelled road or water route;

(ii) that each legal post planted has been referenced by a straight line marked on the ground at least two thousand feet in length commencing at the post and running along one of the boundaries; where the post is at a corner, this line, if possible, should be in the direction of the greatest dimension of the area; in timbered country the line shall be clearly marked on the ground by removing the trees and underbrush to a width of six feet along the entire length thereof and an area of ten feet square shall be cleared by cutting the underbrush so that the post shall be clearly discernible at a reasonable distance. In a locality where there are neither trees nor underbrush the line shall be marked by stone cairns or earth mounds at least thirty inches high and thirty inches in bottom diameter and placed at intervals of not more than four hundred feet;

(iii) that each legal post has been marked to show the name of the applicant for the permit, the hour and the date it was planted, the number of the post, whether it is a corner or a side post and the distance in miles and the direction to the two adjacent corners, in the manner indicated in Appendix A; the inscriptions to be placed on these legal posts shall be clearly and legibly marked by knife, marking iron or crayon, in such manner that they will not become obliterated; except when marked by a corner post the position of each corner is fixed by the natural feature from which it is referenced and the boundaries of the area are the straight line joining the four corners;

(iv) priority of application shall be based upon the date and time of the staking of the area applied for.

Exploratory work to be performed

9. (1) The permittee shall make an approved geological examination of the area, by surface exploration, geological operations, or other approved methods relating to the subsurface geology, such as drilling.

(2) The minimum expenditure for such exploration shall be equal to the amount of money or bonds on deposit by the permittee.

Deposit at end of eighteen months

10. At the expiration of eighteen months after a permit is first issued the permittee shall deposit money or guarantee bond satisfactory to the Minister to the value of twenty-five cents for each acre included in the permit.

11. (1) Where application is made for renewal of a permit the applicant shall deposit, at the time of his application, money or guarantee bond satisfactory to the Minister to the value of thirty cents for each acre included in the permit.

(2) At the expiration of one year after the renewal the permittee shall deposit money or guarantee bond satisfactory to the Minister to the value of forty cents for each acre included in the permit.

(3) At the expiration of two years after the date of the renewal the permittee shall deposit money or guarantee bond satisfactory to the Minister to the value of fifty cents for each acre included in the permit.

Excess expenditure to be credited on succeeding year

12. If the permittee incurs during any period of his permit an expenditure on exploratory work in excess of the amount required under these regulations, the said excess shall be allowed as a credit against expenditures as required by sections ten and eleven for the succeeding periods.

Cancellation for failure to make deposits

13. Where a permittee fails to make the deposit of money or guarantee bond satisfactory to the Minister required to be made by sections ten or eleven of these regulations the Minister may in his discretion cancel the permit.

Refund if application or renewal refused

Grouping of permits

15. (1) A permittee, who has acquired more than one permit, may consolidate for operations and expenditures the areas described in such permits, if such areas or any portion thereof, are situate within a distance of twenty-five miles from the boundary of any area held under permit by the permittee upon which exploratory work is being done.

(2) For the purposes of this section the date of the consolidation shall be that of the earliest permit included in such consolidation.

Purpose of deposit

16. The deposit of money or guarantee bond shall be held by the Department as a guarantee that an expenditure equal thereto will be made in accordance with these regulations during the period for which the deposit was made.

Forfeiture

17. (1) The amount by which the value of the deposit exceeds the aggregate of the actual amount expended on or in connection with exploratory work during such period and the amount allowed as a credit under section twelve of these regulations for that period shall be forfeited to the Crown.

Minister to decide amount

(2) The amount of such expenditure shall be determined by the Minister on evidence of expenditure furnished by the permittee and such other evidence as the Minister may require.

Release of deposit

18. Such portions of the deposit as may be satisfactory to the Minister shall be released from time to time upon acceptance by the Minister of progress reports submitted to the Director by the permittee and such other information as the Minister may require in respect of expenditures made in relation to such progress reports together with the logs of any wells drilled and the conditions ascertained and the results obtained.

19. No release of any portion of the deposit shall be made until the permittee submits to the Director a statutory declaration setting forth the several items of expenditure incurred and the specific purpose for which each item was expended and the record of results obtained.

20. At the end of each period of six months a permittee shall furnish the Director with copies of

all aerial photographs and certified copies of all geological and geophysical plans and reports completed during such period together with full details of all drilling and other subsurface work undertaken.

Credit for expenditure on permit or group

21. At the expiration of each period of a permit or group of permits, referred to in sections eight, ten, and eleven, an amount of fifty per centum of the total expenditures as determined by the Minister pursuant to Section 17 (2) made in respect of a permit or group of permits shall be placed to the credit of the permittee to be applied in satisfaction of the rental, including the first year's rental, of any leases acquired comprising portions of the area formerly held under such permit or group of permits; provided, however, that no portion of any such credit shall be applied on account of the rental of said leases after commercial exploitation of the geological unit on which the location or group of locations is situated has commenced.

Right of entry on permit area of departmental officer

22. It shall be lawful for the Minister, or anyone authorized by him, at all times, to enter upon the area held under permit and have access to all wells, records, plant, and equipment, and the permittee, his representative or operator, shall render the officer such assistance as may be necessary or essential, and such officer shall have the right to take samples, particulars, or carry out any tests or examinations desired.

Permittee may acquire leases

23. Where the permittee has complied with these regulations he shall have, at any time prior to the expiration of his permit, the exclusive right to acquire leases under these regulations to an area not exceeding thirty-five per centum of the area originally held by the permittee under permit; provided, however, that the total area acquired under lease by any one person, in accordance with the provisions of this section, shall, at no time, exceed one hundred and twenty-eight thousand acres.

LEASES

24. The petroleum and natural gas rights which are the property of the Crown in the Northwest Territories and Yukon Territory and which are available may be leased to applicants at a rental of fifty cents an acre for the first year and one dollar an acre for the second and each succeeding year, payable yearly in advance.

Term of lease and renewal

25. The term of the lease shall be twenty-one years, renewable for successive periods of twenty-one years each, provided the lessee can furnish evidence satisfactory to the Minister to show that during the term of the lease he has complied fully with the conditions of such lease and with the provisions of the regulations in force from time to time during the currency of the lease.

Area

26. The maximum area of a petroleum and natural gas location shall be two thousand five hundred and sixty acres and the minimum area one thousand two hundred and eighty acres.

Application and fee

(2) A fee of five dollars shall accompany each application.

Description

28. (1) The application shall contain a description by metes and bounds of the location applied for and shall be accompanied by a plan showing the position of such location in its relation to some prominent topographical feature or other known point.

Plan

(2) The plan shall be drawn to an adequate scale and shall contain sufficient data to admit of the position of the location applied for being definitely shown in the records of the Department.

(3) The location must be rectangular in form, except where a boundary of a previously located tract is adopted as common to both locations, the length not to exceed four times the breadth.

(4) The application shall be accompanied by evidence, supported by affidavit of the locator, to show that the following requirements have been fully complied with:—

(*a*) that the location applied for has been defined on the ground by the applicant in person or his agent, by planting two legal posts firmly in the ground, one at each extremity of the location line, which shall be known as "Location Post No. 1" and "Location Post No. 2"; the location line shall be in the astronomical cardinal directions and shall be a straight line, measured horizontally between the location posts; the distance between Post No. 1 and Post No. 2 shall not exceed twenty-one thousand one hundred and twenty feet, or four miles, but may be less;

(*b*) the inscriptions to be placed on these posts shall be and remain clearly and legibly marked by knife, marking iron or crayon, but not so as to become illegible or obliterated:

(*c*) on Location Post No. 1 on the side facing in the direction of Location Post No. 2 shall be marked, beginning near the top of the portion faced and extending downward, the following:—

(i) Oil Location;

(ii) No. 1;

(iii) the letter indicating the direction of Location Post No. 2—"N" for north or northerly, "S" for south or southerly, "W" for west or westerly, and "E" for east or easterly;

(iv) the number of feet lying to the right and the number of feet lying to the left of the location line—"R" for right and "L" for left;

(vi) the month and date of the month upon which the location was made;

(vii) the year;

(viii) the name of the person staking the location;

(*d*) on Location Post No. 2 shall be marked on the side of that post facing in the direction of Location Post No. 1, beginning near the upper end of the portion faced and extending downward, the following:—

(i) No. 2;

(ii) the month and date of the month upon which the location was made;

(iii) the year;

(iv) the name of the person staking the location;

(*e*) the locator standing at Location Post No. 1 and facing in the direction of Post No. 2 shall have the right and left of the location line on his right and left respectively;

(*f*) When the tract has been defined, the locator shall mark out immediately the line between Post No. 1 and Post No. 2, so that it can be distinctly seen in a timbered locality, by blazing trees and removing underbrush, and in a locality where there is neither timber nor underbrush he shall set posts or erect mounds of earth or rock in such a manner that the line may be distinctly seen. In a timbered locality an area of ten feet square shall be cleared around each post by cutting the underbrush so that the post shall be clearly discernible at a reasonable distance.

(*g*) all the particulars required to be inscribed on Posts No. 1 and No. 2 shall be set out in the application;

(*h*) when an extremity of a location line falls in water, in the bed of a stream, or in any other locality unfavourable to the erection of a location post, the locator shall set up a witness post on the location line at a suitable point as near as possible to such extremity, and the marking already prescribed in the regulations to be placed on the location post shall be preceded by the letters "WP" as an abbreviation of witness post, on one line, followed by a second line indicating the distance in feet and the direction of the point which it is intended to witness, using "N" for north or northerly, "S" for south or southerly, "W" for west or westerly, and "E" for east or easterly; witness posts so placed shall be legal posts and shall govern the positions of the points which they are intended to witness; (see Appendix B);

(*i*) where any person has located or acquired a location on the margin of a body of water, and has reason to believe that the petroleum bearing strata extend under water, he may extend his staking between the production of two opposite sides of the marginal location by means of witness posts placed in the manner prescribed in these regulations, to include not more than one additional adjoining submerged location; (see Appendix B);

(*j*) the location shall be staked along its greatest dimension, and the bearing of the location line shall be given in degrees and minutes;

(*k*) where a desired location is situated on an island containing, during periods of high water, not more than the minimum area of one thousand two hundred and eighty acres prescribed by section twenty-six of these regulations, its least dimension may be in any direction regardless of the general direction of the shore line; (see Appendix B);

(*l*) in case the tract applied for is located on the margin of a lake or river, its least dimension shall be in the general direction of the water frontage;

(*m*) the locator shall post a written or printed notice on a conspicuous part of the location applied for, stating that within thirty days from the date of staking he is applying for a lease of the petroleum and natural gas rights under the said location;

(*n*) priority of application shall be based upon the date and time of the staking of the location applied for.

Removing posts

29. No one, other than a Dominion Land Surveyor authorized by the Surveyor General of Canada to survey the location, can lawfully move the posts on a location for which an application for a lease has been recorded. The Surveyor General will direct the moving of posts on the line of location where the area staked exceeds in extent the area specified in the application or does not conform to the provisions of Section 28 (3) of these regulations.

Boundaries

30. The boundaries beneath the surface of a location shall be the vertical planes in which its surface boundaries lie.

Survey before lease issued

31. The application for a lease shall be recorded and the terms of the lease become effective from date of record, but the registration shall not be confirmed nor the lease issued until a survey of the location has been made at the expense of the applicant by a Dominion Land Surveyor upon the instructions of the Surveyor General of Canada and the returns of survey have been approved by the Surveyor General and registered by the Director. The survey must be made within one year from the date of application unless satisfactory reasons are furnished justifying the granting of an extension of time.

Rental first year

32. (1) The rental for the first year of the location applied for at the rate of fifty cents an acre shall be payable in advance and no application for a lease of petroleum and natural gas rights shall be accepted or recorded until the full amount of the rent for the first year at the above rate shall have been paid in cash or by established credit.

(2) The lease, when issued, shall be in such form as may be determined by the Minister and shall bear date from the day upon which the application is recorded.

Rental for subsequent years and penalty for failure to pay in advance

(3) If, during the term of the lease, the lessee shall fail to pay rental in advance for each subsequent year at the rate of one dollar an acre per annum within thirty days after the date upon which the same became due, the lease shall be subject to cancellation in the discretion of the Minister and to the immediate forfeiture of the rights which the lessee had in the said lease.

Installation of machinery and equipment

33. (1) The lessee shall, within one year from the date of the lease, have upon the lands described therein such machinery and equipment suitable for carrying on drilling operations as the Minister may consider necessary, and he shall within the same period furnish evidence, supported by affidavit, showing the character, quantity, and value of the machinery so installed, the date of its installation, and the particular parcel of land upon which it was installed.

(2) If the required machinery is not installed within the period specified, and if evidence of its installation is not furnished within the prescribed period, the lease shall be subject to cancellation in the discretion of the Minister upon two months' notice to this effect being given to the lessee.

Drilling operations to commence and continue

34. (1) The lessee shall commence drilling operations on his location within fifteen months of the date of his lease and he shall continue such drilling operations with reasonable diligence, to the satisfaction of the Minister, with a view to the discovery of petroleum or natural gas.

(2) If the lessee does not commence drilling operations within the time prescribed, or if having commenced such operations he does not prosecute the same with reasonable diligence to the satisfaction of the Minister, or if he ceases to carry on the same for a period of more than six months, the lease

shall be subject to cancellation in the discretion of the Minister, upon three months' notice to this effect being given to the lessee.

Consolidation or grouping

35. A lessee who has acquired more than one petroleum and natural gas lease may consolidate his operations and expenditure and install machinery and equipment on one or more of the locations described in the leases affected.

Maximum area of group

36. The maximum area of the locations which may be included in one consolidation or group shall not exceed thirty thousand seven hundred and twenty acres, nor shall the locations so included be separated one from the other by a greater distance than two miles.

37. Upon receipt of evidence that the lessee in respect of a location or group of locations consolidated under these regulations has incurred expenditures on or in connection with sub-surface geological or geophysical examinations or drilling operations or other necessary operations in connection with the completion of a well, such expenditures, exclusive of the purchase price of machinery and casing recovered but including an allowance for depreciation, shall be placed to the credit of the lessee and the credit so granted may be applied in satisfaction of the prescribed rental of the lease or leases comprising the location or group of locations in connection with which the expenditure was incurred; provided, however, that no portion of any such credit shall be applied in satisfaction of the rental of the leases comprising the location or group of locations in connection with which it was established after commercial exploitation of the geological unit on which the location or group is situated has commenced.

38. In the event of the lessee obtaining production of petroleum in commercial quantity on a location or authorized group of locations, he may be required by the Minister to drill such further well or wells thereon as the Minister, having regard to the proper conservation of said petroleum and its marketing in accordance with good operating and business practice, may in his discretion determine, and subject to the aforementioned considerations the lessee may be required to produce therefrom so long as the location or authorized group of locations shall continue to yield petroleum in commercial quantity.

Right of entry on location of departmental officer

39. It shall be lawful for the Minister, or anyone authorized by him, at all times, to enter upon the demised premises and have access to all wells, records, plant, and equipment, and the lessee, his representative or operator, shall render the officer such assistance as may be necessary or essential, and such officer shall have the right to take samples, particulars, or carry out any tests or examinations desired.

Permission to enter on leased lands

40. In case the surface rights of a petroleum and natural gas location are covered by a timber licence, grazing or coal mining lease, mining claim or other form of terminable grant, the lease shall not authorize entry thereon without the permission of the Minister being first had and obtained, and permission shall be given subject to such conditions for the protection of the rights of such lessee or licensee as it may be considered necessary to impose.

Arbitration for entry on patented lands

41. (1) In case the surface rights of a petroleum and natural gas location have been patented, or have been disposed of by the Crown under any Act or regulation which contemplates the earning of patent for such surface rights, and the lessee of the petroleum and natural gas rights cannot make an arrangement with the owner of such surface rights or with his agent, or the occupant thereof, for entry upon the location or for the acquisition of such interest in the surface rights as may be necessary for the efficient and economical operation of the rights acquired under his lease, he may, provided the mineral rights in the land affected with access thereto and the right to use and occupy such portion of the land as may be necessary for the effectual working of the minerals therein have been reserved to the Crown in the original grant of the surface rights, apply to the Minister for permission to submit the matter in dispute to arbitration.

(2) Upon receiving such permission in writing, it shall be lawful for the lessee to give notice to the owner, or his agent, or the occupant, to appoint an arbitrator within a period of sixty days from the date of such notice, to act with another arbitrator named by the lessee, in order to determine what portion of the surface rights the lessee may reasonably acquire:—

(*a*) for the efficient and economical operation of the rights and privileges granted him under his lease;

(*b*) the exact position thereof; and

(*c*) the amount of compensation to which the owner or occupant shall be entitled.

Notice of arbitration

42. (1) The notice mentioned in the preceding section shall be according to a form to be obtained upon application to the Mining Recorder for the district in which the land in question is situate, and shall, when practicable, be personally served on the owner of such land, or his agent, if known, or the occupant thereof, and after reasonable efforts have been made to effect personal service without success, then such notice shall be served by leaving it at or sending it by registered mail to the last known place of abode or address of the owner, agent or occupant, and by posting a copy of the same in the office of the Mining Recorder for the district in which the land in question is situate for a period of thirty days before the expiration of the time limited in such notice.

(2) If the owner, or his agent, or the occupant of the land refuses or declines to appoint an arbitrator, or when for any reason, no arbitrator is so appointed in the time limited therefor in the notice, the Mining Recorder for the district in which the land in question is situate shall forthwith on being satisfied by affidavit that such notice has come to the knowledge of such owner, agent or occupant, or that such owner, agent or occupant, wilfully evades the service of such notice, or cannot be found, and that reasonable efforts have been made to effect such service, and that the notice was left at the last place of abode or known address of such owner, agent or occupant, as above provided, appoint an arbitrator on his behalf.

Appointment of third arbitrator

43. In case the two arbitrators cannot agree upon the award to be made, they may, within a period of ten days from the date of the appointment of the second arbitrator, select a third arbitrator, and when such two arbitrators cannot agree upon a third arbitrator, the Mining Recorder for the district in which the land in question is situate shall forthwith select such third arbitrator.

Arbitrators to be duly sworn

44. All the arbitrators appointed under the authority of these regulations shall be sworn before a justice of the peace to the impartial discharge of the duties assigned to them, and after due consideration of the rights of the owner and the needs of the lessee they shall decide as to the particular portion of the surface rights which the latter may reasonably acquire for the efficient and economical operation of the rights and privileges granted him under his lease, the area thereof, and the amount of compensation therefor to which the owner or occupant shall be entitled.

Value; how determined

45. In making such valuation the arbitrators shall determine the value of the land irrespective of any enhancement thereof from the existence of minerals thereunder.

Award

46. (1) The award of any two such arbitrators made in writing shall be final, and shall be filed with the Mining Recorder for the district in which the land is situate, within twenty days from the date of the appointment of the last arbitrator.

(2) Upon the order of the Minister the award of the arbitrators shall immediately be carried into effect.

Compensation

47. The arbitrators shall be entitled to be paid a per diem allowance of ten dollars, together with their necessary travelling and living expenses, while engaged in the arbitration, and the cost of such arbitration shall be in the discretion of the arbitrators.

Relinquishment of whole or portion of location

48. The lessee may be permitted to relinquish at any time the whole or any portion of the location described in his lease, provided he has complied in every respect with the provisions of the regulations, and that all payments on account of rental or other liability to the Crown, due in connection with the lease, have been fully made, and provided the portion of the location which may be retained shall be of the prescribed shape, and shall not be of a less area than one thousand two hundred and eighty acres.

What lease conveys

49. (1) The lease shall in all cases include only the petroleum and natural gas, the property of the Crown, in the lands leased, but shall not include the oil shale rights to the land or to the oil which may be recovered from such shales by the process of extraction customary in such cases, and shall not include helium which shall remain the property of the Crown.

Surface lease

(2) The lessee may, upon application, be granted a yearly lease at a rental of one dollar an acre per annum, payable yearly in advance, of whatever area of the available surface rights of the tract described in his petroleum and natural gas lease the Minister may consider necessary for the efficient and economical working of the rights granted him.

Assignment

50. The lessee shall not assign, transfer, or sublet the rights described in his lease, or any part thereof, without the consent in writing of the Minister being first had and obtained.

Company registered or licensed in Canada

51. Any company acquiring by assignment, or otherwise, a lease under the provisions of these regulations, shall be a company registered or licensed in Canada.

Crown may assume control

52. (1) The Minister may at any time, by order in writing, cancel any lease or permit issued under these regulations and take, for the use of His Majesty, all or any part of the buildings, works, machinery, and plant upon the location in respect of which the lease or permit was issued, which property shall thereupon become and remain vested in His Majesty.

(2) When any such property is required for a limited time only or only a limited estate or interest therein is required, the Minister may in such order indicate that such property is taken for such limited time only or that only such limited estate or interest therein is taken and thereupon the right of possession for such limited time or such limited estate or interest shall become and be vested in His Majesty.

(3) The holder of the lease or permit shall be entitled to be paid compensation for any loss or damage sustained by him by reason of the exercise of the powers conferred on the Minister by this section and if such compensation has not been agreed upon the claim shall be referred by the Minister to the Exchequer Court of Canada.

(4) The amount of the compensation shall be determined by the Exchequer Court as in the case of land or property acquired or taken under the Expropriation Act.

(5) Upon the making of any such order the Minister may assume immediate possession and control of the location together with such property thereon as may have been taken and may cause the same to be operated, and the produce thereof shall be disposed of as the Governor in Council may direct.

Annual return

53. (1) At the end of each year or the term of the lease the lessee shall furnish to the Director a statement, supported by affidavit, showing the number of days during the year that operations were carried on upon the location; the number of men so employed; the character of the work done; the number of holes completed or being drilled and the depth of each; the total expenditure incurred; a detailed statement setting out fully the purpose for which such expenditure was incurred; the quantity of petroleum or natural gas obtained, and the amount realized from the sale thereof.

(2) Failure to furnish such yearly return after sixty days from the end of the year will render the lessee subject to a fine of ten dollars a day for each day's delay in furnishing the sworn statement, and after three months' delay the lease shall be subject to cancellation upon three months' notice in writing to this effect being given to the lessee.

Rights formerly comprised in cancelled lease

54. When a petroleum and natural gas lease issued under the provisions of these regulations is cancelled in the records of the Department, the rights described in such lease shall not become available for application under the regulations until notice has been duly posted for a period of thirty days in the office of the Mining Recorder for the district in which the land is situate.

Royalty

55. (1) The products obtained from any location acquired under these regulations, not including natural gas and natural gasoline, shall be subject to the payment to the Crown of the royalty hereinafter mentioned. For the first five years from the date that commercial exploitation of the geological unit on which the location is situate has commenced, the rate shall be seven and one-half per centum of the products produced and saved from such unit; for the second five years the rate shall be ten per centum; and thereafter the rate shall be twelve and one-half per centum; subject to the provision that where it is satisfactorily proven that the cost of producing the products from the area covered by any lease or group of leases, including the amount paid in royalties, is such that the commercial exploitation thereof does not permit a reasonable profit on the capital invested therein, the Governor in Council may reduce the rate of royalty and likewise may increase it to the original level when reasons for making the reduction no longer exist. The Minister shall have the right to take currently the aforesaid royalty either in kind or in cash, payable monthly on the twenty-fifth day of the month next following the calendar month of production, equivalent to the value of the Crown's royalty proportion of the said products, at the prevailing prices at the well-head; provided that at the election of the Minister, the aforesaid royalty shall be payable partly in kind and partly in cash.

(2) Natural gas and natural gasoline, whether recovered on the location or elsewhere, and not used by the lessee in the course of the working of his operations, shall be subject to the payment of such royalty as may be fixed by the Governor in Council.

(3) Where the Minister so declares, subsection one of this section shall apply to any well which is producing petroleum for local consumption notwithstanding that commercial exploitation has not commenced.

(4) Any products of a location or group of locations used by a lessee in the course of the working of his operations thereon shall not be subject to the payment of royalty.

56. Royalty paid by a lessee as provided in section fifty-five shall be credited on account of the rental each year in excess of fifty cents an acre on a location or group of locations situated on a geological unit standing recorded in the name of such lessee.

Notice of intention to begin drilling operations

57. (1) Before beginning drilling operations the lessee shall notify the Supervisory Engineer in writing of his intention to begin such operations and shall state:

(*a*) the particular point on the location at which operations are to be conducted;

(*b*) the number or other designation by which the well shall be known, which number or designation shall not be changed without the consent of the Supervisory Engineer;

(*c*) the size and weight of casing to be used;

(*d*) the kind of drilling rig to be employed; and

(*e*) the name and post office address of the person in charge of such operations.

(2) The lessee shall not begin drilling operations until he has received in writing the approval of the Supervisory Engineer of the proposals submitted under this section; provided that in any particular case such approval may first be given orally.

(3) No change in the program outlined in the Notice of Intention shall be made without submitting notice of the change of plans to the Supervisory Engineer and receiving approval of such change; provided, always, that in cases of emergency in which an immediate departure from or variation in the program is necessary, such departure or variation shall be made to the extent that such is necessary, and in any such case the lessee shall immediately advise the Supervisory Engineer in writing.

Where wells may be drilled

58. No well for the discovery of petroleum or natural gas other than a directional well shall be drilled within three hundred and thirty feet of any of the outer boundaries of the location or locations in a group nor within three hundred and thirty feet of any road allowance, surveyed road, or other right of way, dwelling, school or church, except in accordance with regulations prescribed by the Minister.

Limitation of number of wells and defining distance apart

59. The Minister may in his discretion, having due regard to good operating practice, limit the number and define the distance apart of wells on any geological unit.

Marking of equipment

60. The lessee shall mark all his rigs, wells, and tanks with conspicuous numbering and designations and shall maintain such markings unchanged.

Daily reports

61. (1) The lessee shall maintain on forms approved by the Director a daily report of drilling operations and such report shall be made in duplicate, one copy being at all times retained at the well and open to inspection by the Supervisory Engineer.

(2) The original report shall be countersigned by the lessee or his agent and forwarded to the Supervisory Engineer at the end of each and every week during the course of operations.

Samples

62. (1) The lessee shall cause to be preserved and maintained a series of samples of the formations penetrated by the drill in each drilling operation, such samples to be taken from successive depths of ten feet or at such intervals as may be directed by the Supervisory Engineer and such samples shall be washed, dried, accurately labelled, and forwarded in accordance with instructions issued by the Director.

Cores

(2) The lessee shall keep and preserve representative specimens of all cores recovered in properly constructed and marked core boxes and such cores shall be available for inspection and examination by the Supervisory Engineer.

63. The lessee shall, when a well being drilled is approaching a formation from which production of petroleum or natural gas may be expected, if required to do so by the Supervisory Engineer, core and adequately test such formation.

Notification of discovery

64. When during operations on a location acquired under these regulations petroleum or natural gas or both be discovered, the lessee shall immediately notify the Supervisory Engineer of the same by the most reasonably expeditious method.

Control of petroleum and natural gas

65. (1) The lessee shall make adequate provision to the satisfaction of the Supervisory Engineer for

the control and conservation of petroleum and natural gas at every well and he shall maintain the equipment provided for such purpose in proper condition.

(2) If at any time in the opinion of the Supervisory Engineer such equipment is inadequate, he may prescribe remedial measures which shall be instituted and completed before any further drilling or production is undertaken.

66. Whenever a stratum penetrated in a well is capable of producing natural gas in commercial quantity or is known to be likely to yield it in such quantity, the lessee shall confine such natural gas to its original stratum until such time when such gas can be produced and utilized without waste.

Sampling water

67. When during drilling or producing operations water makes its appearance in a well or any indication appears that may reasonably be taken as evidence of change in the source or other condition of water already notified as having appeared in the well, the lessee shall immediately notify the Supervisory Engineer and, if the drilling system permits, shall take a sample of not less than one gallon of such water to be placed at the disposal of the Supervisory Engineer for analysis and shall afford him such facilities as may be necessary for sampling the water in or at the well.

Control of water

68. The lessee of a location upon which a well has been or is being drilled shall use every means and endeavour in accordance with the most approved practice to shut-off water above or below the petroleum or natural gas-bearing stratum or strata, to test the efficacy of such shut-off and to prevent water from entering such petroleum or natural gas-bearing strata.

Closing a well

69. (1) The lessee shall at all times take reasonable measures to the satisfaction of the Supervisory Engineer to prevent the injurious access of water to the petroleum-bearing formation.

(2) Upon a well proving to be unproductive, or ceasing to yield petroleum in commercial quantity, or being abandoned for any cause, the lessee shall be at liberty to withdraw the casing from the said well, but in order to prevent water gaining access to the petroleum-bearing formation, the lessee shall immediately close the well by filling it with cement, clay or other approved material which may have the effect of preventing water from gaining access thereto.

Test of water shut-off

70. (1) When a test of the water shut-off is intended to be made by the operator in any well, the lessee shall notify the Supervisory Engineer of the time that such test is to be made.

(2) The Supervisory Engineer shall be present at such test unless such representation is waived by the Director.

(3) Should the test of water shut-off prove to be unsatisfactory, the Supervisory Engineer may direct that further tests be made and may direct that such remedial measures be instituted as may be deemed necessary effectually to exclude water from the well, and any additional tests required or remedial measures shall be made or instituted without unreasonable delay.

Notice of test

71. (1) When it appears to the Supervisory Engineer that water is entering any petroleum or natural gas-bearing stratum penetrated by a well drilled on a location acquired under these regulations or that water in such well is likely to become injurious to the economic production of petroleum and natural gas from the geological unit upon which such well is drilled, he may order a test of water shut-off and designate a day upon which the same shall be made.

(2) Such order shall be in writing and shall be served upon the lessee or his agent at least fifteen days prior to the day designated in the said order upon which the test of the said shut-off shall be made.

(3) Upon receipt of such order the lessee or his agent shall make the said tests in the manner and at the time specified.

Access of salt water

72. The lessee shall take all reasonable care and carry out such measures as may be satisfactory to the Supervisory Engineer to prevent the access of salt water to any river or stream.

Deviation of well from vertical

73. The lessee, when directed by the Supervisory Engineer, shall make, or cause to be made, tests at intervals not exceeding five hundred feet from the top to the bottom of the well or such lesser intervals as the Supervisory Engineer may require for the purpose of ascertaining to what extent, if any, the well deviates from the vertical and shall submit a report of the same with the daily drilling reports at the end of each week.

Electrolog

74. (1) The Supervisory Engineer may require the lessee to take or cause to be taken an electrolog of any well.

(2) The lessee shall see that the electrical resistivity, weight, and viscosity of the mud are recorded on the electrolog.

(3) A copy of all electrologs, whether taken at the direction of the Supervisory Engineer or not, shall be supplied to the Director.

Notice to be given of shooting of well

75. (1) The lessee shall not allow a well to be shot, perforated, or re-treated with acid until the Supervisory Engineer has been notified in writing of such intended action and his consent obtained.

(2) The lessee shall submit to the Supervisory Engineer a report on every well shot, perforated, or treated with acid, on a form obtainable from the Department.

(3) In case any injury is done to the well by shooting, perforation, or treatment with acid, it shall be repaired immediately to the satisfaction of the Supervisory Engineer.

Completion of well

76. When completing the drilling of any well, the lessee shall adopt such methods and use such equipment as the Supervisory Engineer may from time to time prescribe or approve.

Taking of tests by Supervisory Engineer

77. (1) The surface and subsurface equipment of every petroleum and natural gas well shall be so arranged as to allow the Supervisory Engineer to take the closed-in pressure, the bottom-hole pressure, the working pressure, or make any test required at any time, and the lessee shall assist him at any time to carry out tests so required.

Subsurface equipment and surface equipment

(2) The subsurface equipment shall include a pin-collar or its equivalent appended to the lower end of the production string or tubing as a safeguard against loss of testing equipment.

(3) The surface equipment shall include such valve connections as are necessary to sample the oil, gas or water produced.

(4) For sampling the gas there shall be a half-inch sampling valve.

Suspension of operation

78. The lessee shall notify the Supervisory Engineer in writing immediately drilling or production operations are suspended at any well and before suspension he shall so arrange the well head that no waste of gas or petroleum can occur and that no opportunity be afforded for the access of water to or between the casings of the well.

Resumption of operations

79. The lessee shall not deepen nor undertake the repair or the making of other permanent change to the condition of a well in which drilling has been suspended for a period of more than six months, or which has been in production, without previously notifying the Supervisory Engineer in writing to that effect.

Abandonment of well

80. Before abandoning a well drilled on a location acquired under these regulations and before removing any part of the casing from such well, the lessee shall notify the Supervisory Engineer in writing of his intention so to do on forms obtainable from the Director, and shall furnish a log of the well if he has not already done so and shall obtain written approval of such abandonment and removal of casing from the Supervisory Engineer; provided that in any particular case such approval may first be given orally.

Logs to be kept

81. (1) The lessee shall keep and maintain to the satisfaction of the Supervisory Engineer a careful and accurate log of each and every well drilled, such log to show the character, depth, and thickness of each formation passed through or penetrated, and particularly to show the depth, thickness, and, where tests are made, the porosity, permeability, and saturation of each stratum containing petroleum, natural gas, or water, the pressure, yield, and chemical characteristics of each significant occurrence of petroleum, natural gas, and water, together with full details of electrologs, deviation from the vertical, casing, cementation, treatments with acid, perforations, plugs, and all other information pertinent to the condition of the well and its productive capacity.

(2) Such log shall be kept in the field office of the lessee and shall be at all times open to the inspection of the Supervisory Engineer.

(3) Upon the completion of any well or upon the suspension of operations upon any well for a period of ninety days, a copy of the said log, in duplicate, and in such form as the Supervisory Engineer shall direct, shall be filed within thirty days after such completion, or after the expiration of the ninety-day period, with the Director, and a like copy shall be filed upon the completion of any additional work in the deepening or repairing of any such well.

Plans to be furnished annually

82. The lessee shall furnish the Director at least once each twelve-month period a plan in duplicate showing the position of all wells, test holes, pipelines, tanks, buildings, or other structures on the location and such plan shall be prepared on a scale of not less than one thousand three hundred and twenty feet to the inch.

Monthly report of petroleum and natural gas produced

83. In the event of petroleum and natural gas being produced from any well or wells, the lessee shall mail to the Director not later than the twenty-fifth day of each month, a full report of the petroleum and natural gas produced during the preceding month and of its disposal, such report to show:

(*a*) the quantity of petroleum and natural gas produced from each well during the preceding month;

(*b*) the specific gravity of such petroleum;

(*c*) the number of days during which petroleum or natural gas was produced from each well;

(*d*) the amount of petroleum or natural gas delivered from and used on the location; and

(*e*) the amount of petroleum in storage on the location at the end of the month.

Restriction of flow of natural gas

84. The production of natural gas from any well shall be restricted to the market demand and in no event shall the production exceed twenty-five per centum of the open flow of the well, provided that the Minister may, in his discretion, allow such additional volume to be used as he deems expedient.

Waste of petroleum and natural gas

85. (1) The lessee shall take all reasonable and proper precautions to the satisfaction of the Minister to prevent waste of petroleum and natural gas and his operations shall at all times be so conducted as to enable him to prevent the escape of petroleum and natural gas.

(2) Waste shall be deemed to occur inter alia when in the opinion of the Minister

(*a*) petroleum or natural gas is rendered unavailable for use in accordance with the best and most economic operating practice by reason of the employment of extravagant or inefficient means of production, storage or transport;

(*b*) the ultimate recovery of the petroleum or natural gas from any geological unit is curtailed or otherwise prejudiced by reason of the failure of the lessee or lessees to comply with these regulations and such additional regulations as the Minister may from time to time make in accordance with section ninety-five;

(*c*) petroleum or natural gas or both are produced in excess of the allowable production as may be defined by the Minister in accordance with section eighty-seven;

(*d*) natural gas is produced from any well classified by the Minister as a producer of petroleum in excess of the amount needed to produce such petroleum in accordance with good operating practice or of the amount the Minister may designate;

(*e*) the amount of water produced from any well or wells unduly lowers the pressure in the productive horizon or horizons or otherwise disturbs the uniform withdrawal from the geological unit, or

(*f*) the excess of water produced over an amount that may be determined by the Minister is not returned as directed to the productive horizon.

Delimitation of geological unit

86. (1) The Minister may in his discretion delimit an area upon which petroleum or natural gas has been proved to occur as a geological unit and may require that drilling and production on all locations comprised therein shall proceed according to a common plan having for its purpose the more efficient and economic production of petroleum and natural gas.

(2) If the lessees fail to agree within six months of such delimitation upon a plan satisfactory to the Minister, he may appoint an officer of the Department to draw up a plan and all lessees shall operate the wells upon their locations as such officer directs for such period as the Minister may decide.

87. The Minister may prescribe regulations for the determination of the allowable production of any well or wells and regulate the taking of petroleum or natural gas from any source of supply so as to prevent waste and to ensure conservation of these natural resources in accordance with the best practice.

Minister may assume control of well

88. (1) The Minister may assume control of the operation of a well and adopt such means as may appear to him to be necessary or expedient to prevent the escape of petroleum or natural gas if the lessee or his agent fail to do so or appear unable to do so.

(2) The Minister may assume control of the operation of a well and adopt such means as may appear to him to be necessary or expedient to prevent the access of water to the well, the access of water to petroleum or natural gas-bearing strata or both, or the escape of water from the well if the lessee or his agent fail to do so or appear unable to do so.

(3) Such officer or officers of the Department as the Minister may designate may enter upon the premises of any location acquired under these regulations and perform the work defined under subsections one and two of this section and for that purpose may take possession of and use any drilling rig, derrick, tools, machinery, other appliances or equipment, fuel, water, and other materials, necessary for the performance of the work which may be upon the location or which may be the property of the lessee.

(4) The Minister may recover from the lessee of the location upon which he takes control of a well for the reasons outlined in subsections one and two of this section all costs and expenses incurred by the said officer or officers in the performance of the operations so undertaken.

Safety precautions to be taken

89. (1) No inflammable product or waste product of any kind from any petroleum or natural gas well shall be permitted to flow into any lake, stream, or other body of water, or upon any highway or public road, and all waste of petroleum and refuse from tanks or wells must be drained into adequate receptacles at a safe distance from tanks, wells, or buildings to be immediately burned or transported from the premises, and in no case shall it be permitted to flow over the land.

(2) The lessee shall cause to be cleared of combustible material such area around any well or other works constructed or operated by him as may be required by the Supervisory Engineer and where necessary and practicable the lessee shall construct and maintain a ploughed fire-guard around such area.

Disposal of earth, rock or waste

90. The lessee shall at all times during the term of his lease make such provisions to the satisfaction of the Supervisory Engineer for the disposal of the earth, rock, waste or refuse of the location that the same shall not be an inconvenience, nuisance, or obstruction to any roadway, pass, passage, river, creek or place or to any private, public or Crown lands, or conflict or embarrass the operating of any mines on the said lands, or in any manner whatsoever occasion any private or public damage, nuisance, or inconvenience.

Enclosure of openings or excavations

91. The lessee shall enclose and keep enclosed all abandoned openings or excavations made in connection with or for the purpose of prospecting for and producing petroleum and natural gas or other operations on the location with fences or walls sufficient to prevent any person or animal falling thereinto, such fences or walls to be of a height and character satisfactory to the Supervisory Engineer.

Charges for products for use in N.W.T. and Yukon

92. (1) The lessee shall from time to time on the instruction of the Minister submit a schedule of rates and prices which the lessee is charging for petroleum products obtained from the location for use in the Northwest Territories or Yukon Territory for approval or adjustment in so far as said rates and prices are not fair and reasonable, and shall thereafter before putting into effect any new schedule of rates and prices submit the same for approval or adjustment and no such rates or prices shall thereafter be legal or enforceable until so submitted and approved.

(2) The Minister may require the submission or resubmission at any time of existing schedules of rates and prices for adjustment and approval.

Cancellation of lease for failure to comply with regulations

93. In case of the failure or neglect on the part of the lessee to comply fully with these regulations, the Minister may give written notice to the lessee specifying the breaches complained of, and unless the default specified in the said notice be remedied within ninety days the lease shall be subject to cancellation.

Lessee and Permittee

94. Where the term lessee is used in these regulations in relation to operations conducted thereunder, it shall include permittee.

Additional regulations

95. The Minister may from time to time make such additional regulations as may appear to be necessary or expedient governing the manner in which drilling operations shall be conducted and the manner in which wells shall be operated, also such orders as he may deem necessary for the interpretation and effective administration of these regulations.

Pipelines

96. Where no adequate existing facilities are available a lessee shall have the right to build, maintain, and operate a pipeline and connecting feeder lines and for the purposes thereof shall be entitled to free right of way over Crown lands and the use of public roads. The pipeline shall be operated as a common carrier under such regulations as the Governor in Council may impose.

AIR TRANSPORT BOARD

APPLICATIONS FOR LICENCES TO OPERATE NON-SCHEDULED COMMERCIAL AIR SERVICES—SUSPENSION OF FILING FOR SIX MONTHS' PERIOD

A review of the operation of non-scheduled charter commercial air services in Canada indicates that economic results have not been entirely satisfactory. In view of this fact the Air Transport Board has decided to make an extensive survey to determine the actual potential for non-scheduled air operations in Canada.

Notice is hereby given that pending the conclusion of the above mentioned survey the Board will not consider new applications for licences for a period of six months ending April 30, 1948, except where, in the opinion of the Board, conditions arise during the period to create an urgent public need for new or additional air services. In no case should an applicant make any capital expenditure in regard to a proposed service until the Board has issued a decision approving an application.

By Order,

A. S. McDONALD,
Acting Secretary.

4. *Une compagnie de banque; compagnie d'assurance; compagnie fiducière; compagnie de prêt* ou *compagnie industrielle,* sans pouvoirs exclusifs—dans la *Gazette du Canada* seulement;

5. Et si les entreprises d'une compagnie (constituée ou à constituer) doivent être déclarées d'utilité publique au Canada, cette intention doit être expressément mentionnée dans l'avis; et les requérants doivent adresser une copie de cet avis, sous pli recommandé, au secrétaire de chaque conseil de comté et de chaque corporation municipale pouvant être particulièrement affectée par l'exécution ou l'exploitation de ces entreprises, ainsi qu'au secrétaire de la province dans laquelle des entreprises sont ou peuvent être situées; et la preuve de l'observation de cette prescription par les requérants doit être établie par une déclaration statutaire.

(B) Lorsque la demande a pour objet de modifier une loi existante:

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient—l'avis doit être le même *mutatis mutandis* que celui pour l'obtention d'une loi constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la construction ou l'achèvement d'une ligne de chemin de fer,

d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres entreprises déjà autorisées—dans un des principaux journaux de l'endroit où la compagnie a ou est autorisée à avoir son siège social;

3. Afin d'élargir les pouvoirs d'une compagnie (sans comporter attribution de droits exclusifs); d'accroître ou de réduire le capital social d'une compagnie; ou d'augmenter ou modifier son pouvoir d'émettre des obligations ou ses autres pouvoirs d'emprunt; ou de présenter un amendement pouvant porter atteinte aux droits ou aux intérêts des actionnaires, des détenteurs d'obligations ou des créanciers de la compagnie—dans un des principaux journaux du lieu de son siège social.

(C) Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, doivent être publiés au moins une fois par semaine pendant quatre semaines consécutives; et lorsqu'ils sont publiés dans les provinces de Québec et du Manitoba, ils doivent être en langues anglaise et française.

Des exemplaires marqués de chaque numéro de tous les journaux contenant l'avis doivent être adressés au greffier du Sénat et porter la mention: "Avis de bill privé"; au lieu des journaux, une déclaration statutaire attestant que l'avis a été régulièrement publié peut être adressée au greffier du Sénat.

Tout avis adressé sous pli recommandé doit être mis à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale deux semaines au moins avant l'examen de la pétition par le comité des ordres permanents; et une déclaration statutaire établissant le fait de la mise à la poste doit être transmise au greffier du Sénat.

108. Nulle pétition demandant la constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie de canal, ou le prolongement de la ligne d'un chemin de fer ou d'un canal existant ou autorisé, ne doit être étudiée par le comité des ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé de l'entreprise, ainsi que chaque comté, canton, district ou municipalité par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement dont la construction est projetée.

110. Toute pétition tendant à obtenir un bill privé ne sera reçue par le Sénat que si elle a été déposée chez le greffier du Sénat au cours des six premières semaines de la session; et tout bill privé introduit au Sénat doit être présenté au Sénat dans un délai de deux semaines après que l'examinateur des pétitions ou le comité des ordres permanents aura fait un rapport favorable à la pétition se rapportant à ce bill; et aucune motion demandant la suspension du présent ordre permanent ne sera prise en considération à moins que le comité des ordres permanents n'ait au préalable présenté un rapport recommandant pareille suspension.

114. Toute personne qui désire présenter un bill privé doit remettre au greffier du Sénat, s'il est projeté que le bill prenne naissance au Sénat, une copie du bill en anglais ou en français, avec un montant suffisant pour en payer la traduction, laquelle sera faite par les fonctionnaires du Sénat; elle doit aussi payer les frais d'impression de 600 exemplaires anglais et de 200 exemplaires français. Le requérant doit pareillement verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant sa mise à l'étude par le comité auquel il est renvoyé, la somme de deux cents dollars avec les frais d'impression de la loi pour l'incorporer dans les Statuts; et il doit remettre au greffier de ce comité un reçu de ce versement.

La taxe à acquitter lors de la deuxième lecture d'un bill n'est payée qu'à la Chambre où le bill est présenté.

Modèle d'un bill amendant une loi

60A.—(1) Dans la confection des bills amendant des textes législatifs existants, les amendements ne doivent pas ordinairement être effectués au moyen de clauses qui ajoutent, retranchent ou remplacent des mots, mais au moyen de clauses qui réédictent l'article, le paragraphe ou la disposition, telle qu'amendée.

(2) Dans le texte du bill, sur la page de gauche, le nouveau texte doit être indiqué par les signes typographiques les plus appropriés à chaque cas; crochets, italique, texte souligné, astérisques, etc. En regard de chaque clause, sur la page de droite, le texte amendé par le bill, ou la partie importante de ce texte doit être imprimée, et les changements projetés doivent y être indiqués de la manière prévue ci-dessus.

(3) Lorsqu'une clause abroge un article existant, un paragraphe ou une autre disposition d'un article, cet article, ce paragraphe ou cette autre disposition, ou la partie qui en est importante, doit être imprimée en regard de la clause.

(4) Un mémoire du rédacteur expliquant brièvement les motifs de chaque clause doit être annexé au bill, ou distribué avec le bill. Lorsque possible, le mémoire doit être imprimé sur la page de droite du bill, en paragraphes placés en regard des clauses visées, et portant un numéro correspondant.

(5) Les règles ci-dessus s'appliquent, autant que possible, à la réimpression des bills.

L. C. MOYER,
Greffier du Sénat.

CHAMBRE DES COMMUNES

EXTRAIT DU RÈGLEMENT DE LA CHAMBRE DES COMMUNES TOUCHANT LA PUBLICATION DES AVIS

95. (1) Toute pétition introductive de bill privé de quelque nature qu'il soit, doit être annoncée par avis publié dans la *Gazette du Canada*. Cet avis doit exposer clairement et distinctement la nature et l'objet du bill projeté; il doit être signé par les pétitionnaires ou en leur nom, avec indication de l'adresse des signataires. Si la pétition tend à une loi de constitution en corporation, l'avis doit mentionner le nom de la compagnie projetée. Si les travaux d'une compagnie, qu'elle soit constituée en corporation ou qu'il s'agisse de la constituer en corporation doivent être reconnus comme étant destinés à profiter au Canada d'une manière générale, l'avis doit énoncer cette intention expressément, et les pétitionnaires doivent faire parvenir une copie de cet avis par lettre recommandée, au secrétaire de chaque comté ou municipalité que la construction ou la mise en œuvre de ses ouvrages peut intéresser, ainsi qu'au secrétaire de la province où ces mêmes ouvrages sont ou pourront être situés. Tout avis

ainsi expédié par lettre recommandée doit être mis à la poste assez tôt pour arriver à destination au moins deux semaines avant la prise en considération du bill par le comité auquel il peut être renvoyé. La preuve que les requérants se sont conformés à cette règle s'établit au moyen d'une déclaration statutaire.

(2) Outre l'avis devant figurer dans la *Gazette du Canada*, il doit en être publié un semblable dans quelque journal important, comme suit:

(A) 1. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de chemin de fer ou de canal, cet avis similaire doit être publié dans la principale cité, ville ou municipalité de village de chaque comté ou district que doit traverser le chemin de fer ou le canal projeté;

2. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de télégraphe ou de téléphone, cet avis similaire doit être publié dans la principale cité ou ville de chaque province ou territoire où la compagnie en question se propose d'établir son service;

3. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie créée en vue de la construction de tous ouvrages dont l'établissement ou la mise en œuvre pourrait intéresser tout particulièrement une localité quelconque, ou en vue de tous droits ou privilèges exclusifs, ou encore en vue de toute opération qui pourrait porter atteinte aux droits ou aux biens d'autrui, cet avis similaire doit être publié dans les diverses localités où la loi projetée pourrait porter atteinte aux affaires, droits ou biens d'autres personnes ou compagnies;

4. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation un établissement bancaire, une compagnie d'assurance, une compagnie de fiducie, une compagnie de prêts ou une compagnie industrielle non dotée de pouvoirs exclusifs, il suffit d'un avis dans la *Gazette du Canada*.

(B) 1. Lorsque la pétition a pour objet de modifier une loi existante en vue de prolongement de tout chemin de fer ou canal ou de la construction d'un embranchement de voie ferrée ou de canal, il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité, ville ou municipalité de village de chaque comté ou district devant être desservi par ce prolongement ou cet embranchement.

2. Lorsque la pétition a pour objet de modifier une loi existante en vue de prorogation du délai fixé pour la construction ou l'achèvement de toute ligne de chemin de fer, de tout embranchement ou prolongement de ligne de chemin de fer, de tout canal, de tout réseau télégraphique ou téléphonique, ou de tout ouvrage déjà autorisé il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité ou ville de chaque district intéressé.

3. Lorsque la pétition a pour objet de modifier une loi existante en vue de la continuation d'une charte ou de l'extension des pouvoirs d'une compagnie (quand elle ne comporte pas la concession de droits exclusifs); ou en vue de l'augmentation ou de la réduction du capital-actions d'une compagnie quelconque; ou en vue de l'accroissement ou de la modification de sa faculté d'émettre des obligations ou de contracter des emprunts d'un autre genre; ou encore en vue de toute modification touchant aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie, il est publié un avis à l'endroit où est situé le siège social de la compagnie ou à l'endroit où la compagnie est autorisée à établir son siège social.

(C) Lorsque la pétition a pour objet d'obtenir, pour quelque personne ou corporation existante, des droits ou privilèges exclusifs ou encore la faculté d'accomplir une chose dont la mise en œuvre intéresserait les droits ou biens d'autrui, il est publié un avis dans les localités où les affaires, les droits ou les biens d'autrui peuvent être spécialement compromis par la loi projetée.

(3) Tout avis de ce genre, qu'il soit inséré dans la *Gazette du Canada* ou dans un journal, doit être publié au moins une fois par semaine durant une période de quatre semaines consécutives. Lorsque la pétition prend naissance dans la province de Québec ou dans la province du Manitoba, l'avis en doit être publié en anglais dans un journal anglais et en français dans un journal français, ainsi qu'en anglais et en français dans la *Gazette du Canada*. S'il n'y a pas de journal dans la localité où il faut annoncer ladite pétition, l'avis doit être publié à l'endroit le plus rapproché où est imprimé un journal. La preuve que l'avis en question a été dûment publié s'établit, dans chaque cas par voie de déclaration statutaire. Toute déclaration de cette nature doit être envoyée au greffier de la Chambre, et elle doit porter au dos l'indication: "Avis de bill privé".

Pétitions introductives de bills privés

92. Nulle pétition introductive de bill privé n'est reçue par la Chambre si elle n'est pas présentée dans les six premières semaines de la session. Tout bill privé prenant naissance à la Chambre des communes doit y être présenté dans les deux semaines qui suivent le jour où la pétition a été rapportée favorablement par l'examinateur des pétitions ou par le comité du Règlement. Nulle motion portant suspension du présent article ne peut être accueillie à moins que le comité du Règlement n'ait préalablement présenté un rapport recommandant cette suspension, en y consignant les motifs de sa décision.

97. Nulle pétition portant construction en corporation d'une compagnie de chemin de fer ou d'une compagnie se proposant d'exploiter un canal, ou portant prolongement d'une ligne de chemins de fer ou d'un canal existant ou autorisé, ou portant construction d'un embranchement de voie ferrée ou de canal, ne sera prise en considération par l'examinateur, ou par le comité du Règlement, tant qu'il n'aura pas été déposé entre les mains dudit examinateur une carte ou un plan indiquant l'endroit où se trouveront ces ouvrages, et chaque comté, canton, municipalité ou district à travers lequel le chemin de fer, le canal, le prolongement ou l'embranchement projeté doit être construit.

Bills privés

93. (1) Quiconque désire obtenir un bill privé doit déposer entre les mains du greffier de la Chambre, au plus tard le premier jour de la session, une copie de ce bill en anglais ou en français, ainsi qu'une somme suffisante pour en défrayer la traduction, qui est faite par le personnel de la Chambre, et l'impression, qui est exécutée par le département des impressions publiques.

(2) Le promoteur d'un bill privé doit après la deuxième lecture de ce bill et avant sa prise en considération par le comité qui en est saisi défrayer l'impression de la loi dans le recueil des statuts et payer un droit de cinq cents dollars.

FRAIS ADDITIONNELS

(3) En sus des frais précités, les droits suivants doivent être imposés et payés:

a) Lorsqu'il y a suspension d'un article du Règlement relativement à un bill ou à la pétition introductive qui s'y rattache $ 100

b) Lorsqu'un bill est présenté en Chambre après la huitième semaine et avant l'expiration de la douzième semaine de la session.. 100

c) Lorsqu'un bill est présenté en Chambre après la douzième semaine de la session 200

d) Lorsque le capital-actions projeté d'une compagnie ne dépasse pas $250,000.. .. 100

e) Lorsque le capital-actions projeté d'une compagnie dépasse $250,000, mais n'est pas supérieur à $500,000.. 200

f) Lorsque le capital-actions projeté d'une compagnie dépasse $500,000, mais n'est pas supérieure à $750,000.. 300

g) Lorsque le capital-actions projeté d'une compagnie dépasse $750,000, mais n'est pas supérieur à $1,000,000.. 400

h) Lorsque le capital-actions projeté d'une compagnie dépasse $1,000,000, mais n'est pas supérieur à $1,500,000.. 600

i) Lorsque le capital-actions projeté d'une compagnie dépasse $1,500,000, mais n'est pas supérieur à $2,000,000.. 800

j) Pour chaque million de dollars de capital-actions additionnel ou fraction de million.. 200

(4) Lorsqu'un bill porte augmentation du capital-actions d'une compagnie existante, le droit additionnel à débourser est basé sur le tarif précité, et il n'y est fait état que du montant de l'accroissement.

(5) *a*) Lorsqu'un bill tend à l'augmentation de la faculté d'emprunt d'une compagnie ou en comporte l'augmentation sans qu'il y ait accroissement du capital-actions, le droit additionnel est de trois cents dollars.

b) Lorsqu'un bill porte augmentation à la fois du capital-actions et de la faculté d'emprunt d'une compagnie, le droit additionnel est perçu sur les deux.

(6) Si, à quelque phase du bill, il y a augmentation du capital-actions projeté d'une compagnie ou de sa faculté d'emprunt, le bill en question ne peut franchir une autre étape, tant que ces promoteurs n'auront pas solder les frais occasionnés par cette modification.

(7) Dans la présente règle, l'expression "capital-actions projeté" comprend toute augmentation de capital-actions prévue par le bill; et quand un bill porte faculté d'augmenter à quelque époque le chiffre du capital-actions, le droit additionnel est calculé sur le maximum de l'augmentation projetée, dont le bill fait mention.

(8) Les droits additionnels établis par la présente règle s'appliquent aussi aux bills privés qui ont pris naissance au Sénat; néanmoins, si la pétition introductive d'un bill privé de ce genre a été présentée à la Chambre des communes dans les six premières semaines de la session, les droits additionnels prévus aux alinéas *b*) ou *c*) du paragraphe 3 ne sont pas exigibles.

Du bill-type

96. (1) Le greffier en chef des bills privés remplit les fonctions d'examinateur des bills privés, et, comme tel, il est tenu d'étudier et de reviser tous les bills privés antérieurement à leur impression, en vue d'y établir une certaine uniformité, lorsque la chose est possible, et de s'assurer qu'ils ont été élaborés conformément aux articles du Règlement de la Chambre relatifs aux bills privés.

(2) Tout bill tendant à la constitution en corporation d'une compagnie doit, lorsqu'il a été adopté une formule de bill-type, être rédigé en conformité de ce modèle, dont il peut être obtenu des exemplaires du greffier de la Chambre. Toute disposition d'un bill de ce genre qui n'est pas conforme au bill-type doit être insérée entre crochets ou soulignée, et elle doit être imprimée de la sorte.

(3) Lorsqu'un bill privé porte modification d'un article, paragraphe ou alinéa quelconque d'une loi existante, ce même article, paragraphe ou alinéa doit être abrogé dans le texte du bill et reconstitué selon la modification que les auteurs du bill veulent y apporter, la nouvelle rédaction devant être soulignée. L'article, le paragraphe ou alinéa que les auteurs veulent faire abroger, ou encore ce qu'il renferme d'essentiel, doit être imprimé sur la feuille du côté droit en regard de ce même article, paragraphe ou alinéa.

(4) Lorsqu'un bill privé tend à abroger un article, paragraphe ou autre partie d'un article, cet article, ce paragraphe ou cette autre partie, ou encore ce qui s'y trouve d'essentiel, doit être imprimé en regard de l'article du bill.

(5) Une note établissant brièvement l'objet d'une disposition d'un caractère exceptionnel ou dont la teneur s'écarte des dispositions du bill-type ou des articles servant de modèle, doit être imprimée en regard de l'article du bill.

CARTE DU PLAN ACCOMPAGNANT LE BILL

98. Nul bill portant constitution en corporation d'une compagnie de chemin de fer ou de canal, nul bill tendant à faire autoriser la construction d'embranchements ou de prolongements se rattachant à des lignes de chemins de fer ou à des canaux existants, nul bill portant modification de la route suivie par un chemin de fer ou un canal exploité par une compagnie déjà constituée en corporation ne doit être pris en considération par le comité des chemins de fer tant qu'il n'aura pas été produit devant ledit comité au moins une semaine avant la prise en considération du bill, une carte ou un plan établi sur une échelle d'au moins un demi-pouce au mille, indiquant le territoire sur lequel il est question de construire les ouvrages projetés et aussi les ouvrages analogues qui y ont déjà été construits ou autorisés, ou qui intéressent la région ou la partie de région devant être desservie par les services projetés. Cette carte ou ce plan doit porter la signature de l'ingénieur ou de toute autre personne qui l'a dressé.

GEORGE R.
[L.S.]

CANADA

GEORGE VI, par la grâce de Dieu, Roi de Grande-Bretagne, d'Irlande et des Territoires britanniques au delà des mers, Défenseur de la Foi.

A TOUS CEUX QUI les présentes verront,—SALUT:

Préambule. Enonciation des lettres patentes du 23 mars 1931

CONSIDÉRANT que, par certaines lettres patentes sous le Grand Sceau, datées, à Westminster, du vingt-troisième jour de mars 1931, feu Sa Majesté le roi George V a constitué, ordonné et déclaré qu'il devrait y avoir un gouverneur général et commandant en chef dans et sur le Canada, et que la personne remplissant ladite charge de gouverneur général et commandant en chef devrait être nommée, à l'occasion, par une commission sous les seing et sceau royaux;

CONSIDÉRANT qu'à Saint-James, le vingt-troisième jour de mars 1931, feu Sa Majesté le roi George V a fait remettre sous les seing et sceau royaux certaines instructions au gouverneur général et commandant en chef;

ET CONSIDÉRANT qu'il Nous plaît de révoquer lesdites lettres patentes et instructions et de les remplacer par d'autres dispositions;

Révocation des lettres patentes du 23 mars 1931 et des instructions

A CES CAUSES, Nous révoquons et terminons, par les présentes, lesdites lettres patentes et tout ce qu'elles renferment, ainsi que toutes leurs modifications, et lesdites instructions, mais sans préjudice des actes validement accomplis sous leur régime:

ET NOUS déclarons qu'il Nous plaît de mander ce qui suit:

Constitution de la charge de gouverneur général et commandant en chef

I. Nous constituons, ordonnons et déclarons, par les présentes, qu'il doit exister un gouverneur général et commandant en chef dans et sur le Canada et que les nominations à la charge de gouverneur général et commandant en chef dans et sur le Canada doivent être faites par commission sous Notre Grand Sceau du Canada.

Ses pouvoirs et attributions

II. Et, par les présentes, Nous autorisons Notre gouverneur général, sur l'avis de Notre Conseil privé pour le Canada, ou de tous membres dudit Conseil ou individuellement, selon l'exigence du cas, à exercer tous les pouvoirs et attributions dont Nous sommes validement investi à l'égard du Canada, et, pour plus de certitude, mais sans restreindre la portée générale de ce qui précède, à faire et exécuter, de la manière susdite, tout ce qui peut ressortir à sa charge et à la confiance que nous avons mise en lui en conformité des divers pouvoirs et attributions qui lui ont été accordés ou destinés en vertu des Actes de l'Amérique du Nord britannique, de 1867 à 1946, et des pouvoirs et attributions ci-après conférés par les présentes lettres patentes et dans toute commission qui pourra lui être décernée sous Notre Grand Sceau du Canada et sous le régime des lois qui sont ou pourront être en vigueur au Canada.

Grand Sceau

III. Et Nous autorisons, par les présentes, Notre gouverneur général à garder et employer Notre Grand Sceau du Canada pour sceller tout ce qui pourra être établi sous Notre Grand Sceau du Canada.

Nomination de juges, etc.

IV. Et Nous autorisons en outre Notre gouverneur général à créer et nommer, en Notre nom et pour Nous, tous les juges, commissaires, juges de paix et autres fonctionnaires et officiers nécessaires (y compris les fonctionnaires diplomatiques et consulaires) et ministres du Canada qui pourront être validement créés ou nommés par Nous.

Suspension ou destitution

V. Et Nous autorisons en outre Notre gouverneur général, dans la mesure où cela Nous est validement possible, pour une raison lui apparaissant suffisante, à démettre de ses fonctions, ou à suspendre de l'exercice de celles-ci, toute personne remplissant une charge au Canada, sous le régime ou en vertu d'une commission ou d'un brevet accordé, ou qui pourra être accordé, par Nous en Notre nom ou sous Notre autorité.

Convocation, prorogation ou dissolution du Parlement du Canada

VI. Et Nous autorisons en outre Notre gouverneur général à exercer tous les pouvoirs que Nous possédons validement en ce qui concerne la convocation, la prorogation ou la dissolution du Parlement du Canada.

Pouvoir de nommer des suppléants

VII. Et considérant que, par les Actes de l'Amérique du Nord britannique, de 1867 à 1946, il est prévu, entre autres choses, qu'il Nous sera loisible, si Nous le jugeons à propos, d'autoriser Notre gouverneur général à nommer une ou plusieurs personnes, conjointement ou séparément, pour agir comme son ou ses suppléants dans quelque partie ou toutes parties du Canada, et exercer, en cette qualité, durant le plaisir de Notre gouverneur général, les pouvoirs, attributions et fonctions de Notre gouverneur général que celui-ci jugera nécessaire ou opportun d'assigner à ce ou ces suppléants, sous réserve de toutes restrictions ou instructions formulées ou communiquées, au besoin, par Nous: A ces causes, nous autorisons par les présentes Notre gouverneur général, sous réserve des restrictions et instructions susmentionnées, à nommer une ou plusieurs personnes, conjointement ou séparément, pour agir comme son ou ses suppléants, dans quelque partie ou toutes parties du Canada et exercer en cette qualité, durant son plaisir, les pouvoirs, attributions et fonctions de Notre gouverneur général que celui-ci jugera nécessaire ou opportun d'assigner à ce ou ces suppléants. Toutefois, la nomination de ce ou ces suppléants ne doit pas porter atteinte à l'exercice de l'un quelconque de ces pouvoirs, attributions ou fonctions par Notre gouverneur général en personne.

Succession

VIII. Et Nous déclarons, par les présentes, qu'il Nous plaît que, en cas de décès, incapacité, renvoi ou absence de Notre gouverneur général hors du Canada, tous et chacun des pouvoirs et attributions qui lui sont ici accordés doivent, jusqu'à ce que Notre nouveau plaisir y soit signifié, être dévolus à Notre juge en chef du Canada à l'époque considérée (ci-après désigné comme Notre juge en chef), ou, en cas de décès, d'incapacité, de renvoi ou d'absence hors du Canada, de Notre juge en chef, ensuite au juge alors le plus ancien de la Cour suprême du Canada, résidant à l'époque au Canada et n'étant pas frappé d'incapacité. Ledit juge en chef ou juge le plus ancien de la Cour suprême du Canada, tant qu'il sera investi desdits pouvoirs et attributions, sera appelé Notre administrateur.

Toutefois, ce juge le plus ancien ne doit agir dans l'administration du Gouvernement que si Notre dit juge en chef ne se trouve pas au Canada et n'est pas capable d'administrer le Gouvernement.

Réserve: prestation de serment d'office par l'administrateur avant d'administrer le Gouvernement

Cependant, aucun de ces pouvoirs ou attributions ne devra être dévolu audit juge en chef ou autre juge de la Cour suprême du Canada tant qu'il n'aura pas prêté les serments destinés à être prêtés par Notre gouverneur général.

En outre, chaque fois et aussi souvent que Notre gouverneur général s'absentera temporairement du Canada, avec Notre permission, pour une période n'excédant pas un mois, Notre gouverneur général pourra alors et dans chacun de ces cas continuer à exercer tous et chacun des pouvoirs à lui dévolus aussi complètement que s'il résidait au Canada, y compris le pouvoir de nommer un ou des suppléants ainsi qu'il est prévu à l'Article VIII de Nos présentes lettres patentes.

Les officiers, fonctionnaires et ministres doivent obéir et prêter leur concours au gouverneur général

IX. Et Nous mandons et ordonnons, par les présentes, à tous Nos officiers, fonctionnaires et ministres, civils et militaires, et à toutes les autres personnes qui habitent le Canada, d'obéir, d'aider et de prêter leur concours à Notre gouverneur général, ou, advenant son décès, son incapacité ou son absence, à la personne qui peut, à l'occasion, administrer le Gouvernement du Canada, sous le régime de Nos présentes lettres patentes.

Publication de la commission du gouverneur général. Prestation de serments par le gouverneur général, etc.

X. Et Nous déclarons par les présentes qu'il Nous plaît que Notre gouverneur général du jour fasse, avec toute la solennité voulue, lire et publier Notre commission sous Notre Grand Sceau du Canada, nommant Notre gouverneur général du jour en présence de Notre juge en chef, ou autre juge de la Cour suprême du Canada, et de membres de Notre Conseil privé pour le Canada, et que Notre gouverneur général prête le serment d'allégeance selon la formule suivante: "Je, , jure d'être fidèle et de porter une sincère allégeance à Sa Majesté le roi George VI, à Ses héritiers et à Ses successeurs, en conformité de la loi. Ainsi Dieu me soit en aide"; et que, de même, il prête le serment ordinaire pour l'accomplissement régulier des fonctions de Notre gouverneur général et commandant en chef dans et sur le Canada, et pour l'administration convenable et impartiale de la justice; lesquels serments Notre juge en chef ou, en son absence ou s'il est autrement frappé d'incapacité, tout juge de la Cour suprême du Canada, doit lui déférer et faire prêter, et il en est requis par les présentes.

Serments devant être déférés par le gouverneur général

XI. Et Nous autorisons et obligeons Notre dit gouverneur général, par lui-même ou par toute autre personne devant être autorisée par lui à cette fin, à déférer, au besoin, à toutes et à chacune des personnes qui occuperont une charge ou un poste de confiance ou comportant une rémunération au Canada, ledit serment d'allégeance, ainsi que tout autre ou tous autres serments qui peuvent être prescrits, à l'occasion, par des lois ou statuts établis à cette fin.

Pardon
Remise des amendes. Règlement concernant le pouvoir de gracier.

XII. Et Nous autorisons en outre Notre gouverneur général, selon qu'il le jugera opportun, en Notre nom et pour Nous, lorsqu'un crime ou une infraction aux lois du Canada a été commise pour laquelle l'auteur de l'infraction peut subir un procès en vertu desdites lois, à gracier tout complice, à l'égard de ce crime ou de cette infraction, qui fournira des renseignements pouvant amener la condamnation du principal auteur de l'infraction ou de l'un quelconque de ces auteurs d'infraction, s'il y en a plusieurs; et de plus à accorder à tout auteur d'infraction déclaré coupable de tel crime ou infraction devant n'importe quel tribunal, ou devant n'importe quel juge, juge de paix ou magistrat administrant les lois du Canada, un pardon, soit absolu, soit sujet à des conditions licites, ou un sursis à l'exécution de la sentence d'un tel auteur d'infraction, pendant la période que Notre gouverneur général pourra juger pertinente, et à faire remise de toute amende, peine ou confiscation qui peut Nous devenir due et payable. Et Nous mandons et ordonnons que Notre gouverneur général n'accorde aucun pardon ni aucun sursis à un tel auteur d'infraction sans avoir préalablement obtenu, dans les cas de peine de mort, l'avis de Notre Conseil privé pour le Canada et, dans autres cas, l'avis d'au moins un de ses ministres.

Pouvoir de délivrer des exequatur

XIII. Et Nous autorisons en outre Notre gouverneur général à délivrer des exequatur, en Notre nom et de Notre part, aux représentants consulaires des pays étrangers, à qui des commissions de nomination ont été délivrées par les chefs d'Etat desdits pays.

Absence du gouverneur général

XIV. Et considérant que l'absence de Notre gouverneur général peut causer un tort considérable à Notre service et à la sécurité du Canada, il ne doit pas quitter le Canada sans que Nous le lui ayons permis par l'entremise du premier ministre du Canada.

Pouvoirs réservés à Sa Majesté de révoquer, changer ou modifier les présentes lettres patentes

XV. Et, par les présentes, Nous Nous réservons, ainsi qu'à Nos héritiers et successeurs, le plein pouvoir et la pleine faculté, au besoin, de révoquer, changer ou modifier Nos présentes lettres patentes selon qu'il semblera Nous convenir ou leur convenir.

Publication des lettres patentes

XVI. Et Nous mandons et ordonnons en outre que Nos présentes lettres patentes soient lues et proclamées à l'endroit ou aux endroits au Canada que Notre gouverneur général jugera appropriés.

Entrée en vigueur des lettres patentes

XVII. Et Nous déclarons en outre que Nos présentes lettres patentes entreront en vigueur le premier jour d'octobre 1947.

EN FOI DE QUOI Nous avons fait émettre les présentes à titre de lettres patentes et, en vue d'en rendre plus grandes l'attestation et la validité, Nous avons fait apposer Notre Grand Sceau du Canada aux présentes, que Nous avons revêtues de Notre seing royal.

DONNÉ ce huitième jour de septembre en l'an de grâce mil neuf cent quarante-sept, onzième année de Notre règne.

D'ORDRE DE SA MAJESTÉ
W. L. MACKENZIE KING,
41-3 Premier Ministre du Canada.

PRÉSENT:

SON EXCELLENCE LE GOUVERNEUR GÉNÉRAL EN CONSEIL

IL plaît à Son Excellence le Gouverneur général en conseil, sur la recommandation du ministre des Travaux publics et aux termes des dispositions de l'article 7 de la *Loi des passages d'eau*, chapitre 68 des statuts revisés du Canada, 1927, de dresser les règlements ci-joints pour la régie du passage d'eau public sur la rivière Saint-Clair, entre Walpole-Island (Ont.), et Algonac, Michigan, Etats-Unis d'Amérique, pendant la durée du permis émis en vertu du décret ministériel C.P. 2094, daté du 27 mai 1947, et lesdits règlements sont par les présentes dressés et établis en conséquence.

A. D. P. HEENEY,
Greffier du Conseil privé.

RÈGLEMENTS DU PASSAGE D'EAU

Passage d'eau sur la rivière Saint-Clair, entre Walpole-Island, province d'Ontario et Algonac, Etat du Michigan, Etats-Unis d'Amérique.
Article premier

Les limites du passage d'eau s'étendent d'un point connu sous le nom de l'extrémité du chemin Austin,

Walpole-Island, province d'Ontario, à un point dans la ville d'Algonac, Etat du Michigan, Etats-Unis d'Amérique, ce dernier point devant être déterminé par les autorités municipales de l'endroit.

Article deuxième

On doit permettre à l'adjudicataire de se servir du quai public et de la rampe-débarcadère de passage d'eau à l'extrémité du chemin Austin, Walpole-Island, comme débarcadère pour ses bateaux-passeurs. La rampe-débarcadère doit servir exclusivement au passage d'eau et aux personnes et véhicules qui se servent dudit passage d'eau. De plus, le côté sud du quai public jusqu'à un point sis à cent vingt pieds (120') dans la direction du rivage à partir de l'extrémité du large du quai, doit être réservé à l'usage des bateaux-passeurs et des personnes qui se servent desdits bateaux-passeurs. On doit permettre à l'adjudicataire d'ajouter à ces ouvrages ou à des parties de ces derniers, surbordonnément à l'approbation du ministre des Travaux publics du Canada, les ouvrages qu'il jugera nécessaires. L'adjudicataire doit tenir toutes ces parties du quai public, ainsi que la rampe et les ouvrages supplémentaires, dans un état de propreté et faire toutes les réparations rendues nécessaires par des dommages résultant du service du passage d'eau.

Le privilège d'utiliser le quai du gouvernement est accordé à l'adjudicataire à condition que ledit quai soit tenu ouvert à la circulation du gouvernement. Sinon, l'adjudicataire doit fournir, entretenir et maintenir en bon état un débarcadère convenable qui doit être absolument sûr et utilisable à toutes les phases du niveau de la rivière et qui doit être approuvé par le ministre des Travaux publics du Canada.

Article troisième

L'adjudicataire doit, sans frais de location ou autres pour le ministère du Revenu national, fournir, à ses propres frais et à la satisfaction du ministre du Revenu national, une salle d'attente et un entrepôt de tolérance convenablement éclairés et chauffés, pour l'entreposage temporaire des marchandises déchargées en Canada par les bateaux-passeurs. Il doit fournir également un bureau convenable pour les fonctionnaires du ministère du Revenu national préposés à la surveillance du passage d'eau et de l'entrepôt de tolérance.

L'adjudicataire doit aussi, au besoin, fournir et entretenir, à ses propres frais, un bureau éclairé et chauffé pour l'usage des fonctionnaires du ministère de l'Immigration préposés au débarcadère ou quai dudit passage d'eau.

Article quatrième

L'adjudicataire doit fournir et mettre en service sur le passage d'eau au moins un vaisseau à autopropulsion pouvant loger six automobiles et ayant une cabine pour les passagers.

Les vaisseaux doivent avoir un commandant respectable et capable, possédant toutes les qualifications requises par la *Loi de la marine marchande du Canada*.

Les vaisseaux doivent être construits de manière à pouvoir donner un service convenable et satisfaisant pour le transport des passagers et des véhicules, sur ledit passage d'eau; ils doivent être munis de ceintures de sauvetage, être parfaitement équipés pour donner un bon service, et être maintenus en état de propreté comme la chose est requise par la *Loi de la marine marchande du Canada*.

Avant l'émission du permis, l'adjudicataire doit, à ses propres frais, se procurer d'un inspecteur qualifié de vaisseaux à vapeur, un certificat attestant la navigabilité des vaisseaux devant être mis en service en vertu dudit permis, et il doit déposer ce certificat au bureau du ministre des Travaux publics du Canada.

Il sera loisible au ministre des Travaux publics du Canada de rejeter tout vaisseau qui pourrait être mis en service sur ledit passage d'eau en quelque temps que ce soit, ou de rejeter son commandant ou les quais ou débarcadères fournis par l'adjudicataire, s'il les considérait tous, ou l'un d'eux respectivement, impropres au service ou incapables de satisfaire aux besoins du public.

Article cinquième

L'adjudicataire doit faire éteindre tous les feux des automobiles et faire arrêter les moteurs de ces dernières immédiatement après que chaque automobile aura pris place sur le bateau-passeur, et il doit voir à ce qu'ils soient maintenus dans cet état jusqu'à ce que le bateau soit amarré au quai ou débarcadère auquel il accoste.

Article sixième

L'adjudicataire ne doit jamais transporter ni permettre ou tolérer sciemment qu'il soit transporté sur ledit passage d'eau des articles de contrebande de quelque nature que ce soit.

Article septième

L'adjudicataire doit se conformer à toutes les lois relatives à la douane et à l'accise du Dominion du Canada et des Etats-Unis d'Amérique.

Article huitième

L'adjudicataire doit, pendant la durée du permis, maintenir chaque année l'horaire de traversées suivant entre Walpole-Island (Ont.), et Algonac, Michigan, Etats-Unis d'Amérique.

HORAIRE DES TRAVERSÉES

Chaque jour—Dimanches exceptés

Lorsque l'heure avancée est en vigueur dans la province d'Ontario ou dans les régions voisines, y compris Walpole-Island, le présent horaire doit être basé sur l'heure officielle adoptée dans ces régions.

HORAIRE D'ÉTÉ—Du 1er juin au 31 août inclusivement:
Service d'automobiles—De 8 A.M., à 8 P.M., d'heure en heure.
Service de passagers—De 6 A.M., à 8 P.M., d'heure en heure.

HORAIRE D'HIVER—Du 1er septembre au 31 mai inclusivement, lorsque l'on peut traverser la rivière sans danger.
A toutes les 2 heures de 9 A.M. à 5 P.M.

Si, de l'avis du commandant du bateau-passeur, la brume ou le mauvais temps sont de nature à mettre en danger soit la vie ou les biens, l'horaire mentionné aux présentes comme devant être en vigueur doit être suspendu pour toute la durée du mauvais temps.

Il est entendu, cependant, que si les traversées régulières sont temporairement interrompues, l'équipage dudit bateau-passeur restera à son poste jusqu'à ce que l'heure fixée pour la dernière traversée soit passée, afin que les traversées puissent être reprises aussitôt que la température le permettra.

Article neuvième

Les droits de passage et de péage perçus sur ledit passage d'eau durant les heures stipulées ne doivent jamais dépasser les taux suivants:—

Article dixième

Des pancartes énonçant les taux de passage et de péage sur ledit passage d'eau doivent être affichées et exhibées en tout temps, dans un endroit bien en vue sur ledit débarcadère ou quai ou près de celui-ci, sur les deux côtés de la rivière, et aussi à bord des bateaux-passeurs mis en service sur ledit passage d'eau.

Article onzième

Il est loisible au Gouverneur en conseil de changer ou de modifier l'horaire des traversées et le tarif des droits de péage susmentionné, s'il le juge expédient dans l'intérêt public. L'adjudicataire et le conseil général des Indiens de Walpole-Island auront droit d'être entendus avant qu'un changement quelconque ne soit fait. Avis de ces changements ou modifications sera publié dans la *Gazette du Canada*, tel que prescrit à l'Article 8 du Chapitre 68 des Statuts (revisés) du Canada, 1927, qui a pour titre: "*Loi des passages d'eau publics*", et l'adjudicataire en sera officiellement averti par le ministre des Travaux publics et, après la date de cet avis, l'adjudicataire doit mettre en vigueur l'horaire des traversées ainsi modifié, et ne doit pas percevoir ou recevoir des droits de passage ou de péage autres ou plus élevés que ceux qui seront prescrits par le tarif ainsi modifié, et ce tant que ce tarif sera en vigueur.

Article douzième

Dans le cas où la somme due pour le permis ou toute partie d'icelle resterait impayée vingt et un jours après la date d'échéance, ou dans le cas où l'adjudicataire manquerait à l'observance ou à l'accomplissement de l'une quelconque des dispositions, restrictions, conditions ou stipulations qui doivent être observées ou accomplies, ou dans le cas où l'adjudicataire, ou toute personne ou compagnie en faveur de qui le permis sera échu par droit pour le moment, deviendrait insolvable, ou dans le cas où les stipulations de l'Article 5 de la *Loi du Dimanche* ne seraient pas dûment observées et obéies par l'adjudicataire, alors, dans l'un quelconque des cas précités, et sera loisible au ministre d'annuler ledit permis par un avis écrit envoyé à l'adjudicataire, et le permis deviendra alors absolument nul et non avenu.

Article treizième

L'adjudicataire ne doit pas, en quelque temps que ce soit pendant la durée du permis, enfreindre volontairement et de propos délibéré les lois ou règlements des Etats-Unis d'Amérique, de l'Etat du Michigan ou de la ville d'Algonac régissant les passages d'eau et qui peuvent être applicables audit passage d'eau ou à toute partie qui pourrait tomber sous la juridiction desdits Etats-Unis d'Amérique, ou de l'état du Michigan, ou de la ville d'Algonac, ni permettre ou tolérer qu'ils soient enfreints par l'un quelconque de ses employés.

Article quatorzième

Il est stipulé toujours que si, en exerçant l'un quelconque des pouvoirs à eux conférés en quelque temps que ce soit pendant la durée dudit permis, les Etats-Unis d'Amérique, ou l'état du Michigan ou la ville d'Algonac empêchaient ou entravaient le service sur ledit passage d'eau, ou sur toute partie d'icelui qui pourrait tomber sous la juridiction de l'un d'entre eux, ou s'ils causaient des pertes, dépenses, charges ou dommages à l'adjudicataire à ce propos, aucune réclamation ou demande de compensation ne pourront être faites contre le Dominion du Canada.

Il est stipulé de plus que si les Etats-Unis d'Amérique, l'état du Michigan ou la ville d'Algonac, en exerçant l'un quelconque des pouvoirs à eux conférés en quelque temps que ce soit pendant la durée du permis, empêchaient ou entravaient le service sur ledit passage d'eau ou sur toute partie d'icelui qui pourrait tomber sous la juridiction de l'un d'entre eux, les stipulations de l'article douzième des présents, concernant la révocation du permis par les présentes accordé, ne s'appliqueront pas.

Article quinzième

Le permis sera accordé pour une période de cinq années, à compter du 1er mai 1947.

Article seizième

L'adjudicataire sera tenu de fournir à Sa Majesté deux cautions résidant dans le Dominion du Canada, lesquelles cautions seront liées solidairement avec le principal intéressé en la somme de cinq cent dollars ($500) pour le plein accomplissement, par l'adjudicataire, de toutes les conditions du permis.

On acceptera, au lieu des deux cautions, un cautionnement de $500 fourni par une compagnie de garantie autorisée.

Article dix-septième

Le permis ne doit être ni cédé ni sous-loué sans le consentement du ministre des Travaux publics du Canada. Toutefois, dans le cas du décès de l'adjudicataire, le permis passera à l'avantage de ses représentants personnels ou de ses légataires.

Article dix-huitième

L'adjudicataire n'aura droit à aucune réclamation ni demande de dommages-intérêts ou de compensation du fait de la construction, l'entretien et l'exploitation d'un pont ou de ponts quelconques ou d'un tunnel ou de tunnels quelconques qui pourraient en quelque façon que ce soit nuire à l'exploitation du passage d'eau consentie aux présentes.

COMMISSION DES TRANSPORTS AÉRIENS

DEMANDES DE PERMIS POUR L'EXPLOITATION DE SERVICES AÉRIENS COMMERCIAUX NON RÉGULIERS—SUSPENSION DES DÉPÔTS POUR UNE PÉRIODE DE SIX MOIS

LA revision de l'exploitation des services aériens commerciaux non réguliers par frètement au Canada révèle que les résultats économiques obtenus ne sont pas entièrement satisfaisants. La Commission des transports aériens a donc décidé de faire une étude approfondie du problème afin de déterminer quelles possibilités s'offrent actuellement aux services aériens non réguliers au Canada.

Avis est par les présentes donné qu'en raison de l'étude susmentionnée la Commission cessera d'examiner les nouvelles demandes de permis pour une période de six mois se terminant le 30 avril 1948, sauf dans les cas où, de l'avis de la Commission, des conditions survenant au cours de cette période créeraient un besoin public urgent de services aériens nouveaux ou additionnels. Aucun requérant ne doit faire de dépenses en immobilisations relativement à un service projeté tant que la Commission n'aura pas rendu de décision approuvant sa demande.

Par ordre,

A. S. McDONALD,
Secrétaire intérimaire.

B. When the application is for the purpose of amending an existing Act,—

1. For an extension of any line of railway, or of any canal; or for the construction of branches thereto,—the same *mutatis mutandis* as for an Act to incorporate a Railway or Canal Company.

C. All such notices, whether inserted in the *Canada Gazette* or in a newspaper, shall be published at least once a week for a period of four consecutive weeks; and when published in the Provinces of Quebec and Manitoba shall be in both the English and French languages; and *marked copies* of each issue of all newspapers containing any such notice shall be sent to the Clerk of the Senate, endorsed "Private Bill Notice," or a statutory declaration as to due publication may be sent in lieu thereof.

108. No petition praying for the incorporation of a Railway Company, or of a Canal Company, or for an extension of the line of any existing or authorized railway or canal, shall be considered by the Standing Orders Committee, until there has been filed with the Committee a map or plan, showing the proposed location of the works, and each county, township, district or municipality through which the proposed railway or canal, or any branch or extension thereof, is to be constructed.

110. Petitions for private bills shall only be received by the Senate if filed with the Clerk of the Senate within the first six weeks of the Session, and every private bill originating in the Senate shall be presented to the Senate within two weeks after the petition therefor has been favourably reported upon by the examiner of petitions or by the Committee on Standing Orders, and no motion for the suspension of this standing order shall be entertained unless a report has been first made by the Committee on Standing Orders recommending such suspension.

(2) In the text of the Bill, on the left hand page, new matter shall be indicated by such typographical means as may best suit the varying circumstances of each case, such as brackets, italics, underlining, asterisks, etc. Opposite each clause, on the right hand page, the enactment amended thereby, or so much thereof as is essential, shall be printed with the proposed changes to be made therein similarly indicated.

(3) When a clause repeals an existing section, subsection or other minor division of a section, that section, subsection or division, or so much thereof as is essential, shall be printed opposite the clause.

(4) A memorandum by the draftsman explaining briefly the reason for each clause, shall be appended to the Bill, or distributed therewith. Whenever practicable the memorandum shall be printed on the right hand page of the Bill, in paragraphs opposite the clause referred to and numbered correspondingly.

(5) The above rules shall also as far as practicable apply to the reprinting of Bills.

TUESDAY, the 23rd day of July, 1946.

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

WHEREAS under The Home Improvement Loans Guarantee Act, 1937, the Government of Canada has guaranteed approved lending institutions against losses which they may sustain as a result of loans made under that Act, provided that the liability of the Government of Canada would not exceed fifteen per cent (15%) of the aggregate amount of the Home Improvement Loans made by any such approved lending institutions;

AND WHEREAS the 30th of October, 1940, was fixed and determined by the Minister of Finance as the last day after which no Home Improvement Loans would be guaranteed, due to the fact that the aggregate amount loaned (viz. $49,959,055.31), up to and including that date, was approaching the limit set in the Act (viz. $50,000,000.00);

AND WHEREAS section 19 of The Central Mortgage and Housing Corporation Act provides that any right, power, duty, liability or function vested in or exercised or performed by the Minister of Finance under The Home Improvement Loans Guarantee Act shall be vested in, exercised or performed by Central Mortgage and Housing Corporation;

AND WHEREAS by Order in Council P.C. 1513, dated April 16, 1946, passed under the Public Service Rearrangement and Transfer of Duties Act, the powers, duties and functions of the Minister of Finance under the Housing Acts, including The Home Improvement Loans Guarantee Act and The Central Mortgage and Housing Corporation Act, were transferred to the Minister of Reconstruction and Supply;

AND WHEREAS the total amount paid to the lending institutions in implementation of The Home Improvement Loans Guarantee Act, 1937, at present remaining unpaid by the borrowers, is $381,000.00, and that there exists a contingent liability on the part of His Majesty to pay to lending institutions a sum of $98,600.00 for which claims have not been filed as yet; it is anticipated that not more than 25 per cent of this last amount will be claimed by the lending institutions;

AND WHEREAS pursuant to The Home Improvement Loans Guarantee Act, 1937, regulations were approved by Order in Council P.C. 937, dated 23rd of April, 1937, but that these regulations do not provide a procedure for effecting collection or for authority to make settlements with the borrowers, and/or to effect compromises after the borrowers' indebtednesses have been assigned to His Majesty;

AND WHEREAS Central Mortgage and Housing Corporation reports that it is experiencing difficulty in many cases in effecting collection due to the age, financial situation or other circumstances of the borrower, and reports that in its opinion, costs and expenses would be saved, and the net return to His Majesty increased, if it were authorized in appropriate cases to effect compromises;

AND WHEREAS the Minister of Reconstruction and Supply represents that it is desirable in the interests of His Majesty so to authorize Central Mortgage and Housing Corporation;

NOW, THEREFORE, His Excellency the Governor General in Council, on the recommendation of the Minister of Reconstruction and Supply, is pleased to amend the regulations under The Home Improvement Loans Guarantee Act, 1937, established by Order in Council P.C. 937 of 23rd April, 1937, as amended and they are hereby further amended by adding the following sub-paragraph 3 to paragraph 17 thereof:—

17. (3) Subsequent to payment being made to the lending institutions of any claim hereunder, Central Mortgage and Housing Corporation shall be subrogated in and to all rights of the said lending institutions, in respect of the said loans and, without limiting the generality of the foregoing, all rights and powers of the said lending institutions in respect of the loans and in respect of any judgment in respect thereof obtained by the lending institutions for the repayment thereof, shall be vested in Central Mortgage and Housing Corporation on behalf of His Majesty, and Central Mortgage and Housing Corporation shall be entitled to exercise all rights and privileges which the said lending institutions had or might exercise in respect of the said loans, judgment or security, or to commence or continue any action or proceedings in respect thereof, and to execute any document necessary by way of release, transfer, sale or assignment thereof, or in any way realize thereon, and to effect such compromise as in the opinion of Central Mortgage and Housing Corporation is in the best interest of His Majesty, having regard to the age, financial situation and other circumstances of the borrower.

2. The Minister may issue to any person applying therefor a permit conveying the exclusive right to explore for petroleum and natural gas in lands, the property of the Crown, in the Northwest Territories and the Yukon Territory, if he is satisfied that the exploratory program to be undertaken is of such a nature that information of value will be obtained.

Area

3. (1) The maximum area which may be held under one permit shall be sixty-four thousand acres and the minimum area shall be thirty-two thousand acres.

(2) Every such area shall be rectangular in form, the length being not greater than three times its breadth, and may be staked in any direction; provided, however, that where any area adjoins or is in close proximity to or is crossed by any important navigable river or rivers, the smaller dimension of such area shall be in the general direction of such river, or should there be more than one river, then in the general direction of the larger river.

Fee—Deposit

8. Every application for a permit shall be accompanied,

(*a*) by a fee of two hundred and fifty dollars,

(*b*) by a deposit of money or guarantee bond satisfactory to the Minister, to the value of five cents for each acre included in the area for which application is made, to cover the first eighteen months' period of the permit,

Information to be furnished

(*c*) by complete information setting out the extent and character of the examination to be made and an estimate of the cost thereof,

Description of area

(*d*) by a written description by metes and bounds of the area applied for, together with an explanatory sketch plan drawn to a suitable scale, indicating the positions of the legal posts, the positions of the four corners, the positions and lengths of the reference lines, the distances apart of cairns or mounds on the reference lines and the astronomic northing or southing and easting or westing from the most suitable recognizable natural feature or features shown on the official map sheet or sheets of the National Topographic series at the scale of eight miles to one inch; the sketch plan shall contain marginal diagrams in the form of squares of suitable size, opposite the sides of which will be indicated the markings on the corresponding sides of the legal post planted,

(i) that the area has been marked on the ground by at least one legal post planted preferably at one of the four corners or otherwise planted

one one of the four side lines, an additional legal post to be planted wherever any one of the side lines is intersected by a travelled road or water route;

(ii) that each legal post planted has been referenced by a straight line marked on the ground at least two thousand feet in length commencing at the post and running along one of the boundaries; where the post is at a corner, this line, if possible, should be in the direction of the greatest dimension of the area; in timbered country the line shall be clearly marked on the ground by removing the trees and underbrush to a width of six feet along the entire length thereof and an area of ten feet square shall be cleared by cutting the underbrush so that the post shall be clearly discernible at a reasonable distance. In a locality where there are neither trees nor underbrush the line shall be marked by stone cairns or earth mounds at least thirty inches high and thirty inches in bottom diameter and placed at intervals of not more than four hundred feet;

(iv) priority of application shall be based upon the date and time of the staking of the area applied for.

Exploratory work to be performed

9. (1) The permittee shall make an approved geological examination of the area, by surface exploration, geological operations, or other approved methods relating to the subsurface geology, such as drilling.

(2) The minimum expenditure for such exploration shall be equal to the amount of money or bonds on deposit by the permittee.

Credit for expenditure on permit or group

21. At the expiration of each period of a permit or group of permits, referred to in sections eight, ten, and eleven, an amount of fifty per centum of the total expenditures as determined by the Minister pursuant to Section 17 (2) made in respect of a permit or group of permits shall be placed to the credit of the permittee to be applied in satisfaction of the rental, including the first year's rental, of any leases acquired comprising portions of the area formerly held under such permit or group of permits; provided, however, that no portion of any such credit shall be applied on account of the rental of said leases after commercial exploitation of the geological unit on which the location or group of locations is situated has commenced.

LEASES

24. The petroleum and natural gas rights which are the property of the Crown in the Northwest Territories and Yukon Territory and which are available may be leased to applicants at a rental of fifty cents an acre for the first year and one dollar an acre for the second and each succeeding year, payable yearly in advance.

Term of lease and renewal

25. The term of the lease shall be twenty-one years, renewable for successive periods of twenty-one years each, provided the lessee can furnish evidence satisfactory to the Minister to show that during the term of the lease he has complied fully with the conditions of such lease and with the provisions of the regulations in force from time to time during the currency of the lease.

Area

(2) A fee of five dollars shall accompany each application.

Description

28. (1) The application shall contain a description by metes and bounds of the location applied for and shall be accompanied by a plan showing the position of such location in its relation to some prominent topographical feature or other known point.

Plan

(2) The plan shall be drawn to an adequate scale and shall contain sufficient data to admit of the position of the location applied for being definitely shown in the records of the Department.

(3) The location must be rectangular in form, except where a boundary of a previously located tract is adopted as common to both locations, the length not to exceed four times the breadth.

(4) The application shall be accompanied by evidence, supported by affidavit of the locator, to show that the following requirements have been fully complied with:—

(*a*) that the location applied for has been defined on the ground by the applicant in person or his agent, by planting two legal posts firmly in the ground, one at each extremity of the location line, which shall be known as "Location Post No. 1" and "Location Post No. 2": the location line shall be in the astronomical cardinal directions and shall be a straight line, measured horizontally between the location posts; the distance between Post No. 1 and Post No. 2 shall not exceed twenty-one thousand one hundred and twenty feet, or four miles, but may be less;

(*b*) the inscriptions to be placed on these posts shall be and remain clearly and legibly marked by knife, marking iron or crayon, but not so as to become illegible or obliterated:

(*c*) on Location Post No. 1 on the side facing in the direction of Location Post No. 2 shall be marked, beginning near the top of the portion faced and extending downward, the following:—
(i) Oil Location;
(ii) No. 1;
(iii) the letter indicating the direction of Location Post No. 2—"N" for north or northerly, "S" for south or southerly, "W" for west or westerly, and "E" for east or easterly;
(iv) the number of feet lying to the right and the number of feet lying to the left of the location line—"R" for right and "L" for left;
(v) distance to Post No. 2;
(vi) the month and date of the month upon which the location was made;
(vii) the year;
(viii) the name of the person staking the location;

(*d*) on Location Post No. 2 shall be marked on the side of that post facing in the direction of Location Post No. 1, beginning near the upper end of the portion faced and extending downward, the following:—
(i) No. 2;
(ii) the month and date of the month upon which the location was made;
(iii) the year;
(iv) the name of the person staking the location;

(*e*) the locator standing at Location Post No. 1 and facing in the direction of Post No. 2 shall have the right and left of the location line on his right and left respectively;

(*f*) When the tract has been defined, the locator shall mark out immediately the line between Post No. 1 and Post No. 2, so that it can be distinctly seen in a timbered locality, by blazing trees and removing underbrush, and in a locality where there is neither timber nor underbrush he shall set posts or erect mounds of earth or rock in such a manner that the line may be distinctly seen. In a timbered locality an area of ten feet square shall be cleared around each post by cutting the underbrush so that the post shall be clearly discernible at a reasonable distance.

(*g*) all the particulars required to be inscribed on Posts No. 1 and No. 2 shall be set out in the application;

(*h*) when an extremity of a location line falls in water, in the bed of a stream, or in any other locality unfavourable to the erection of a location post, the locator shall set up a witness post on the location line at a suitable point as near as possible to such extremity, and the marking already prescribed in the regulations to be placed on the location post shall be preceded by the letters "WP" as an abbreviation of witness post, on one line, followed by a second line indicating the distance in feet and the direction of the point which it is intended to witness, using "N" for north or northerly, "S" for south or southerly, "W" for west or westerly, and "E" for east or easterly; witness posts so placed shall be legal posts and shall govern the positions of the points which they are intended to witness; (see Appendix B);

(*i*) where any person has located or acquired a location on the margin of a body of water, and has reason to believe that the petroleum bearing strata extend under water, he may extend his staking between the production of two opposite sides of the marginal location by means of witness posts placed in the manner prescribed in these regulations, to include not more than one additional adjoining submerged location; (see Appendix B);

(*j*) the location shall be staked along its greatest dimension, and the bearing of the location line shall be given in degrees and minutes;

(*k*) where a desired location is situated on an island containing, during periods of high water, not more than the minimum area of one thousand two hundred and eighty acres prescribed by section twenty-six of these regulations, its least dimension may be in any direction regardless of the general direction of the shore line; (see Appendix B);

(*l*) in case the tract applied for is located on the margin of a lake or river, its least dimension shall be in the general direction of the water frontage;

(*m*) the locator shall post a written or printed notice on a conspicuous part of the location applied for, stating that within thirty days from the date of staking he is applying for a lease of the petroleum and natural gas rights under the said location;

(*n*) priority of application shall be based upon the date and time of the staking of the location applied for.

Removing posts

29. No one, other than a Dominion Land Surveyor authorized by the Surveyor General of Canada to survey the location, can lawfully move the posts on a location for which an application for a lease has been recorded. The Surveyor General will direct the moving of posts on the line of location where the area staked exceeds in extent the area specified in the application or does not conform to the provisions of Section 28 (3) of these regulations.

Boundaries

30. The boundaries beneath the surface of a location shall be the vertical planes in which its surface boundaries lie.

Survey before lease issued

31. The application for a lease shall be recorded and the terms of the lease become effective from date of record, but the registration shall not be confirmed nor the lease issued until a survey of the location has been made at the expense of the applicant by a Dominion Land Surveyor upon the instructions of the Surveyor General of Canada and the returns of survey have been approved by the Surveyor General and registered by the Director. The survey must be made within one year from the date of application unless satisfactory reasons are furnished justifying the granting of an extension of time.

Rental first year

32. (1) The rental for the first year of the location applied for at the rate of fifty cents an acre shall be payable in advance and no application for a lease of petroleum and natural gas rights shall be accepted or recorded until the full amount of the rent for the first year at the above rate shall have been paid in cash or by established credit.

(2) The lease, when issued, shall be in such form as may be determined by the Minister and shall bear date from the day upon which the application is recorded.

Rental for subsequent years and penalty for failure to pay in advance

(3) If, during the term of the lease, the lessee shall fail to pay rental in advance for each subsequent year at the rate of one dollar an acre per annum within thirty days after the date upon which the same became due, the lease shall be subject to cancellation in the discretion of the Minister and to the immediate forfeiture of the rights which the lessee had in the said lease.

Installation of machinery and equipment

33. (1) The lessee shall, within one year from the date of the lease, have upon the lands described therein such machinery and equipment suitable for carrying on drilling operations as the Minister may consider necessary, and he shall within the same period furnish evidence, supported by affidavit, showing the character, quantity, and value of the machinery so installed, the date of its installation, and the particular parcel of land upon which it was installed.

(2) If the required machinery is not installed within the period specified, and if evidence of its installation is not furnished within the prescribed period, the lease shall be subject to cancellation in the discretion of the Minister upon two months' notice to this effect being given to the lessee.

Drilling operations to commence and continue

34. (1) The lessee shall commence drilling operations on his location within fifteen months of the date of his lease and he shall continue such drilling operations with reasonable diligence, to the satisfaction of the Minister, with a view to the discovery of petroleum or natural gas.

(2) If the lessee does not commence drilling operations within the time prescribed, or if having commenced such operations he does not prosecute the same with reasonable diligence to the satisfaction of the Minister, or if he ceases to carry on the same for a period of more than six months, the lease

shall be subject to cancellation in the discretion of the Minister, upon three months' notice to this effect being given to the lessee.

Consolidation or grouping

35. A lessee who has acquired more than one petroleum and natural gas lease may consolidate his operations and expenditure and install machinery and equipment on one or more of the locations described in the leases affected.

Maximum area of group

36. The maximum area of the locations which may be included in one consolidation or group shall not exceed thirty thousand seven hundred and twenty acres, nor shall the locations so included be separated one from the other by a greater distance than two miles.

37. Upon receipt of evidence that the lessee in respect of a location or group of locations consolidated under these regulations has incurred expenditures on or in connection with sub-surface geological or geophysical examinations or drilling operations or other necessary operations in connection with the completion of a well, such expenditures, exclusive of the purchase price of machinery and casing recovered but including an allowance for depreciation, shall be placed to the credit of the lessee and the credit so granted may be applied in satisfaction of the prescribed rental of the lease or leases comprising the location or group of locations in connection with which the expenditure was incurred; provided, however, that no portion of any such credit shall be applied in satisfaction of the rental of the leases comprising the location or group of locations in connection with which it was established after commercial exploitation of the geological unit on which the location or group is situated has commenced.

38. In the event of the lessee obtaining production of petroleum in commercial quantity on a location or authorized group of locations, he may be required by the Minister to drill such further well or wells thereon as the Minister, having regard to the proper conservation of said petroleum and its marketing in accordance with good operating and business practice, may in his discretion determine, and subject to the aforementioned considerations the lessee may be required to produce therefrom so long as the location or authorized group of locations shall continue to yield petroleum in commercial quantity.

Right of entry on location of departmental officer

39. It shall be lawful for the Minister, or anyone authorized by him, at all times, to enter upon the demised premises and have access to all wells, records, plant, and equipment, and the lessee, his representative or operator, shall render the officer such assistance as may be necessary or essential, and such officer shall have the right to take samples, particulars, or carry out any tests or examinations desired.

Permission to enter on leased lands

40. In case the surface rights of a petroleum and natural gas location are covered by a timber licence, grazing or coal mining lease, mining claim or other form of terminable grant, the lease shall not authorize entry thereon without the permission of the Minister being first had and obtained, and permission shall be given subject to such conditions for the protection of the rights of such lessee or licensee as it may be considered necessary to impose.

Arbitration for entry on patented lands

41. (1) In case the surface rights of a petroleum and natural gas location have been patented, or have been disposed of by the Crown under any Act or regulation which contemplates the earning of patent for such surface rights, and the lessee of the petroleum and natural gas rights cannot make an arrangement with the owner of such surface rights or with his agent, or the occupant thereof, for entry upon the location or for the acquisition of such interest in the surface rights as may be necessary for the efficient and economical operation of the rights acquired under his lease, he may, provided the mineral rights in the land affected with access thereto and the right to use and occupy such portion of the land as may be necessary for the effectual working of the minerals therein have been reserved to the Crown in the original grant of the surface rights, apply to the Minister for permission to submit the matter in dispute to arbitration.

(2) Upon receiving such permission in writing, it shall be lawful for the lessee to give notice to the owner, or his agent, or the occupant, to appoint an arbitrator within a period of sixty days from the date of such notice, to act with another arbitrator named by the lessee, in order to determine what portion of the surface rights the lessee may reasonably acquire:—

(*a*) for the efficient and economical operation of the rights and privileges granted him under his lease;

(*b*) the exact position thereof; and

(*c*) the amount of compensation to which the owner or occupant shall be entitled.

Notice of arbitration

42. (1) The notice mentioned in the preceding section shall be according to a form to be obtained upon application to the Mining Recorder for the district in which the land in question is situate, and shall, when practicable, be personally served on the owner of such land, or his agent, if known, or the occupant thereof, and after reasonable efforts have been made to effect personal service without success, then such notice shall be served by leaving it at or sending it by registered mail to the last known place of abode or address of the owner, agent or occupant, and by posting a copy of the same in the office of the Mining Recorder for the district in which the land in question is situate for a period of thirty days before the expiration of the time limited in such notice.

(2) If the owner, or his agent, or the occupant of the land refuses or declines to appoint an arbitrator, or when for any reason, no arbitrator is so appointed in the time limited therefor in the notice, the Mining Recorder for the district in which the land in question is situate shall forthwith on being satisfied by affidavit that such notice has come to the knowledge of such owner, agent or occupant, or that such owner, agent or occupant, wilfully evades the service of such notice, or cannot be found, and that reasonable efforts have been made to effect such service, and that the notice was left at the last place of abode or known address of such owner, agent or occupant, as above provided, appoint an arbitrator on his behalf.

Appointment of third arbitrator

43. In case the two arbitrators cannot agree upon the award to be made, they may, within a period of ten days from the date of the appointment of the second arbitrator, select a third arbitrator, and when such two arbitrators cannot agree upon a third arbitrator, the Mining Recorder for the district in which the land in question is situate shall forthwith select such third arbitrator.

Arbitrators to be duly sworn

44. All the arbitrators appointed under the authority of these regulations shall be sworn before a justice of the peace to the impartial discharge of the duties assigned to them, and after due consideration of the rights of the owner and the needs of the lessee they shall decide as to the particular portion of the surface rights which the latter may reasonably acquire for the efficient and economical operation of the rights and privileges granted him under his lease, the area thereof, and the amount of compensation therefor to which the owner or occupant shall be entitled.

Value; how determined

45. In making such valuation the arbitrators shall determine the value of the land irrespective of any enhancement thereof from the existence of minerals thereunder.

Award

46. (1) The award of any two such arbitrators made in writing shall be final, and shall be filed with the Mining Recorder for the district in which the land is situate, within twenty days from the date of the appointment of the last arbitrator.

(2) Upon the order of the Minister the award of the arbitrators shall immediately be carried into effect.

Compensation

47. The arbitrators shall be entitled to be paid a per diem allowance of ten dollars, together with their necessary travelling and living expenses, while engaged in the arbitration, and the cost of such arbitration shall be in the discretion of the arbitrators.

Relinquishment of whole or portion of location

48. The lessee may be permitted to relinquish at any time the whole or any portion of the location described in his lease, provided he has complied in every respect with the provisions of the regulations, and that all payments on account of rental or other liability to the Crown, due in connection with the lease, have been fully made, and provided the portion of the location which may be retained shall be of the prescribed shape, and shall not be of a less area than one thousand two hundred and eighty acres.

What lease conveys

49. (1) The lease shall in all cases include only the petroleum and natural gas, the property of the Crown, in the lands leased, but shall not include the oil shale rights to the land or to the oil which may be recovered from such shales by the process of extraction customary in such cases, and shall not include helium which shall remain the property of the Crown.

Surface lease

(2) The lessee may, upon application, be granted a yearly lease at a rental of one dollar an acre per annum, payable yearly in advance, of whatever area of the available surface rights of the tract described in his petroleum and natural gas lease the Minister may consider necessary for the efficient and economical working of the rights granted him.

Assignment

50. The lessee shall not assign, transfer, or sublet the rights described in his lease, or any part thereof, without the consent in writing of the Minister being first had and obtained.

Company registered or licensed in Canada

51. Any company acquiring by assignment, or otherwise, a lease under the provisions of these regulations, shall be a company registered or licensed in Canada.

Crown may assume control

52. (1) The Minister may at any time, by order in writing, cancel any lease or permit issued under these regulations and take, for the use of His Majesty, all or any part of the buildings, works, machinery, and plant upon the location in respect of which the lease or permit was issued, which property shall thereupon become and remain vested in His Majesty.

(2) When any such property is required for a limited time only or only a limited estate or interest therein is required, the Minister may in such order indicate that such property is taken for such limited time only or that only such limited estate or interest therein is taken and thereupon the right of possession for such limited time or such limited estate or interest shall become and be vested in His Majesty.

(3) The holder of the lease or permit shall be entitled to be paid compensation for any loss or damage sustained by him by reason of the exercise of the powers conferred on the Minister by this section and if such compensation has not been agreed upon the claim shall be referred by the Minister to the Exchequer Court of Canada.

(4) The amount of the compensation shall be determined by the Exchequer Court as in the case of land or property acquired or taken under the Expropriation Act.

(5) Upon the making of any such order the Minister may assume immediate possession and control of the location together with such property thereon as may have been taken and may cause the same to be operated, and the produce thereof shall be disposed of as the Governor in Council may direct.

Annual return

53. (1) At the end of each year or the term of the lease the lessee shall furnish to the Director a statement, supported by affidavit, showing the number of days during the year that operations were carried on upon the location; the number of men so employed; the character of the work done; the number of holes completed or being drilled and the depth of each; the total expenditure incurred; a detailed statement setting out fully the purpose for which such expenditure was incurred; the quantity of petroleum or natural gas obtained, and the amount realized from the sale thereof.

(2) Failure to furnish such yearly return after sixty days from the end of the year will render the lessee subject to a fine of ten dollars a day for each day's delay in furnishing the sworn statement, and after three months' delay the lease shall be subject to cancellation upon three months' notice in writing to this effect being given to the lessee.

Rights formerly comprised in cancelled lease

54. When a petroleum and natural gas lease issued under the provisions of these regulations is cancelled in the records of the Department, the rights described in such lease shall not become available for application under the regulations until notice has been duly posted for a period of thirty days in the office of the Mining Recorder for the district in which the land is situate.

Royalty

55. (1) The products obtained from any location acquired under these regulations, not including natural gas and natural gasoline, shall be subject to the payment to the Crown of the royalty hereinafter mentioned. For the first five years from the date that commercial exploitation of the geological unit on which the location is situate has commenced, the rate shall be seven and one-half per centum of the products produced and saved from such unit; for the second five years the rate shall be ten per centum; and thereafter the rate shall be twelve and one-half per centum; subject to the provision that where it is satisfactorily proven that the cost of producing the products from the area covered by any lease or group of leases, including the amount paid in royalties, is such that the commercial exploitation thereof does not permit a reasonable profit on the capital invested therein, the Governor in Council may reduce the rate of royalty and likewise may increase it to the original level when reasons for making the reduction no longer exist. The Minister shall have the right to take currently the aforesaid royalty either in kind or in cash, payable monthly on the twenty-fifth day of the month next following the calendar month of production, equivalent to the value of the Crown's royalty proportion of the said products, at the prevailing prices at the well-head; provided that at the election of the Minister, the aforesaid royalty shall be payable partly in kind and partly in cash.

(2) Natural gas and natural gasoline, whether recovered on the location or elsewhere, and not used by the lessee in the course of the working of his operations, shall be subject to the payment of such royalty as may be fixed by the Governor in Council.

(3) Where the Minister so declares, subsection one of this section shall apply to any well which is producing petroleum for local consumption notwithstanding that commercial exploitation has not commenced.

(4) Any products of a location or group of locations used by a lessee in the course of the working of his operations thereon shall not be subject to the payment of royalty.

56. Royalty paid by a lessee as provided in section fifty-five shall be credited on account of the rental each year in excess of fifty cents an acre on a location or group of locations situated on a geological unit standing recorded in the name of such lessee.

Notice of intention to begin drilling operations

57. (1) Before beginning drilling operations the lessee shall notify the Supervisory Engineer in writing of his intention to begin such operations and shall state:

(*a*) the particular point on the location at which operations are to be conducted;

(*b*) the number or other designation by which the well shall be known, which number or designation shall not be changed without the consent of the Supervisory Engineer;

(*c*) the size and weight of casing to be used;

(*d*) the kind of drilling rig to be employed; and

(*e*) the name and post office address of the person in charge of such operations.

(2) The lessee shall not begin drilling operations until he has received in writing the approval of the Supervisory Engineer of the proposals submitted under this section; provided that in any particular case such approval may first be given orally.

(3) No change in the program outlined in the Notice of Intention shall be made without submitting notice of the change of plans to the Supervisory Engineer and receiving approval of such change; provided, always, that in cases of emergency in which an immediate departure from or variation in the program is necessary, such departure or variation shall be made to the extent that such is necessary, and in any such case the lessee shall immediately advise the Supervisory Engineer in writing.

Where wells may be drilled

58. No well for the discovery of petroleum or natural gas other than a directional well shall be drilled within three hundred and thirty feet of any of the outer boundaries of the location or locations in a group nor within three hundred and thirty feet of any road allowance, surveyed road, or other right of way, dwelling, school or church, except in accordance with regulations prescribed by the Minister.

Limitation of number of wells and defining distance apart

59. The Minister may in his discretion, having due regard to good operating practice, limit the number and define the distance apart of wells on any geological unit.

Marking of equipment

60. The lessee shall mark all his rigs, wells, and tanks with conspicuous numbering and designations and shall maintain such markings unchanged.

Daily reports

61. (1) The lessee shall maintain on forms approved by the Director a daily report of drilling operations and such report shall be made in duplicate, one copy being at all times retained at the well and open to inspection by the Supervisory Engineer.

(2) The original report shall be countersigned by the lessee or his agent and forwarded to the Supervisory Engineer at the end of each and every week during the course of operations.

Samples

62. (1) The lessee shall cause to be preserved and maintained a series of samples of the formations penetrated by the drill in each drilling operation, such samples to be taken from successive depths of ten feet or at such intervals as may be directed by the Supervisory Engineer and such samples shall be washed, dried, accurately labelled, and forwarded in accordance with instructions issued by the Director.

Cores

(2) The lessee shall keep and preserve representative specimens of all cores recovered in properly constructed and marked core boxes and such cores shall be available for inspection and examination by the Supervisory Engineer.

63. The lessee shall, when a well being drilled is approaching a formation from which production of petroleum or natural gas may be expected, if required to do so by the Supervisory Engineer, core and adequately test such formation.

Notification of discovery

64. When during operations on a location acquired under these regulations petroleum or natural gas or both be discovered, the lessee shall immediately notify the Supervisory Engineer of the same by the most reasonably expeditious method.

Control of petroleum and natural gas

65. (1) The lessee shall make adequate provision to the satisfaction of the Supervisory Engineer for

the control and conservation of petroleum and natural gas at every well and he shall maintain the equipment provided for such purpose in proper condition.

(2) If at any time in the opinion of the Supervisory Engineer such equipment is inadequate, he may prescribe remedial measures which shall be instituted and completed before any further drilling or production is undertaken.

66. Whenever a stratum penetrated in a well is capable of producing natural gas in commercial quantity or is known to be likely to yield it in such quantity, the lessee shall confine such natural gas to its original stratum until such time when such gas can be produced and utilized without waste.

Sampling water

67. When during drilling or producing operations water makes its appearance in a well or any indication appears that may reasonably be taken as evidence of change in the source or other condition of water already notified as having appeared in the well, the lessee shall immediately notify the Supervisory Engineer and, if the drilling system permits, shall take a sample of not less than one gallon of such water to be placed at the disposal of the Supervisory Engineer for analysis and shall afford him such facilities as may be necessary for sampling the water in or at the well.

Control of water

68. The lessee of a location upon which a well has been or is being drilled shall use every means and endeavour in accordance with the most approved practice to shut-off water above or below the petroleum or natural gas-bearing stratum or strata, to test the efficacy of such shut-off and to prevent water from entering such petroleum or natural gas-bearing strata.

Closing a well

69. (1) The lessee shall at all times take reasonable measures to the satisfaction of the Supervisory Engineer to prevent the injurious access of water to the petroleum-bearing formation.

(2) Upon a well proving to be unproductive, or ceasing to yield petroleum in commercial quantity, or being abandoned for any cause, the lessee shall be at liberty to withdraw the casing from the said well, but in order to prevent water gaining access to the petroleum-bearing formation, the lessee shall immediately close the well by filling it with cement, clay or other approved material which may have the effect of preventing water from gaining access thereto.

Test of water shut-off

70. (1) When a test of the water shut-off is intended to be made by the operator in any well, the lessee shall notify the Supervisory Engineer of the time that such test is to be made.

(2) The Supervisory Engineer shall be present at such test unless such representation is waived by the Director.

(3) Should the test of water shut-off prove to be unsatisfactory, the Supervisory Engineer may direct that further tests be made and may direct that such remedial measures be instituted as may be deemed necessary effectually to exclude water from the well, and any additional tests required or remedial measures shall be made or instituted without unreasonable delay.

Notice of test

71. (1) When it appears to the Supervisory Engineer that water is entering any petroleum or natural gas-bearing stratum penetrated by a well drilled on a location acquired under these regulations or that water in such well is likely to become injurious to the economic production of petroleum and natural gas from the geological unit upon which such well is drilled, he may order a test of water shut-off and designate a day upon which the same shall be made.

(2) Such order shall be in writing and shall be served upon the lessee or his agent at least fifteen days prior to the day designated in the said order upon which the test of the said shut-off shall be made.

(3) Upon receipt of such order the lessee or his agent shall make the said tests in the manner and at the time specified.

Access of salt water

72. The lessee shall take all reasonable care and carry out such measures as may be satisfactory to the Supervisory Engineer to prevent the access of salt water to any river or stream.

Deviation of well from vertical

73. The lessee, when directed by the Supervisory Engineer, shall make, or cause to be made, tests at intervals not exceeding five hundred feet from the top to the bottom of the well or such lesser intervals as the Supervisory Engineer may require for the purpose of ascertaining to what extent, if any, the well deviates from the vertical and shall submit a report of the same with the daily drilling reports at the end of each week.

Electrolog

74. (1) The Supervisory Engineer may require the lessee to take or cause to be taken an electrolog of any well.

(2) The lessee shall see that the electrical resistivity, weight, and viscosity of the mud are recorded on the electrolog.

(3) A copy of all electrologs, whether taken at the direction of the Supervisory Engineer or not, shall be supplied to the Director.

Notice to be given of shooting of well

75. (1) The lessee shall not allow a well to be shot, perforated, or re-treated with acid until the Supervisory Engineer has been notified in writing of such intended action and his consent obtained.

(2) The lessee shall submit to the Supervisory Engineer a report on every well shot, perforated, or treated with acid, on a form obtainable from the Department.

(3) In case any injury is done to the well by shooting, perforation, or treatment with acid, it shall be repaired immediately to the satisfaction of the Supervisory Engineer.

Completion of well

76. When completing the drilling of any well, the lessee shall adopt such methods and use such equipment as the Supervisory Engineer may from time to time prescribe or approve.

Taking of tests by Supervisory Engineer

77. (1) The surface and subsurface equipment of every petroleum and natural gas well shall be so arranged as to allow the Supervisory Engineer to take the closed-in pressure, the bottom-hole pressure, the working pressure, or make any test required at any time, and the lessee shall assist him at any time to carry out tests so required.

Subsurface equipment and surface equipment

(2) The subsurface equipment shall include a pin-collar or its equivalent appended to the lower end of the production string or tubing as a safeguard against loss of testing equipment.

(3) The surface equipment shall include such valve connections as are necessary to sample the oil, gas or water produced.

(4) For sampling the gas there shall be a half-inch sampling valve.

Suspension of operation

78. The lessee shall notify the Supervisory Engineer in writing immediately drilling or production operations are suspended at any well and before suspension he shall so arrange the well head that no waste of gas or petroleum can occur and that no opportunity be afforded for the access of water to or between the casings of the well.

Resumption of operations

79. The lessee shall not deepen nor undertake the repair or the making of other permanent change to the condition of a well in which drilling has been suspended for a period of more than six months, or which has been in production, without previously notifying the Supervisory Engineer in writing to that effect.

Abandonment of well

80. Before abandoning a well drilled on a location acquired under these regulations and before removing any part of the casing from such well, the lessee shall notify the Supervisory Engineer in writing of his intention so to do on forms obtainable from the Director, and shall furnish a log of the well if he has not already done so and shall obtain written approval of such abandonment and removal of casing from the Supervisory Engineer; provided that in any particular case such approval may first be given orally.

Logs to be kept

81. (1) The lessee shall keep and maintain to the satisfaction of the Supervisory Engineer a careful and accurate log of each and every well drilled, such log to show the character, depth, and thickness of each formation passed through or penetrated, and particularly to show the depth, thickness, and, where tests are made, the porosity, permeability, and saturation of each stratum containing petroleum, natural gas, or water, the pressure, yield, and chemical characteristics of each significant occurrence of petroleum, natural gas, and water, together with full details of electrologs, deviation from the vertical, casing, cementation, treatments with acid, perforations, plugs, and all other information pertinent to the condition of the well and its productive capacity.

(2) Such log shall be kept in the field office of the lessee and shall be at all times open to the inspection of the Supervisory Engineer.

(3) Upon the completion of any well or upon the suspension of operations upon any well for a period of ninety days, a copy of the said log, in duplicate, and in such form as the Supervisory Engineer shall direct, shall be filed within thirty days after such completion, or after the expiration of the ninety-day period, with the Director, and a like copy shall be filed upon the completion of any additional work in the deepening or repairing of any such well.

Plans to be furnished annually

82. The lessee shall furnish the Director at least once each twelve-month period a plan in duplicate showing the position of all wells, test holes, pipelines, tanks, buildings, or other structures on the location and such plan shall be prepared on a scale of not less than one thousand three hundred and twenty feet to the inch.

Monthly report of petroleum and natural gas produced

83. In the event of petroleum and natural gas being produced from any well or wells, the lessee shall mail to the Director not later than the twenty-fifth day of each month, a full report of the petroleum and natural gas produced during the preceding month and of its disposal, such report to show:

(*a*) the quantity of petroleum and natural gas produced from each well during the preceding month;

(*b*) the specific gravity of such petroleum;

(*c*) the number of days during which petroleum or natural gas was produced from each well;

(*d*) the amount of petroleum or natural gas delivered from and used on the location; and

(*e*) the amount of petroleum in storage on the location at the end of the month.

Restriction of flow of natural gas

84. The production of natural gas from any well shall be restricted to the market demand and in no event shall the production exceed twenty-five per centum of the open flow of the well, provided that the Minister may, in his discretion, allow such additional volume to be used as he deems expedient.

Waste of petroleum and natural gas

85. (1) The lessee shall take all reasonable and proper precautions to the satisfaction of the Minister to prevent waste of petroleum and natural gas and his operations shall at all times be so conducted as to enable him to prevent the escape of petroleum and natural gas.

(2) Waste shall be deemed to occur inter alia when in the opinion of the Minister

(*a*) petroleum or natural gas is rendered unavailable for use in accordance with the best and most economic operating practice by reason of the employment of extravagant or inefficient means of production, storage or transport;

(*b*) the ultimate recovery of the petroleum or natural gas from any geological unit is curtailed or otherwise prejudiced by reason of the failure of the lessee or lessees to comply with these regulations and such additional regulations as the Minister may from time to time make in accordance with section ninety-five;

(*c*) petroleum or natural gas or both are produced in excess of the allowable production as may be defined by the Minister in accordance with section eighty-seven;

(*d*) natural gas is produced from any well classified by the Minister as a producer of petroleum in excess of the amount needed to produce such petroleum in accordance with good operating practice or of the amount the Minister may designate;

(*e*) the amount of water produced from any well or wells unduly lowers the pressure in the productive horizon or horizons or otherwise disturbs the uniform withdrawal from the geological unit, or

(*f*) the excess of water produced over an amount that may be determined by the Minister is not returned as directed to the productive horizon.

Delimitation of geological unit

86. (1) The Minister may in his discretion delimit an area upon which petroleum or natural gas has been proved to occur as a geological unit and may require that drilling and production on all locations comprised therein shall proceed according to a common plan having for its purpose the more efficient and economic production of petroleum and natural gas.

(2) If the lessees fail to agree within six months of such delimitation upon a plan satisfactory to the Minister, he may appoint an officer of the Department to draw up a plan and all lessees shall operate the wells upon their locations as such officer directs for such period as the Minister may decide.

87. The Minister may prescribe regulations for the determination of the allowable production of any well or wells and regulate the taking of petroleum or natural gas from any source of supply so as to prevent waste and to ensure conservation of these natural resources in accordance with the best practice.

Minister may assume control of well

88. (1) The Minister may assume control of the operation of a well and adopt such means as may appear to him to be necessary or expedient to prevent the escape of petroleum or natural gas if the lessee or his agent fail to do so or appear unable to do so.

(2) The Minister may assume control of the operation of a well and adopt such means as may appear to him to be necessary or expedient to prevent the access of water to the well, the access of water to petroleum or natural gas-bearing strata or both, or the escape of water from the well if the lessee or his agent fail to do so or appear unable to do so.

(3) Such officer or officers of the Department as the Minister may designate may enter upon the premises of any location acquired under these regulations and perform the work defined under subsections one and two of this section and for that purpose may take possession of and use any drilling rig, derrick, tools, machinery, other appliances or equipment, fuel, water, and other materials, necessary for the performance of the work which may be upon the location or which may be the property of the lessee.

(4) The Minister may recover from the lessee of the location upon which he takes control of a well for the reasons outlined in subsections one and two of this section all costs and expenses incurred by the said officer or officers in the performance of the operations so undertaken.

Safety precautions to be taken

89. (1) No inflammable product or waste product of any kind from any petroleum or natural gas well shall be permitted to flow into any lake, stream, or other body of water, or upon any highway or public road, and all waste of petroleum and refuse from tanks or wells must be drained into adequate receptacles at a safe distance from tanks, wells, or buildings to be immediately burned or transported from the premises, and in no case shall it be permitted to flow over the land.

(2) The lessee shall cause to be cleared of combustible material such area around any well or other works constructed or operated by him as may be required by the Supervisory Engineer and where necessary and practicable the lessee shall construct and maintain a ploughed fire-guard around such area.

Disposal of earth, rock or waste

90. The lessee shall at all times during the term of his lease make such provisions to the satisfaction of the Supervisory Engineer for the disposal of the earth, rock, waste or refuse of the location that the same shall not be an inconvenience, nuisance, or obstruction to any roadway, pass, passage, river, creek or place or to any private, public or Crown lands, or conflict or embarrass the operating of any mines on the said lands, or in any manner whatsoever occasion any private or public damage, nuisance, or inconvenience.

Enclosure of openings or excavations

91. The lessee shall enclose and keep enclosed all abandoned openings or excavations made in connection with or for the purpose of prospecting for and producing petroleum and natural gas or other operations on the location with fences or walls sufficient to prevent any person or animal falling thereinto, such fences or walls to be of a height and character satisfactory to the Supervisory Engineer.

Charges for products for use in N.W.T. and Yukon

92. (1) The lessee shall from time to time on the instruction of the Minister submit a schedule of rates and prices which the lessee is charging for petroleum products obtained from the location for use in the Northwest Territories or Yukon Territory for approval or adjustment in so far as said rates and prices are not fair and reasonable, and shall thereafter before putting into effect any new schedule of rates and prices submit the same for approval or adjustment and no such rates or prices shall thereafter be legal or enforceable until so submitted and approved.

(2) The Minister may require the submission or resubmission at any time of existing schedules of rates and prices for adjustment and approval.

Cancellation of lease for failure to comply with regulations

93. In case of the failure or neglect on the part of the lessee to comply fully with these regulations, the Minister may give written notice to the lessee specifying the breaches complained of, and unless the default specified in the said notice be remedied within ninety days the lease shall be subject to cancellation.

Lessee and Permittee

94. Where the term lessee is used in these regulations in relation to operations conducted thereunder, it shall include permittee.

Additional regulations

95. The Minister may from time to time make such additional regulations as may appear to be necessary or expedient governing the manner in which drilling operations shall be conducted and the manner in which wells shall be operated, also such orders as he may deem necessary for the interpretation and effective administration of these regulations.

Pipelines

96. Where no adequate existing facilities are available a lessee shall have the right to build, maintain, and operate a pipeline and connecting feeder lines and for the purposes thereof shall be entitled to free right of way over Crown lands and the use of public roads. The pipeline shall be operated as a common carrier under such regulations as the Governor in Council may impose.

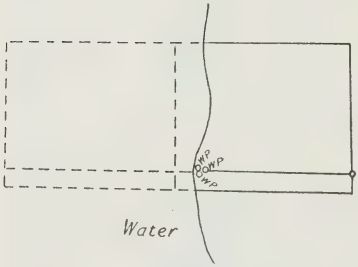
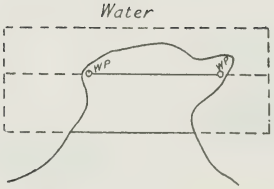
A witness post for an inaccessible extremity of a location line is placed at a suitable point as near as possible to the point which it is intended to witness.



Witness posts for both extremities of a location line for a totally submerged location are placed alongside and on the water side of the witness post for the adjoining marginal location.



Witness posts for inaccessible extremities of a location line for a marginal location are placed at suitable points as near as possible to the respective points to be witnessed.

P.C. 10/4300

CERTIFIED to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 23rd October, 1947.

THE Board recommend that Sections 67 (*b*), 67 (*d*), 69 and 69 (*a*) of the Civil Service Regulations be amended to read as follows:

"67(*b*) Sick leave may be granted only on the production of satisfactory evidence of the inability of the employee to perform his duties, in the form of a written declaration from the employee in cases where the absence has not exceeded three days and a certificate from a qualified medical practitioner where the absence has exceeded three days, such certificate to be submitted within seven days of beginning of absence. Provided that, if in exceptional cases it may be considered advisable to take administrative action on evidence in a form other than the certificate of a duly qualified medical practitioner the matter shall be referred, with full particulars, by the Department concerned to the Department of National Health and Welfare, for consideration and advice. It shall be competent for any deputy minister to reduce the number of days' absence for which a medical certificate will be required if it appears to him to be in the best interests of his department to do so."

"67(*d*) All medical certificates required under Section 67 of these Regulations shall be referred to the Department of National Health and Welfare for review."

"69. Special leave with pay may be granted by the deputy head to employees who have the necessary special leave credit, for certain designated causes such as illness in the family, death in the family, quarantine, etc., but not continuously in excess of six days except with the approval of the Commission. For this purpose special leave credit may accumulate at the rate of one-half day for each completed month of continuous service up to a maximum of thirty days, deduction therefrom being made for any period of special paid leave. When the leave credit is thus reduced, it may again commence to accumulate until the maximum of thirty days is reached, but no employee shall at any time have more than thirty days' leave to his credit. Special leave with pay shall be granted only on the production of a written application from the employee, setting forth in detail the reasons why he considers that paid leave should be allowed and supported by such evidence as the deputy head may require; provided that in all cases of illness in family in excess of one day, a medical certificate shall be furnished."

"Causes for which special leave may be allowed shall be designated by the Commission and communicated to the departments."

"69 (*a*) Casual absences (which are defined as absences of three days' duration or less and which are covered by the employee's declaration only) shall not be allowed with pay in excess of eight days in any fiscal year on account of the illness of an employee or on account of illness in family. If the eight day limit is exceeded, a medical certificate shall be furnished, otherwise, no further pay will be allowed for such absences unless, on the employee's written request, they are charged to annual leave, provided that, if in exceptional cases it may be considered advisable to take administrative action on evidence in a form other than the certificate of a duly qualified medical practitioner the matter shall be referred, with full particulars, by the Department concerned to the Department of National Health and Welfare, for consideration and advice."

Avis de bills privés

107. Toute demande adressée au Parlement pour obtenir un bill privé doit être annoncée par avis publié dans la *Gazette du Canada;* cet avis doit indiquer d'une manière claire et précise la nature et l'objet de la demande, être signé par les pétitionnaires ou en leur nom et désigner l'adresse des signataires; et si la demande a pour objet l'obtention d'une loi en constitution de corporation, l'avis doit aussi mentionner le nom de la compagnie dont la constitution est projetée.

Outre l'avis dans la *Gazette du Canada,* comme susdit, pareil avis doit être donné de la façon suivante:

(A) Lorsque la demande a pour objet l'obtention d'une loi constituant en corporation:

1. *Une compagnie de chemin de fer ou de canal*—dans un des principaux journaux de la principale cité, ville ou village de chaque comté ou district par où doit passer le chemin de fer ou le canal dont la constitution est projetée;

2. *Une compagnie de télégraphe ou de téléphone*—dans un des principaux journaux de la principale cité ou ville de chaque province ou territoire dans lequel la compagnie se propose d'exercer des opérations;

3. Une compagnie ayant pour objet *l'exécution d'entreprises* dont l'exécution ou l'exploitation pourrait spécialement affecter une localité particulière, ou cherchant à obtenir des *droits ou privilèges exclusifs,* ou voulant accomplir toute affaire ou chose dont l'accomplissement affecterait les droits ou propriétés d'autrui—dans un des principaux journaux de l'endroit ou des endroits particuliers que le projet de loi peut affecter;

4. *Une compagnie de banque; compagnie d'assurance; compagnie fiduciaire; compagnie de prêt* ou *compagnie industrielle,* sans pouvoirs exclusifs—dans la *Gazette du Canada* seulement;

5. Et si les entreprises d'une compagnie (constituée ou à constituer) doivent être déclarées d'utilité publique au Canada, cette intention doit être expressément mentionnée dans l'avis, et les requérants doivent adresser une copie de cet avis, sous pli recommandé, au secrétaire de chaque conseil de comté et de chaque corporation municipale pouvant être particulièrement affectée par l'exécution ou l'exploitation de ces entreprises, ainsi qu'au secrétaire de la province dans laquelle des entreprises sont ou peuvent être situées; et la preuve de l'observation de cette prescription par les requérants doit être établie par une déclaration statutaire.

(B) Lorsque la demande a pour objet de modifier une loi existante:

1. Afin de prolonger une ligne de chemin de fer ou un canal, ou de construire des embranchements qui s'y relient—l'avis doit être le même *mutatis mutandis* que celui pour l'obtention d'une loi constituant en corporation une compagnie de chemin de fer ou de canal;

2. Afin de proroger le délai fixé pour la construction ou l'achèvement d'une ligne de chemin de fer, d'un canal, d'une ligne télégraphique ou téléphonique, ou d'autres entreprises déjà autorisées—dans un des principaux journaux de l'endroit où la compagnie a ou est autorisée à avoir son siège social;

3. Afin d'élargir les pouvoirs d'une compagnie (sans comporter attribution de droits exclusifs); d'accroître ou de réduire le capital social d'une compagnie; ou d'augmenter ou modifier son pouvoir d'émettre des obligations ou ses autres pouvoirs d'emprunt; ou de présenter un amendement pouvant porter atteinte aux droits ou aux intérêts des actionnaires, des détenteurs d'obligations ou des créanciers de la compagnie—dans un des principaux journaux du lieu de son siège social.

(C) Tous ces avis, qu'ils soient insérés dans la *Gazette du Canada* ou dans un journal, doivent être publiés au moins une fois par semaine pendant quatre semaines consécutives; et lorsqu'ils sont publiés dans les provinces de Québec et du Manitoba, ils doivent être en langues anglaise et française.

Des exemplaires marqués de chaque numéro de tous les journaux contenant l'avis doivent être adressés au greffier du Sénat et porter la mention: "Avis de bill privé"; au lieu des journaux, une déclaration statutaire attestant que l'avis a été régulièrement publié peut être adressée au greffier du Sénat.

Tout avis adressé sous pli recommandé doit être mis à la poste à temps pour parvenir au secrétaire de la province et au greffier de chaque conseil de comté et de chaque corporation municipale deux semaines au moins avant l'examen de la pétition par le comité des ordres permanents; et une déclaration statutaire établissant le fait de la mise à la poste doit être transmise au greffier du Sénat.

108. Nulle pétition demandant la constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie de canal, ou le prolongement de la ligne d'un chemin de fer ou d'un canal existant ou autorisé, ne doit être étudiée par le comité des ordres permanents, à moins qu'il n'ait été déposé devant le comité une carte ou un plan indiquant le tracé proposé de l'entreprise, ainsi que chaque comté, canton, district ou municipalité par où doit passer le chemin de fer, le canal, l'embranchement ou le prolongement dont la construction est projetée.

110. Toute pétition tendant à obtenir un bill privé ne sera reçue par le Sénat que si elle a été déposée chez le greffier du Sénat au cours des six premières semaines de la session; et tout bill privé introduit au Sénat doit être présenté au Sénat dans un délai de deux semaines après que l'examinateur des pétitions ou le comité des ordres permanents aura fait un rapport favorable à la pétition se rapportant à ce bill; et aucune motion demandant la suspension du présent ordre permanent ne sera prise en considération à moins que le comité des ordres permanents n'ait au préalable présenté un rapport recommandant pareille suspension.

114. Toute personne qui désire présenter un bill privé doit remettre au greffier du Sénat, s'il est projeté que le bill prenne naissance au Sénat, une copie du bill en anglais ou en français, avec un montant suffisant pour en payer la traduction, laquelle sera faite par les fonctionnaires du Sénat; elle doit aussi payer les frais d'impression de 600 exemplaires anglais et de 200 exemplaires français. Le requérant doit pareillement verser entre les mains du greffier du Sénat, aussitôt après la deuxième lecture du bill, et avant sa mise à l'étude par le comité auquel il est renvoyé, la somme de deux cents dollars avec les frais d'impression de la loi pour l'incorporer dans les Statuts; et il doit remettre au greffier de ce comité un reçu de ce versement.

La taxe à acquitter lors de la deuxième lecture d'un bill n'est payée qu'à la Chambre où le bill est présenté.

Modèle d'un bill amendant une loi

60A.—(1) Dans la confection des bills amendant des textes législatifs existants, les amendements ne doivent pas ordinairement être effectués au moyen de clauses qui ajoutent, retranchent ou remplacent des mots, mais au moyen de clauses qui réédictent l'article, le paragraphe ou la disposition, telle qu'amendée.

(2) Dans le texte du bill, sur la page de gauche, le nouveau texte doit être indiqué par les signes typographiques les plus appropriés à chaque cas; crochets, italique, texte souligné, astérisques, etc. En regard de chaque clause, sur la page de droite, le texte amendé par le bill, ou la partie importante de ce texte doit être imprimée, et les changements projetés doivent y être indiqués de la manière prévue ci-dessus.

(3) Lorsqu'une clause abroge un article existant, un paragraphe ou une autre disposition d'un article, cet article, ce paragraphe ou cette autre disposition, ou la partie qui en est importante, doit être imprimé en regard de la clause.

(4) Un mémoire du rédacteur expliquant brièvement les motifs de chaque clause doit être annexé au bill, ou distribué avec le bill. Lorsque possible, le mémoire doit être imprimé sur la page de droite du bill, en paragraphes placés en regard des clauses visées, et portant un numéro correspondant.

(5) Les règles ci-dessus s'appliquent, autant que possible, à la réimpression des bills.

L. C. MOYER,
Greffier du Sénat.

CHAMBRE DES COMMUNES

EXTRAIT DU RÈGLEMENT DE LA CHAMBRE DES COMMUNES TOUCHANT LA PUBLICATION DES AVIS

95. (1) Toute pétition introductive de bill privé de quelque nature qu'il soit, doit être annoncée par avis publié dans la *Gazette du Canada*. Cet avis doit exposer clairement et distinctement la nature et l'objet du bill projeté; il doit être signé par les pétitionnaires ou en leur nom, avec indication de l'adresse des signataires. Si la pétition tend à une loi de constitution en corporation, l'avis doit mentionner le nom de la compagnie projetée. Si les travaux d'une compagnie, qu'elle soit constituée en corporation ou qu'il s'agisse de la constituer en corporation doivent être reconnus comme étant des-

tinés à profiter au Canada d'une manière générale, l'avis doit énoncer cette intention expressément, et les pétitionnaires doivent faire parvenir une copie de cet avis par lettre recommandée, au secrétaire de chaque comté ou municipalité que la construction ou la mise en œuvre de ces ouvrages peut intéresser, ainsi qu'au secrétaire de la province où ces mêmes ouvrages sont ou pourront être situés. Tout avis ainsi expédié par lettre recommandée doit être mis à la poste assez tôt pour arriver à destination au moins deux semaines avant la prise en considération du bill par le comité auquel il peut être renvoyé La preuve que les requérants se sont conformés à cette règle s'établit au moyen d'une déclaration statutaire.

(2) Outre l'avis devant figurer dans la *Gazette du Canada*, il doit en être publié un semblable dans quelque journal important, comme suit:

(A) 1. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de chemin de fer ou de canal, cet avis similaire doit être publié dans la principale cité, ville ou municipalité de village de chaque comté ou district que doit traverser le chemin de fer ou le canal projeté;

2. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie de télégraphe ou de téléphone, cet avis similaire doit être publié dans la principale cité ou ville de chaque province ou territoire où la compagnie en question se propose d'établir son service;

3. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation une compagnie créée en vue de la construction de tous ouvrages dont l'établissement ou la mise en œuvre pourrait intéresser tout particulièrement une localité quelconque, ou en vue de tous droits ou privilèges exclusifs, ou encore en vue de toute opération qui pourrait porter atteinte aux droits ou aux biens d'autrui, cet avis similaire doit être publié dans les diverses localités où la loi projetée pourrait porter atteinte aux affaires, droits ou biens d'autres personnes ou compagnies;

4. Lorsqu'il s'agit de faire voter une loi à l'effet de constituer en corporation un établissement bancaire, une compagnie d'assurance, une compagnie de fiducie, une compagnie de prêts ou une compagnie industrielle non dotée de pouvoirs exclusifs, il suffit d'un avis dans la *Gazette du Canada*.

(B) 1. Lorsque la pétition a pour objet de modifier une loi existante en vue du prolongement de tout chemin de fer ou canal ou de la construction d'un embranchement de voie ferrée ou de canal, il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité, ville ou municipalité de village de chaque comté ou district devant être desservi par ce prolongement ou cet embranchement.

2. Lorsque la pétition a pour objet de modifier une loi existante en vue de prorogation du délai fixé pour la construction ou l'achèvement de toute ligne de chemin de fer, de tout embranchement ou prolongement de ligne de chemin de fer, de tout canal, de tout réseau télégraphique ou téléphonique, ou de tout ouvrage déjà autorisé il est publié un avis à l'endroit où se trouve le siège social de la compagnie et dans la principale cité ou ville de chaque district intéressé.

3. Lorsque la pétition a pour objet de modifier une loi existante en vue de la continuation d'une charte ou de l'extension des pouvoirs d'une compagnie (quand elle ne comporte pas la concession de droits exclusifs); ou en vue de l'augmentation ou de la réduction du capital-actions d'une compagnie quelconque; ou en vue de l'accroissement ou de la modification de sa faculté d'émettre des obligations ou de contracter des emprunts d'un autre genre; ou encore en vue de toute modification touchant aux droits ou intérêts des actionnaires, obligataires ou créanciers de la compagnie, il est publié un avis à l'endroit où est situé le siège social de la compagnie ou à l'endroit où la compagnie est autorisée à établir son siège social.

(C) Lorsque la pétition a pour objet d'obtenir, pour quelque personne ou corporation existante, des droits ou privilèges exclusifs ou encore la faculté d'accomplir une chose dont la mise en œuvre intéresserait les droits ou biens d'autrui, il est publié un avis dans les localités où les affaires, les droits ou les biens d'autrui peuvent être spécialement compromis par la loi projetée.

(3) Tout avis de ce genre, qu'il soit inséré dans la *Gazette du Canada* ou dans un journal, doit être publié au moins une fois par semaine durant une période de quatre semaines consécutives. Lorsque la pétition prend naissance dans la province de Québec ou dans la province du Manitoba, l'avis en doit être publié en anglais dans un journal anglais et en français dans un journal français, ainsi qu'en anglais et en français dans la *Gazette du Canada*. S'il n'y a pas de journal dans la localité où il faut annoncer ladite pétition l'avis doit être publié à l'endroit le plus rapproché où est imprimé un journal. La preuve que l'avis en question a été dûment publié s'établit, dans chaque cas, par voie de déclaration statutaire. Toute déclaration de cette nature doit être envoyée au greffier de la Chambre, et elle doit porter au dos l'indication: "Avis de bill privé".

Pétitions introductives de bills privés

92. Nulle pétition introductive de bill privé n'est reçue par la Chambre si elle n'est pas présentée dans les six premières semaines de la session. Tout bill privé prenant naissance à la Chambre des communes doit y être présenté dans les deux semaines qui suivent le jour où la pétition a été rapportée favorablement par l'examinateur des pétitions ou par le comité du Règlement. Nulle motion portant suspension du présent article ne peut être accueillie à moins que le comité du Règlement n'ait préalablement présenté un rapport recommandant cette suspension, en y consignant les motifs de sa décision

97. Nulle pétition portant constitution en corporation d'une compagnie de chemin de fer ou d'une compagnie se proposant d'exploiter un canal, ou portant prolongement d'une ligne de chemin de fer ou d'un canal existant ou autorisé, ou portant construction d'un embranchement de voie ferrée ou de canal, ne sera prise en considération par l'examinateur, ou par le comité du Règlement, tant qu'il n'aura pas été déposé entre les mains dudit examinateur une carte ou un plan indiquant l'endroit où se trouveront ces ouvrages, et chaque comté, canton, municipalité ou district à travers lequel, le chemin de fer, le canal, le prolongement ou l'embranchement projeté doit être construit.

Bills privés

93. (1) Quiconque désire obtenir un bill privé doit déposer entre les mains du greffier de la Chambre, au plus tard le premier jour de la session, une copie de ce bill en anglais ou en français, ainsi qu'une somme suffisante pour en défrayer la traduction, qui est faite par le personnel de la Chambre, et l'impression, qui est exécutée par le département des impressions publiques.

(2) Le promoteur d'un bill privé doit, après la deuxième lecture de ce bill et avant sa prise en considération par le comité qui en est saisi, défrayer l'impression de la loi dans le recueil des statuts et payer un droit de cinq cents dollars.

(4) Lorsqu'un bill porte augmentation du capital-actions d'une compagnie existante, le droit additionnel à débourser est basé sur le tarif précité, et il n'y est fait état que du montant de l'accroissement.

(5) *a*) Lorsqu'un bill tend à l'augmentation de la faculté d'emprunt d'une compagnie ou en comporte l'augmentation sans qu'il y ait accroissement du capital-actions, le droit additionnel est de trois cents dollars.

b) Lorsqu'un bill porte augmentation à la fois du capital-actions et de la faculté d'emprunt d'une compagnie, le droit additionnel est perçu sur les deux.

(6) Si, à quelque phase du bill, il y a augmentation du capital-actions projeté d'une compagnie ou de sa faculté d'emprunt, le bill en question ne peut franchir une autre étape tant que ces promoteurs n'auront pas soldé les frais occasionnés par cette modification.

(7) Dans la présente règle, l'expression "capital-actions projeté" comprend toute augmentation de capital-actions prévue par le bill; et quand un bill porte faculté d'augmenter à quelque époque le chiffre du capital-actions, le droit additionnel est calculé sur le maximum de l'augmentation projetée, dont le bill fait mention.

(8) Les droits additionnels établis par la présente règle s'appliquent aussi aux bills privés qui ont pris naissance au Sénat; néanmoins, si la pétition introductive d'un bill privé de ce genre a été présentée à la Chambre des communes dans les six premières semaines de la session, les droits additionnels prévus aux alinéas *b*) ou *c*) du paragraphe 3 ne sont pas exigibles.

Du bill-type

96. (1) Le greffier en chef des bills privés remplit les fonctions d'examinateur des bills privés, et, comme tel, il est tenu d'étudier et de reviser tous les bills privés antérieurement à leur impression, en vue d'y établir une certaine uniformité, lorsque la chose est possible, et de s'assurer qu'ils ont été élaborés conformément aux articles du Règlement de la Chambre relatifs aux bills privés.

(2) Tout bill tendant à la constitution en corporation d'une compagnie doit, lorsqu'il a été adopté une formule de bill-type, être rédigé en conformité de ce modèle, dont il peut être obtenu des exemplaires du greffier de la Chambre. Toute disposition d'un bill de ce genre qui n'est pas conforme au bill-type doit être insérée entre crochets ou soulignée, et elle doit être imprimée de la sorte.

(3) Lorsqu'un bill privé porte modification d'un article, paragraphe ou alinéa quelconque d'une loi existante, ce même article, paragraphe ou alinéa doit être abrogé dans le texte du bill et reconstitué selon la modification que les auteurs du bill veulent y apporter, la nouvelle rédaction devant être soulignée. L'article, le paragraphe ou alinéa que les auteurs veulent faire abroger, ou encore ce qu'il renferme d'essentiel, doit être imprimé sur la feuille du côté droit en regard de ce même article, paragraphe ou alinéa.

(4) Lorsqu'un bill privé tend à abroger un article, paragraphe ou autre partie d'un article, cet article, ce paragraphe ou cette autre partie, ou encore ce qui s'y trouve d'essentiel, doit être imprimé en regard de l'article du bill.

(5) Une note établissant brièvement l'objet d'une disposition d'un caractère exceptionnel ou dont la teneur s'écarte des dispositions du bill-type ou des articles servant de modèle, doit être imprimée en regard de l'article du bill.

CARTE OU PLAN ACCOMPAGNANT LE BILL

98. Nul bill portant constitution en corporation d'une compagnie de chemin de fer ou de canal, nul bill tendant à faire autoriser la construction d'embranchement ou de prolongements se rattachant à des lignes de chemins de fer ou à des canaux existants, nul bill portant modification de la route suivie par un chemin de fer ou un canal exploité par une compagnie déjà constituée en corporation ne doit être pris en considération par le comité des chemins de fer tant qu'il n'aura pas été produit devant ledit comité, au moins une semaine avant la prise en considération du bill, une carte ou un plan établi sur une échelle d'au moins un demi-pouce au mille, indiquant le territoire sur lequel il est question de construire les ouvrages projetés et aussi les ouvrages analogues qui y ont déjà été construits ou autorisés, ou qui intéressent la région ou la partie de région devant être desservie par les services projetés. Cette carte ou ce plan doit porter la signature de l'ingénieur ou de toute autre personne qui l'a dressé.

RÈGLEMENTS DU PASSAGE D'EAU

Passage d'eau sur la rivière Saint-Clair, entre Walpole-Island, province d'Ontario et Algonac, Etat du Michigan, Etats-Unis d'Amérique.

Article premier

Les limites du passage d'eau s'étendent d'un point connu sous le nom de l'extrémité du chemin Austin, Walpole-Island, province d'Ontario, à un point dans la ville d'Algonac, Etat du Michigan, Etats-Unis d'Amérique, ce dernier point devant être déterminé par les autorités municipales de l'endroit.

Article deuxième

On doit permettre à l'adjudicataire de se servir du quai public et de la rampe-débarcadère de passage d'eau à l'extrémité du chemin Austin, Walpole-Island, comme débarcadère pour ses bateaux-passeurs. La rampe-débarcadère doit servir exclusivement au passage d'eau et aux personnes et véhicules qui se servent dudit passage d'eau. De plus, le côté sud du quai public jusqu'à un point sis à cent vingt pieds (120') dans la direction du rivage à partir de l'extrémité du large du quai, doit être réservé à l'usage des bateaux-passeurs et des personnes qui se servent desdits bateaux-passeurs. On doit permettre à l'adjudicataire d'ajouter à ces ouvrages ou à des parties de ces derniers, surbordonnément à l'approbation du ministre des Travaux publics du Canada, les ouvrages qu'il jugera nécessaires. L'adjudicataire doit tenir toutes ces parties du quai public, ainsi que la rampe et les ouvrages supplémentaires, dans un état de propreté et faire toutes les réparations rendues nécessaires par des dommages résultant du service du passage d'eau.

Le privilège d'utiliser le quai du gouvernement est accordé à l'adjudicataire à condition que ledit quai soit tenu ouvert à la circulation du gouvernement.

Sinon, l'adjudicataire doit fournir, entretenir et maintenir en bon état un débarcadère convenable qui doit être absolument sûr et utilisable à toutes les phases du niveau de la rivière et qui doit être approuvé par le ministre des Travaux publics du Canada.

Article troisième

L'adjudicataire doit, sans frais de location ou autres pour le ministère du Revenu national, fournir, à ses propres frais et à la satisfaction du ministre du Revenu national, une salle d'attente et un entrepôt de tolérance convenablement éclairés et chauffés, pour l'entreposage temporaire des marchandises déchargées en Canada par les bateaux-passeurs. Il doit fournir également un bureau convenable pour les fonctionnaires du ministère du Revenu national préposés à la surveillance du passage d'eau et de l'entrepôt de tolérance.

L'adjudicataire doit aussi, au besoin, fournir et entretenir, à ses propres frais, un bureau éclairé et chauffé pour l'usage des fonctionnaires du ministère de l'Immigration préposés au débarcadère ou quai dudit passage d'eau.

Article quatrième

L'adjudicataire doit fournir et mettre en service sur le passage d'eau au moins un vaisseau à autopropulsion pouvant loger six automobiles et ayant une cabine pour les passagers.

Les vaisseaux doivent avoir un commandant respectable et capable, possédant toutes les qualifications requises par la *Loi de la marine marchande du Canada*.

Les vaisseaux doivent être construits de manière à pouvoir donner un service convenable et satisfaisant pour le transport des passagers et des véhicules, sur ledit passage d'eau; ils doivent être munis de ceintures de sauvetage, être parfaitement équipés pour donner un bon service, et être maintenus en état de propreté comme la chose est requise par la *Loi de la marine marchande du Canada*.

Avant l'émission du permis, l'adjudicataire doit, à ses propres frais, se procurer d'un inspecteur qualifié de vaisseaux à vapeur, un certificat attestant la navigabilité des vaisseaux devant être mis en service en vertu dudit permis, et il doit déposer ce certificat au bureau du ministre des Travaux publics du Canada.

Il sera loisible au ministre des Travaux publics du Canada de rejeter tout vaisseau qui pourrait être mis en service sur ledit passage d'eau en quelque temps que ce soit, ou de rejeter son commandant ou les quais ou débarcadères fournis par l'adjudicataire, s'il les considérait tous, ou l'un d'eux respectivement, impropres au service ou incapables de satisfaire aux besoins du public.

Article cinquième

L'adjudicataire doit faire éteindre tous les feux des automobiles et faire arrêter les moteurs de ces dernières immédiatement après que chaque automobile aura pris place sur le bateau-passeur, et il doit voir à ce qu'ils soient maintenus dans cet état jusqu'à ce que le bateau soit amarré au quai ou débarcadère auquel il accoste.

Article sixième

L'adjudicataire ne doit jamais transporter ni permettre ou tolérer sciemment qu'il soit transporté sur ledit passage d'eau des articles de contrebande de quelque nature que ce soit.

Article septième

L'adjudicataire doit se conformer à toutes les lois relatives à la douane et à l'accise du Dominion du Canada et des Etats-Unis d'Amérique.

PRESENT:
HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

HIS Excellency the Governor General in Council, on the recommendation of the Minister of Public Works and under the provisions of Section 7 of the Ferries Act, Chapter 68 of the Revised Statutes of Canada, 1927, is pleased to make the annexed regulations for the governance of the

Public Ferry across the St. Clair River between Walpole Island, Ontario, and Algonac, Michigan, U.S.A., during the life of the licence issued under authority of Order in Council P.C. 2094, dated 27th May, 1947, and they are hereby made and established accordingly.

A. D. P. HEENEY,
Clerk of the Privy Council.

—

FERRY REGULATIONS

Ferry operating across the St. Clair River, between Walpole Island, Province of Ontario, and Algonac, State of Michigan, United States of America

First

The limits of the ferry shall be co-terminus with a point known as the end of the Austin Road, Walpole Island, Province of Ontario, and a point in the Town of Algonac, in the State of Michigan, United States of America, to be fixed by the Municipal authorities of that place.

Second

The licensee shall be permitted to use the public wharf and ferry landing ramp at the end of the Austin Road, Walpole Island, as the landing for his ferry vessels. The landing ramp shall be used exclusively by the ferry and persons and vehicles passing to and from the ferry. In addition, the south side of the Public Wharf, to a point one hundred and twenty feet (120') inwards from the outer end of the wharf, shall be reserved for the use of the ferry vessels and persons passing to and from these vessels. The licensee shall be permitted to add such works to these structures, or portions thereof, as he may deem necessary, subject to the approval of the Minister of Public Works of Canada. He shall keep all such portions of the public wharf, the ferry ramp and additional structures in a clean condition and make any repairs necessary due to damage resulting from the ferry service.

The privilege of using the Government Wharf is granted the licensee, provided it is kept open to traffic by the Government. If not, the licensee shall provide, maintain and keep in proper repair, a suitable landing which shall be absolutely safe and available at all stages of the river, and subject to the approval of the Minister of Public Works of Canada.

Third

The licensee shall provide to the satisfaction of the Minister of National Revenue, free of all charges for rental or otherwise and adequately lighted and heated at the expense of the licensee, a waiting room and a sufferance warehouse for the temporary storage of goods landed in Canada from the Ferry, and suitable office accommodation for the Officers of National Revenue appointed to attend the ferry and sufferance warehouse. Suitable office accommodation shall also be provided, if required, and shall be maintained, lighted and heated at the expense of the licensee, for the Officers of Immigration engaged at the landing dock or wharf of the said ferry.

Fourth

The licensee shall provide and place on the route at least one self-propelled boat with accommodation for six automobiles and a cabin for passengers.

The vessels shall have a respectable and efficient commander with all necessary qualifications as may be required under the Canada Shipping Act.

The vessels shall be so constructed as to adequately and satisfactorily care for the transportation of passengers and vehicles on the route, shall be provided with life-jackets and otherwise adequately equipped for the service intended, and be kept in a cleanly state throughout, or in accordance with the Canada Shipping Act.

Prior to the issuance of the licence, the licensee shall, at his own expense, obtain from a qualified Steamboat Inspector, a certificate as to the seaworthiness of the vessels to be employed under the said licence, and shall file the said certificate with the Minister of Public Works of Canada.

The Minister of Public Works of Canada shall have the right to reject any vessel which may at any time be placed on the landing dock or wharf provided by the licensee, should he consider them, or any of them, respectively, unsuitable to the service or inadequate to meet the wants of the public.

Fifth

The licensee shall cause all fires to be extinguished in automobiles, and all motors in automobiles, to be stopped immediately after the automobile has taken its position on the ferry vessel, and to remain so until the vessel is made fast to the wharf or ferry bridge at which she lands.

Sixth

The licensee shall not at any time knowingly carry or convey, or knowingly permit or suffer to be carried or conveyed over said ferry, any contraband articles whatsoever.

Seventh

The licensee shall observe all Customs and Revenue laws of the Dominion of Canada and of the United States of America.

Eighth

During the continuance of the licence in each and every year, the licensee shall maintain the following schedule of trips between Walpole Island, Ontario, and Algonac, Michigan, U.S.A.

SCHEDULE OF TRIPS

Provided, however, that if regular crossings are temporarily suspended, the crew of said boat shall remain on duty until the time for the final trip shall have passed in order that regular crossings may be resumed whenever and as soon as the condition of weather warrants.

The licensee and the General Council of the Walpole Island Indians shall be entitled to be heard before any change is made. Notice of such alteration or modification shall be published in the *Canada Gazette* as provided by the Eighth Section of Chapter 68 of the Revised Statutes of Canada, 1927, entitled "An Act Respecting Public Ferries", and the licensee shall be officially notified by the Minister of Public Works, and after such notification the licensee shall maintain such modified schedule of trips and shall not take or receive any other or larger fares or tolls than those imposed in such modified tariff during the existence thereof.

Twelfth

In case the sum, if any payable, for the licence or any part thereof, shall be unpaid for twenty-one days after becoming payable, or if any proviso, condition, term, restriction or stipulation which ought to be observed or performed by the licensee, shall not be performed or observed, or if the licensee or other person or company in whom for the time being the term created by the licence is vested, shall become bankrupt, or if the provisions of section 5 of the Lord's Day Act be not duly observed and complied with by the licensee, then, and in any of the said cases, it shall be lawful for the Minister to cancel such licence by written notice to the licensee and thereupon the same shall become and be absolutely null and void.

Thirteenth

The licensee shall not at any time during the existence of the licence, wilfully or knowingly infringe any of the laws or regulations of the United States of America, or of the State of Michigan, or of the Town of Algonac, in reference to ferriage which may be applicable to the said ferry or such portion thereof as may be within the jurisdiction of the said United States of America, or of the State of Michigan, or of the Town of Algonac, or permit or suffer the same to be infringed by any officer, servant, or employee of the said licensee.

Fourteenth

Provided further, that if the United States of America, or the State of Michigan, or the Town of Algonac, shall in the exercise of any authority in any of them existing at any time during the existence of the said licence, prevent or hinder ferriage at or upon the said ferry, or such portion thereof as may be within the jurisdiction of such one of them, the provisions of the twelfth paragraph hereof relating to the forfeiture of the licence hereby granted, shall not apply.

Fifteenth

The licence will be granted for a period of five (5) years from May 1st, 1947.

Sixteenth

The licensee shall give and enter into a bond to His Majesty in the sum of $500.00 with two good and sufficient sureties residing in Canada, for the due performance and observance of the terms and conditions of the licence, and the regulations on the part of the licensee to be observed and performed.

Permit to explore

2. The Minister may issue to any person applying therefor a permit conveying the exclusive right to explore for petroleum and natural gas in lands, the property of the Crown, in the Northwest Territories and the Yukon Territory, if he is satisfied that the exploratory program to be undertaken is of such a nature that information of value will be obtained.

Area

3. (1) The maximum area which may be held under one permit shall be sixty-four thousand acres and the minimum area shall be thirty-two thousand acres.

(2) Every such area shall be rectangular in form, the length being not greater than three times its breadth, and may be staked in any direction; provided, however, that where any area adjoins or is in close proximity to or is crossed by any important navigable river or rivers, the smaller dimension of such area shall be in the general direction of such river, or should there be more than one river, then in the general direction of the larger river.

(3) No person shall at any one time hold more than eight permits.

Term

4. Unless sooner cancelled under these regulations, every permit shall be valid for a period of three years and may be renewed for a further period of three years.

Fee—Deposit

8. Every application for a permit shall be accompanied,

(*a*) by a fee of two hundred and fifty dollars,

(*b*) by a deposit of money or guarantee bond satisfactory to the Minister, to the value of five cents for each acre included in the area for which application is made, to cover the first eighteen months' period of the permit,

Information to be furnished

(*c*) by complete information setting out the extent and character of the examination to be made and an estimate of the cost thereof,

Description of area

(*d*) by a written description by metes and bounds of the area applied for, together with an explanatory sketch plan drawn to a suitable scale, indicating the positions of the legal posts, the positions of the four corners, the positions and lengths of the reference lines, the distances apart of cairns or mounds on the reference lines and the astronomic northing or southing and easting or westing from the most suitable recognizable natural feature or features shown on the official map sheet or sheets of the National Topographic series at the scale of eight miles to one inch; the sketch plan shall contain marginal diagrams in the form of squares of suitable size, opposite the sides of which will be indicated the markings on the corresponding sides of the legal post planted,

Method of staking

(*e*) by evidence supported by affidavit to show that the following requirements have been complied with:—

(i) that the area has been marked on the ground by at least one legal post planted preferably at one of the four corners or otherwise planted

one or e of the four side lines, an additional legal post to be planted wherever any one of the side lines is intersected by a travelled road or water route;

(ii) that each legal post planted has been referenced by a straight line marked on the ground at least two thousand feet in length commencing at the post and running along one of the boundaries; where the post is at a corner, this line, if possible, should be in the direction of the greatest dimension of the area; in timbered country the line shall be clearly marked on the ground by removing the trees and underbrush to a width of six feet along the entire length thereof and an area of ten feet square shall be cleared by cutting the underbrush so that the post shall be clearly discernible at a reasonable distance. In a locality where there are neither trees nor underbrush the line shall be marked by stone cairns or earth mounds at least thirty inches high and thirty inches in bottom diameter and placed at intervals of not more than four hundred feet;

(iii) that each legal post has been marked to show the name of the applicant for the permit, the hour and the date it was planted, the number of the post, whether it is a corner or a side post and the distance in miles and the direction to the two adjacent corners, in the manner indicated in Appendix A; the inscriptions to be placed on these legal posts shall be clearly and legibly marked by knife, marking iron or crayon, in such manner that they will not become obliterated; except when marked by a corner post the position of each corner is fixed by the natural feature from which it is referenced and the boundaries of the area are the straight line joining the four corners;

(iv) priority of application shall be based upon the date and time of the staking of the area applied for.

Exploratory work to be performed

9. (1) The permittee shall make an approved geological examination of the area, by surface exploration, geological operations, or other approved methods relating to the subsurface geology, such as drilling.

(2) The minimum expenditure for such exploration shall be equal to the amount of money or bonds on deposit by the permittee.

Deposit at end of eighteen months

Excess expenditure to be credited on succeeding year

12. If the permittee incurs during any period of his permit an expenditure on exploratory work in excess of the amount required under these regulations, the said excess shall be allowed as a credit against expenditures as required by sections ten and eleven for the succeeding periods.

Cancellation for failure to make deposits

13. Where a permittee fails to make the deposit of money or guarantee bond satisfactory to the Minister required to be made by sections ten or eleven of these regulations the Minister may in his discretion cancel the permit.

(1) A permittee, who has acquired more than one permit, may consolidate for operations and expenditures the areas described in such permits, if such areas or any portion thereof, are situate within a distance of twenty-five miles from the boundary of any area held under permit by the permittee upon which exploratory work is being done.

(2) For the purposes of this section the date of the consolidation shall be that of the earliest permit included in such consolidation.

Purpose of deposit

16. The deposit of money or guarantee bond shall be held by the Department as a guarantee that an expenditure equal thereto will be made in accordance with these regulations during the period for which the deposit was made.

Forfeiture

Minister to decide amount

(2) The amount of such expenditure shall be determined by the Minister on evidence of expenditure furnished by the permittee and such other evidence as the Minister may require.

Release of deposit

18. Such portions of the deposit as may be satisfactory to the Minister shall be released from time to time upon acceptance by the Minister of progress reports submitted to the Director by the permittee and such other information as the Minister may require in respect of expenditures made in relation to such progress reports together with the logs of any wells drilled and the conditions ascertained and the results obtained.

all aerial photographs and certified copies of all geological and geophysical plans and reports completed during such period together with full details of all drilling and other subsurface work undertaken.

Credit for expenditure on permit or group

21. At the expiration of each period of a permit or group of permits, referred to in sections eight, ten, and eleven, an amount of fifty per centum of the total expenditures as determined by the Minister pursuant to Section 17 (2) made in respect of a permit or group of permits shall be placed to the credit of the permittee to be applied in satisfaction of the rental, including the first year's rental, of any leases acquired comprising portions of the area formerly held under such permit or group of permits; provided, however, that no portion of any such credit shall be applied on account of the rental of said leases after commercial exploitation of the geological unit on which the location or group of locations is situated has commenced.

Right of entry on permit area of departmental officer

22. It shall be lawful for the Minister, or anyone authorized by him, at all times, to enter upon the area held under permit and have access to all wells, records, plant, and equipment, and the permittee, his representative or operator, shall render the officer such assistance as may be necessary or essential, and such officer shall have the right to take samples, particulars, or carry out any tests or examinations desired.

23. Where the permittee has complied with these regulations he shall have, at any time prior to the expiration of his permit, the exclusive right to acquire leases under these regulations to an area not exceeding thirty-five per centum of the area originally held by the permittee under permit; provided, however, that the total area acquired under lease by any one person, in accordance with the provisions of this section, shall, at no time, exceed one hundred and twenty-eight thousand acres.

LEASES

24. The petroleum and natural gas rights which are the property of the Crown in the Northwest Territories and Yukon Territory and which are available may be leased to applicants at a rental of fifty cents an acre for the first year and one dollar an acre for the second and each succeeding year, payable yearly in advance.

Term of lease and renewal

25. The term of the lease shall be twenty-one years, renewable for successive periods of twenty-one years each, provided the lessee can furnish evidence satisfactory to the Minister to show that during the term of the lease he has complied fully with the conditions of such lease and with the provisions of the regulations in force from time to time during the currency of the lease.

Area

26. The maximum area of a petroleum and natural gas location shall be two thousand five hundred and sixty acres and the minimum area one thousand two hundred and eighty acres.

Application and fee

(2) A fee of five dollars shall accompany each application.

Description

28. (1) The application shall contain a description by metes and bounds of the location applied for and shall be accompanied by a plan showing the position of such location in its relation to some prominent topographical feature or other known point.

Plan

(2) The plan shall be drawn to an adequate scale and shall contain sufficient data to admit of the position of the location applied for being definitely shown in the records of the Department.

(3) The location must be rectangular in form, except where a boundary of a previously located tract is adopted as common to both locations, the length not to exceed four times the breadth.

(4) The application shall be accompanied by evidence, supported by affidavit of the locator, to show that the following requirements have been fully complied with:—

(*a*) that the location applied for has been defined on the ground by the applicant in person or his agent, by planting two legal posts firmly in the ground, one at each extremity of the location line, which shall be known as "Location Post No. 1" and "Location Post No. 2": the location line shall be in the astronomical cardinal directions and shall be a straight line, measured horizontally between the location posts; the distance between Post No. 1 and Post No. 2 shall not exceed twenty-one thousand one hundred and twenty feet, or four miles, but may be less;

(*b*) the inscriptions to be placed on these posts shall be and remain clearly and legibly marked by knife, marking iron or crayon, but not so as to become illegible or obliterated:

(*c*) on Location Post No. 1 on the side facing in the direction of Location Post No. 2 shall be marked, beginning near the top of the portion faced and extending downward, the following:—

(i) Oil Location;

(ii) No. 1;

(iii) the letter indicating the direction of Location Post No. 2—"N" for north or northerly, "S" for south or southerly, "W" for west or westerly, and "E" for east or easterly;

(iv) the number of feet lying to the right and the number of feet lying to the left of the location line—"R" for right and "L" for left;

(v) distance to Post No. 2;

(vi) the month and date of the month upon which the location was made;

(vii) the year;

(viii) the name of the person staking the location;

(*d*) on Location Post No. 2 shall be marked on the side of that post facing in the direction of Location Post No. 1, beginning near the upper end of the portion faced and extending downward, the following:—

(i) No. 2;

(ii) the month and date of the month upon which the location was made;

(iii) the year;

(iv) the name of the person staking the location;

(*e*) the locator standing at Location Post No. 1 and facing in the direction of Post No. 2 shall have the right and left of the location line on his right and left respectively;

(*f*) When the tract has been defined, the locator shall mark out immediately the line between Post No. 1 and Post No. 2, so that it can be distinctly seen in a timbered locality, by blazing trees and removing underbrush, and in a locality where there is neither timber nor underbrush he shall set posts or erect mounds of earth or rock in such a manner that the line may be distinctly seen. In a timbered locality an area of ten feet square shall be cleared around each post by cutting the underbrush so that the post shall be clearly discernible at a reasonable distance.

(*g*) all the particulars required to be inscribed on Posts No. 1 and No. 2 shall be set out in the application;

(*h*) when an extremity of a location line falls in water, in the bed of a stream, or in any other locality unfavourable to the erection of a location post, the locator shall set up a witness post on the location line at a suitable point as near as possible to such extremity, and the marking already prescribed in the regulations to be placed on the location post shall be preceded by the letters "WP" as an abbreviation of witness post, on one line, followed by a second line indicating the distance in feet and the direction of the point which it is intended to witness, using "N" for north or northerly, "S" for south or southerly, "W" for west or westerly, and "E" for east or easterly; witness posts so placed shall be legal posts and shall govern the positions of the points which they are intended to witness; (see Appendix B);

(*i*) where any person has located or acquired a location on the margin of a body of water, and has reason to believe that the petroleum bearing strata extend under water, he may extend his staking between the production of two opposite sides of the marginal location by means of witness posts placed in the manner prescribed in these regulations, to include not more than one additional adjoining submerged location; (see Appendix B);

(*j*) the location shall be staked along its greatest dimension, and the bearing of the location line shall be given in degrees and minutes;

(*k*) where a desired location is situated on an island containing, during periods of high water, not more than the minimum area of one thousand two hundred and eighty acres prescribed by section twenty-six of these regulations, its least dimension may be in any direction regardless of the general direction of the shore line; (see Appendix B);

(*l*) in case the tract applied for is located on the margin of a lake or river, its least dimension shall be in the general direction of the water frontage;

(*m*) the locator shall post a written or printed notice on a conspicuous part of the location applied for, stating that within thirty days from the date of staking he is applying for a lease of the petroleum and natural gas rights under the said location;

(*n*) priority of application shall be based upon the date and time of the staking of the location applied for.

Removing posts

29. No one, other than a Dominion Land Surveyor authorized by the Surveyor General of Canada to survey the location, can lawfully move the posts on a location for which an application for a lease has been recorded. The Surveyor General will direct the moving of posts on the line of location where the area staked exceeds in extent the area specified in the application or does not conform to the provisions of Section 28 (3) of these regulations.

Boundaries

30. The boundaries beneath the surface of a location shall be the vertical planes in which its surface boundaries lie.

Survey before lease issued

31. The application for a lease shall be recorded and the terms of the lease become effective from date of record, but the registration shall not be confirmed nor the lease issued until a survey of the location has been made at the expense of the applicant by a Dominion Land Surveyor upon the instructions of the Surveyor General of Canada and the returns of survey have been approved by the Surveyor General and registered by the Director. The survey must be made within one year from the date of application unless satisfactory reasons are furnished justifying the granting of an extension of time.

Rental first year

32. (1) The rental for the first year of the location applied for at the rate of fifty cents an acre shall be payable in advance and no application for a lease of petroleum and natural gas rights shall be accepted or recorded until the full amount of the rent for the first year at the above rate shall have been paid in cash or by established credit.

(2) The lease, when issued, shall be in such form as may be determined by the Minister and shall bear date from the day upon which the application is recorded.

Rental for subsequent years and penalty for failure to pay in advance

(3) If, during the term of the lease, the lessee shall fail to pay rental in advance for each subsequent year at the rate of one dollar an acre per annum within thirty days after the date upon which the same became due, the lease shall be subject to cancellation in the discretion of the Minister and to the immediate forfeiture of the rights which the lessee had in the said lease.

Installation of machinery and equipment

33. (1) The lessee shall, within one year from the date of the lease, have upon the lands described therein such machinery and equipment suitable for carrying on drilling operations as the Minister may consider necessary, and he shall within the same period furnish evidence, supported by affidavit, showing the character, quantity, and value of the machinery so installed, the date of its installation, and the particular parcel of land upon which it was installed.

(2) If the required machinery is not installed within the period specified, and if evidence of its installation is not furnished within the prescribed period, the lease shall be subject to cancellation in the discretion of the Minister upon two months' notice to this effect being given to the lessee.

Drilling operations to commence and continue

34. (1) The lessee shall commence drilling operations on his location within fifteen months of the date of his lease and he shall continue such drilling operations with reasonable diligence, to the satisfaction of the Minister, with a view to the discovery of petroleum or natural gas.

(2) If the lessee does not commence drilling operations within the time prescribed, or if having commenced such operations he does not prosecute the same with reasonable diligence to the satisfaction of the Minister, or if he ceases to carry on the same for a period of more than six months, the lease

shall be subject to cancellation in the discretion of the Minister, upon three months' notice to this effect being given to the lessee.

Consolidation or grouping

35. A lessee who has acquired more than one petroleum and natural gas lease may consolidate his operations and expenditure and install machinery and equipment on one or more of the locations described in the leases affected.

Maximum area of group

36. The maximum area of the locations which may be included in one consolidation or group shall not exceed thirty thousand seven hundred and twenty acres, nor shall the locations so included be separated one from the other by a greater distance than two miles.

37. Upon receipt of evidence that the lessee in respect of a location or group of locations consolidated under these regulations has incurred expenditures on or in connection with sub-surface geological or geophysical examinations or drilling operations or other necessary operations in connection with the completion of a well, such expenditures, exclusive of the purchase price of machinery and casing recovered but including an allowance for depreciation, shall be placed to the credit of the lessee and the credit so granted may be applied in satisfaction of the prescribed rental of the lease or leases comprising the location or group of locations in connection with which the expenditure was incurred; provided, however, that no portion of any such credit shall be applied in satisfaction of the rental of the leases comprising the location or group of locations in connection with which it was established after commercial exploitation of the geological unit on which the location or group is situated has commenced.

38. In the event of the lessee obtaining production of petroleum in commercial quantity on a location or authorized group of locations, he may be required by the Minister to drill such further well or wells thereon as the Minister, having regard to the proper conservation of said petroleum and its marketing in accordance with good operating and business practice, may in his discretion determine, and subject to the aforementioned considerations the lessee may be required to produce therefrom so long as the location or authorized group of locations shall continue to yield petroleum in commercial quantity.

Right of entry on location of departmental officer

39. It shall be lawful for the Minister, or anyone authorized by him, at all times, to enter upon the demised premises and have access to all wells, records, plant, and equipment, and the lessee, his representative or operator, shall render the officer such assistance as may be necessary or essential, and such officer shall have the right to take samples, particulars, or carry out any tests or examinations desired.

Permission to enter on leased lands

40. In case the surface rights of a petroleum and natural gas location are covered by a timber licence, grazing or coal mining lease, mining claim or other form of terminable grant, the lease shall not authorize entry thereon without the permission of the Minister being first had and obtained, and permission shall be given subject to such conditions for the protection of the rights of such lessee or licensee as it may be considered necessary to impose.

Arbitration for entry on patented lands

41. (1) In case the surface rights of a petroleum and natural gas location have been patented, or have been disposed of by the Crown under any Act or regulation which contemplates the earning of patent for such surface rights, and the lessee of the petroleum and natural gas rights cannot make an arrangement with the owner of such surface rights or with his agent, or the occupant thereof, for entry upon the location or for the acquisition of such interest in the surface rights as may be necessary for the efficient and economical operation of the rights acquired under his lease, he may, provided the mineral rights in the land affected with access thereto and the right to use and occupy such portion of the land as may be necessary for the effectual working of the minerals therein have been reserved to the Crown in the original grant of the surface rights, apply to the Minister for permission to submit the matter in dispute to arbitration.

(2) Upon receiving such permission in writing, it shall be lawful for the lessee to give notice to the owner, or his agent, or the occupant, to appoint an arbitrator within a period of sixty days from the date of such notice, to act with another arbitrator named by the lessee, in order to determine what portion of the surface rights the lessee may reasonably acquire:—

(*a*) for the efficient and economical operation of the rights and privileges granted him under his lease;

(*b*) the exact position thereof; and

(*c*) the amount of compensation to which the owner or occupant shall be entitled.

Notice of arbitration

42. (1) The notice mentioned in the preceding section shall be according to a form to be obtained upon application to the Mining Recorder for the district in which the land in question is situate, and shall, when practicable, be personally served on the owner of such land, or his agent, if known, or the occupant thereof, and after reasonable efforts have been made to effect personal service without success, then such notice shall be served by leaving it at or sending it by registered mail to the last known place of abode or address of the owner, agent or occupant, and by posting a copy of the same in the office of the Mining Recorder for the district in which the land in question is situate for a period of thirty days before the expiration of the time limited in such notice.

(2) If the owner, or his agent, or the occupant of the land refuses or declines to appoint an arbitrator, or when for any reason, no arbitrator is so appointed in the time limited therefor in the notice, the Mining Recorder for the district in which the land in question is situate shall forthwith on being satisfied by affidavit that such notice has come to the knowledge of such owner, agent or occupant, or that such owner, agent or occupant, wilfully evades the service of such notice, or cannot be found, and that reasonable efforts have been made to effect such service, and that the notice was left at the last place of abode or known address of such owner, agent or occupant, as above provided, appoint an arbitrator on his behalf.

Appointment of third arbitrator

43. In case the two arbitrators cannot agree upon the award to be made, they may, within a period of ten days from the date of the appointment of the second arbitrator, select a third arbitrator, and when such two arbitrators cannot agree upon a third arbitrator, the Mining Recorder for the district in which the land in question is situate shall forthwith select such third arbitrator.

Arbitrators to be duly sworn

44. All the arbitrators appointed under the authority of these regulations shall be sworn before a justice of the peace to the impartial discharge of the duties assigned to them, and after due consideration of the rights of the owner and the needs of the lessee they shall decide as to the particular portion of the surface rights which the latter may reasonably acquire for the efficient and economical operation of the rights and privileges granted him under his lease, the area thereof, and the amount of compensation therefor to which the owner or occupant shall be entitled.

Value; how determined

45. In making such valuation the arbitrators shall determine the value of the land irrespective of any enhancement thereof from the existence of minerals thereunder.

Award

46. (1) The award of any two such arbitrators made in writing shall be final, and shall be filed with the Mining Recorder for the district in which the land is situate, within twenty days from the date of the appointment of the last arbitrator.

(2) Upon the order of the Minister the award of the arbitrators shall immediately be carried into effect.

Compensation

47. The arbitrators shall be entitled to be paid a per diem allowance of ten dollars, together with their necessary travelling and living expenses, while engaged in the arbitration, and the cost of such arbitration shall be in the discretion of the arbitrators.

Relinquishment of whole or portion of location

48. The lessee may be permitted to relinquish at any time the whole or any portion of the location described in his lease, provided he has complied in every respect with the provisions of the regulations, and that all payments on account of rental or other liability to the Crown, due in connection with the lease, have been fully made, and provided the portion of the location which may be retained shall be of the prescribed shape, and shall not be of a less area than one thousand two hundred and eighty acres.

What lease conveys

49. (1) The lease shall in all cases include only the petroleum and natural gas, the property of the Crown, in the lands leased, but shall not include the oil shale rights to the land or to the oil which may be recovered from such shales by the process of extraction customary in such cases, and shall not include helium which shall remain the property of the Crown.

Surface lease

(2) The lessee may, upon application, be granted a yearly lease at a rental of one dollar an acre per annum, payable yearly in advance, of whatever area of the available surface rights of the tract described in his petroleum and natural gas lease the Minister may consider necessary for the efficient and economical working of the rights granted him.

Assignment

50. The lessee shall not assign, transfer, or sublet the rights described in his lease, or any part thereof, without the consent in writing of the Minister being first had and obtained.

Company registered or licensed in Canada

51. Any company acquiring by assignment, or otherwise, a lease under the provisions of these regulations, shall be a company registered or licensed in Canada.

Crown may assume control

52. (1) The Minister may at any time, by order in writing, cancel any lease or permit issued under these regulations and take, for the use of His Majesty, all or any part of the buildings, works, machinery, and plant upon the location in respect of which the lease or permit was issued, which property shall thereupon become and remain vested in His Majesty.

(2) When any such property is required for a limited time only or only a limited estate or interest therein is required, the Minister may in such order indicate that such property is taken for such limited time only or that only such limited estate or interest therein is taken and thereupon the right of possession for such limited time or such limited estate or interest shall become and be vested in His Majesty.

(3) The holder of the lease or permit shall be entitled to be paid compensation for any loss or damage sustained by him by reason of the exercise of the powers conferred on the Minister by this section and if such compensation has not been agreed upon the claim shall be referred by the Minister to the Exchequer Court of Canada.

(4) The amount of the compensation shall be determined by the Exchequer Court as in the case of land or property acquired or taken under the Expropriation Act.

(5) Upon the making of any such order the Minister may assume immediate possession and control of the location together with such property thereon as may have been taken and may cause the same to be operated, and the produce thereof shall be disposed of as the Governor in Council may direct.

Annual return

53. (1) At the end of each year or the term of the lease the lessee shall furnish to the Director a statement, supported by affidavit, showing the number of days during the year that operations were carried on upon the location; the number of men so employed; the character of the work done; the number of holes completed or being drilled and the depth of each; the total expenditure incurred; a detailed statement setting out fully the purpose for which such expenditure was incurred; the quantity of petroleum or natural gas obtained, and the amount realized from the sale thereof.

(2) Failure to furnish such yearly return after sixty days from the end of the year will render the lessee subject to a fine of ten dollars a day for each day's delay in furnishing the sworn statement, and after three months' delay the lease shall be subject to cancellation upon three months' notice in writing to this effect being given to the lessee.

Rights formerly comprised in cancelled lease

54. When a petroleum and natural gas lease issued under the provisions of these regulations is cancelled in the records of the Department, the rights described in such lease shall not become available for application under the regulations until notice has been duly posted for a period of thirty days in the office of the Mining Recorder for the district in which the land is situate.

Royalty

55. (1) The products obtained from any location acquired under these regulations, not including natural gas and natural gasoline, shall be subject to the payment to the Crown of the royalty hereinafter mentioned. For the first five years from the date that commercial exploitation of the geological unit on which the location is situate has commenced, the rate shall be seven and one-half per centum of the products produced and saved from such unit; for the second five years the rate shall be ten per centum; and thereafter the rate shall be twelve and one-half per centum; subject to the provision that where it is satisfactorily proven that the cost of producing the products from the area covered by any lease or group of leases, including the amount paid in royalties, is such that the commercial exploitation thereof does not permit a reasonable profit on the capital invested therein, the Governor in Council may reduce the rate of royalty and likewise may increase it to the original level when reasons for making the reduction no longer exist. The Minister shall have the right to take currently the aforesaid royalty either in kind or in cash, payable monthly on the twenty-fifth day of the month next following the calendar month of production, equivalent to the value of the Crown's royalty proportion of the said products, at the prevailing prices at the well-head; provided that at the election of the Minister, the aforesaid royalty shall be payable partly in kind and partly in cash.

(2) Natural gas and natural gasoline, whether recovered on the location or elsewhere, and not used by the lessee in the course of the working of his operations, shall be subject to the payment of such royalty as may be fixed by the Governor in Council.

(3) Where the Minister so declares, subsection one of this section shall apply to any well which is producing petroleum for local consumption notwithstanding that commercial exploitation has not commenced.

(4) Any products of a location or group of locations used by a lessee in the course of the working of his operations thereon shall not be subject to the payment of royalty.

56. Royalty paid by a lessee as provided in section fifty-five shall be credited on account of the rental each year in excess of fifty cents an acre on a location or group of locations situated on a geological unit standing recorded in the name of such lessee.

Notice of intention to begin drilling operations

57. (1) Before beginning drilling operations the lessee shall notify the Supervisory Engineer in writing of his intention to begin such operations and shall state:

(*a*) the particular point on the location at which operations are to be conducted;

(*b*) the number or other designation by which the well shall be known, which number or designation shall not be changed without the consent of the Supervisory Engineer;

(*c*) the size and weight of casing to be used;

(*d*) the kind of drilling rig to be employed; and

(*e*) the name and post office address of the person in charge of such operations.

(2) The lessee shall not begin drilling operations until he has received in writing the approval of the Supervisory Engineer of the proposals submitted under this section; provided that in any particular case such approval may first be given orally.

(3) No change in the program outlined in the Notice of Intention shall be made without submitting notice of the change of plans to the Supervisory Engineer and receiving approval of such change; provided, always, that in cases of emergency in which an immediate departure from or variation in the program is necessary, such departure or variation shall be made to the extent that such is necessary, and in any such case the lessee shall immediately advise the Supervisory Engineer in writing.

Where wells may be drilled

58. No well for the discovery of petroleum or natural gas other than a directional well shall be drilled within three hundred and thirty feet of any of the outer boundaries of the location or locations in a group nor within three hundred and thirty feet of any road allowance, surveyed road, or other right of way, dwelling, school or church, except in accordance with regulations prescribed by the Minister.

Limitation of number of wells and defining distance apart

59. The Minister may in his discretion, having due regard to good operating practice, limit the number and define the distance apart of wells on any geological unit.

Marking of equipment

60. The lessee shall mark all his rigs, wells, and tanks with conspicuous numbering and designations and shall maintain such markings unchanged.

Daily reports

61. (1) The lessee shall maintain on forms approved by the Director a daily report of drilling operations and such report shall be made in duplicate, one copy being at all times retained at the well and open to inspection by the Supervisory Engineer.

(2) The original report shall be countersigned by the lessee or his agent and forwarded to the Supervisory Engineer at the end of each and every week during the course of operations.

Samples

62. (1) The lessee shall cause to be preserved and maintained a series of samples of the formations penetrated by the drill in each drilling operation, such samples to be taken from successive depths of ten feet or at such intervals as may be directed by the Supervisory Engineer and such samples shall be washed, dried, accurately labelled, and forwarded in accordance with instructions issued by the Director.

Cores

(2) The lessee shall keep and preserve representative specimens of all cores recovered in properly constructed and marked core boxes and such cores shall be available for inspection and examination by the Supervisory Engineer.

63. The lessee shall, when a well being drilled is approaching a formation from which production of petroleum or natural gas may be expected, if required to do so by the Supervisory Engineer, core and adequately test such formation.

Notification of discovery

64. When during operations on a location acquired under these regulations petroleum or natural gas or both be discovered, the lessee shall immediately notify the Supervisory Engineer of the same by the most reasonably expeditious method.

Control of petroleum and natural gas

65. (1) The lessee shall make adequate provision to the satisfaction of the Supervisory Engineer for

the control and conservation of petroleum and natural gas at every well and he shall maintain the equipment provided for such purpose in proper condition.

(2) If at any time in the opinion of the Supervisory Engineer such equipment is inadequate, he may prescribe remedial measures which shall be instituted and completed before any further drilling or production is undertaken.

66. Whenever a stratum penetrated in a well is capable of producing natural gas in commercial quantity or is known to be likely to yield it in such quantity, the lessee shall confine such natural gas to its original stratum until such time when such gas can be produced and utilized without waste.

Sampling water

67. When during drilling or producing operations water makes its appearance in a well or any indication appears that may reasonably be taken as evidence of change in the source or other condition of water already notified as having appeared in the well, the lessee shall immediately notify the Supervisory Engineer and, if the drilling system permits, shall take a sample of not less than one gallon of such water to be placed at the disposal of the Supervisory Engineer for analysis and shall afford him such facilities as may be necessary for sampling the water in or at the well.

Control of water

68. The lessee of a location upon which a well has been or is being drilled shall use every means and endeavour in accordance with the most approved practice to shut-off water above or below the petroleum or natural gas-bearing stratum or strata, to test the efficacy of such shut-off and to prevent water from entering such petroleum or natural gas-bearing strata.

Closing a well

69. (1) The lessee shall at all times take reasonable measures to the satisfaction of the Supervisory Engineer to prevent the injurious access of water to the petroleum-bearing formation.

(2) Upon a well proving to be unproductive, or ceasing to yield petroleum in commercial quantity, or being abandoned for any cause, the lessee shall be at liberty to withdraw the casing from the said well, but in order to prevent water gaining access to the petroleum-bearing formation, the lessee shall immediately close the well by filling it with cement, clay or other approved material which may have the effect of preventing water from gaining access thereto.

Test of water shut-off

70. (1) When a test of the water shut-off is intended to be made by the operator in any well, the lessee shall notify the Supervisory Engineer of the time that such test is to be made.

(2) The Supervisory Engineer shall be present at such test unless such representation is waived by the Director.

(3) Should the test of water shut-off prove to be unsatisfactory, the Supervisory Engineer may direct that further tests be made and may direct that such remedial measures be instituted as may be deemed necessary effectually to exclude water from the well, and any additional tests required or remedial measures shall be made or instituted without unreasonable delay.

Notice of test

71. (1) When it appears to the Supervisory Engineer that water is entering any petroleum or natural gas-bearing stratum penetrated by a well drilled on a location acquired under these regulations or that water in such well is likely to become injurious to the economic production of petroleum and natural gas from the geological unit upon which such well is drilled, he may order a test of water shut-off and designate a day upon which the same shall be made.

(2) Such order shall be in writing and shall be served upon the lessee or his agent at least fifteen days prior to the day designated in the said order upon which the test of the said shut-off shall be made.

(3) Upon receipt of such order the lessee or his agent shall make the said tests in the manner and at the time specified.

Access of salt water

72. The lessee shall take all reasonable care and carry out such measures as may be satisfactory to the Supervisory Engineer to prevent the access of salt water to any river or stream.

Deviation of well from vertical

73. The lessee, when directed by the Supervisory Engineer, shall make, or cause to be made, tests at intervals not exceeding five hundred feet from the top to the bottom of the well or such lesser intervals as the Supervisory Engineer may require for the purpose of ascertaining to what extent, if any, the well deviates from the vertical and shall submit a report of the same with the daily drilling reports at the end of each week.

Electrolog

74. (1) The Supervisory Engineer may require the lessee to take or cause to be taken an electrolog of any well.

(2) The lessee shall see that the electrical resistivity, weight, and viscosity of the mud are recorded on the electrolog.

(3) A copy of all electrologs, whether taken at the direction of the Supervisory Engineer or not, shall be supplied to the Director.

Notice to be given of shooting of well

75. (1) The lessee shall not allow a well to be shot, perforated, or re-treated with acid until the Supervisory Engineer has been notified in writing of such intended action and his consent obtained.

(2) The lessee shall submit to the Supervisory Engineer a report on every well shot, perforated, or treated with acid, on a form obtainable from the Department.

(3) In case any injury is done to the well by shooting, perforation, or treatment with acid, it shall be repaired immediately to the satisfaction of the Supervisory Engineer.

Completion of well

76. When completing the drilling of any well, the lessee shall adopt such methods and use such equipment as the Supervisory Engineer may from time to time prescribe or approve.

Taking of tests by Supervisory Engineer

77. (1) The surface and subsurface equipment of every petroleum and natural gas well shall be so arranged as to allow the Supervisory Engineer to take the closed-in pressure, the bottom-hole pressure, the working pressure, or make any test required at any time, and the lessee shall assist him at any time to carry out tests so required.

Subsurface equipment and surface equipment

(2) The subsurface equipment shall include a pin-collar or its equivalent appended to the lower end of the production string or tubing as a safeguard against loss of testing equipment.

(3) The surface equipment shall include such valve connections as are necessary to sample the oil, gas or water produced.

(4) For sampling the gas there shall be a half-inch sampling valve.

Suspension of operation

78. The lessee shall notify the Supervisory Engineer in writing immediately drilling or production operations are suspended at any well and before suspension he shall so arrange the well head that no waste of gas or petroleum can occur and that no opportunity be afforded for the access of water to or between the casings of the well.

Resumption of operations

79. The lessee shall not deepen nor undertake the repair or the making of other permanent change to the condition of a well in which drilling has been suspended for a period of more than six months, or which has been in production, without previously notifying the Supervisory Engineer in writing to that effect.

Abandonment of well

80. Before abandoning a well drilled on a location acquired under these regulations and before removing any part of the casing from such well, the lessee shall notify the Supervisory Engineer in writing of his intention so to do on forms obtainable from the Director, and shall furnish a log of the well if he has not already done so and shall obtain written approval of such abandonment and removal of casing from the Supervisory Engineer; provided that in any particular case such approval may first be given orally.

Logs to be kept

81. (1) The lessee shall keep and maintain to the satisfaction of the Supervisory Engineer a careful and accurate log of each and every well drilled, such log to show the character, depth, and thickness of each formation passed through or penetrated, and particularly to show the depth, thickness, and, where tests are made, the porosity, permeability, and saturation of each stratum containing petroleum, natural gas, or water, the pressure, yield, and chemical characteristics of each significant occurrence of petroleum, natural gas, and water, together with full details of electrologs, deviation from the vertical, casing, cementation, treatments with acid, perforations, plugs, and all other information pertinent to the condition of the well and its productive capacity.

(2) Such log shall be kept in the field office of the lessee and shall be at all times open to the inspection of the Supervisory Engineer.

(3) Upon the completion of any well or upon the suspension of operations upon any well for a period of ninety days, a copy of the said log, in duplicate, and in such form as the Supervisory Engineer shall direct, shall be filed within thirty days after such completion, or after the expiration of the ninety-day period, with the Director, and a like copy shall be filed upon the completion of any additional work in the deepening or repairing of any such well.

Plans to be furnished annually

82. The lessee shall furnish the Director at least once each twelve-month period a plan in duplicate showing the position of all wells, test holes, pipelines, tanks, buildings, or other structures on the location and such plan shall be prepared on a scale of not less than one thousand three hundred and twenty feet to the inch.

Monthly report of petroleum and natural gas produced

83. In the event of petroleum and natural gas being produced from any well or wells, the lessee shall mail to the Director not later than the twenty-fifth day of each month, a full report of the petroleum and natural gas produced during the preceding month and of its disposal, such report to show:

(*a*) the quantity of petroleum and natural gas produced from each well during the preceding month;

(*b*) the specific gravity of such petroleum;

(*c*) the number of days during which petroleum or natural gas was produced from each well;

(*d*) the amount of petroleum or natural gas delivered from and used on the location; and

(*e*) the amount of petroleum in storage on the location at the end of the month.

Restriction of flow of natural gas

84. The production of natural gas from any well shall be restricted to the market demand and in no event shall the production exceed twenty-five per centum of the open flow of the well, provided that the Minister may, in his discretion, allow such additional volume to be used as he deems expedient.

Waste of petroleum and natural gas

85. (1) The lessee shall take all reasonable and proper precautions to the satisfaction of the Minister to prevent waste of petroleum and natural gas and his operations shall at all times be so conducted as to enable him to prevent the escape of petroleum and natural gas.

(2) Waste shall be deemed to occur inter alia when in the opinion of the Minister

(*a*) petroleum or natural gas is rendered unavailable for use in accordance with the best and most economic operating practice by reason of the employment of extravagant or inefficient means of production, storage or transport;

(*b*) the ultimate recovery of the petroleum or natural gas from any geological unit is curtailed or otherwise prejudiced by reason of the failure of the lessee or lessees to comply with these regulations and such additional regulations as the Minister may from time to time make in accordance with section ninety-five;

(*c*) petroleum or natural gas or both are produced in excess of the allowable production as may be defined by the Minister in accordance with section eighty-seven;

(*d*) natural gas is produced from any well classified by the Minister as a producer of petroleum in excess of the amount needed to produce such petroleum in accordance with good operating practice or of the amount the Minister may designate;

(*e*) the amount of water produced from any well or wells unduly lowers the pressure in the productive horizon or horizons or otherwise disturbs the uniform withdrawal from the geological unit, or

(*f*) the excess of water produced over an amount that may be determined by the Minister is not returned as directed to the productive horizon.

Delimitation of geological unit

86. (1) The Minister may in his discretion delimit an area upon which petroleum or natural gas has been proved to occur as a geological unit and may require that drilling and production on all locations comprised therein shall proceed according to a common plan having for its purpose the more efficient and economic production of petroleum and natural gas.

(2) If the lessees fail to agree within six months of such delimitation upon a plan satisfactory to the Minister, he may appoint an officer of the Department to draw up a plan and all lessees shall operate the wells upon their locations as such officer directs for such period as the Minister may decide.

87. The Minister may prescribe regulations for the determination of the allowable production of any well or wells and regulate the taking of petroleum or natural gas from any source of supply so as to prevent waste and to ensure conservation of these natural resources in accordance with the best practice.

Minister may assume control of well

88. (1) The Minister may assume control of the operation of a well and adopt such means as may appear to him to be necessary or expedient to prevent the escape of petroleum or natural gas if the lessee or his agent fail to do so or appear unable to do so.

(2) The Minister may assume control of the operation of a well and adopt such means as may appear to him to be necessary or expedient to prevent the access of water to the well, the access of water to petroleum or natural gas-bearing strata or both, or the escape of water from the well if the lessee or his agent fail to do so or appear unable to do so.

(3) Such officer or officers of the Department as the Minister may designate may enter upon the premises of any location acquired under these regulations and perform the work defined under subsections one and two of this section and for that purpose may take possession of and use any drilling rig, derrick, tools, machinery, other appliances or equipment, fuel, water, and other materials, necessary for the performance of the work which may be upon the location or which may be the property of the lessee.

(4) The Minister may recover from the lessee of the location upon which he takes control of a well for the reasons outlined in subsections one and two of this section all costs and expenses incurred by the said officer or officers in the performance of the operations so undertaken.

Safety precautions to be taken

89. (1) No inflammable product or waste product of any kind from any petroleum or natural gas well shall be permitted to flow into any lake, stream, or other body of water, or upon any highway or public road, and all waste of petroleum and refuse from tanks or wells must be drained into adequate receptacles at a safe distance from tanks, wells, or buildings to be immediately burned or transported from the premises, and in no case shall it be permitted to flow over the land.

(2) The lessee shall cause to be cleared of combustible material such area around any well or other works constructed or operated by him as may be required by the Supervisory Engineer and where necessary and practicable the lessee shall construct and maintain a ploughed fire-guard around such area.

Disposal of earth, rock or waste

90. The lessee shall at all times during the term of his lease make such provisions to the satisfaction of the Supervisory Engineer for the disposal of the earth, rock, waste or refuse of the location that the same shall not be an inconvenience, nuisance, or obstruction to any roadway, pass, passage, river, creek or place or to any private, public or Crown lands, or conflict or embarrass the operating of any mines on the said lands, or in any manner whatsoever occasion any private or public damage, nuisance, or inconvenience.

Enclosure of openings or excavations

91. The lessee shall enclose and keep enclosed all abandoned openings or excavations made in connection with or for the purpose of prospecting for and producing petroleum and natural gas or other operations on the location with fences or walls sufficient to prevent any person or animal falling thereinto, such fences or walls to be of a height and character satisfactory to the Supervisory Engineer.

Charges for products for use in N.W.T. and Yukon

92. (1) The lessee shall from time to time on the instruction of the Minister submit a schedule of rates and prices which the lessee is charging for petroleum products obtained from the location for use in the Northwest Territories or Yukon Territory for approval or adjustment in so far as said rates and prices are not fair and reasonable, and shall thereafter before putting into effect any new schedule of rates and prices submit the same for approval or adjustment and no such rates or prices shall thereafter be legal or enforceable until so submitted and approved.

(2) The Minister may require the submission or resubmission at any time of existing schedules of rates and prices for adjustment and approval.

Cancellation of lease for failure to comply with regulations

93. In case of the failure or neglect on the part of the lessee to comply fully with these regulations, the Minister may give written notice to the lessee specifying the breaches complained of, and unless the default specified in the said notice be remedied within ninety days the lease shall be subject to cancellation.

Lessee and Permittee

94. Where the term lessee is used in these regulations in relation to operations conducted thereunder, it shall include permittee.

Additional regulations

95. The Minister may from time to time make such additional regulations as may appear to be necessary or expedient governing the manner in which drilling operations shall be conducted and the manner in which wells shall be operated, also such orders as he may deem necessary for the interpretation and effective administration of these regulations.

Pipelines

96. Where no adequate existing facilities are available a lessee shall have the right to build, maintain, and operate a pipeline and connecting feeder lines and for the purposes thereof shall be entitled to free right of way over Crown lands and the use of public roads. The pipeline shall be operated as a common carrier under such regulations as the Governor in Council may impose.

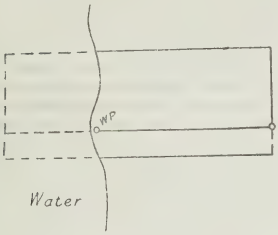
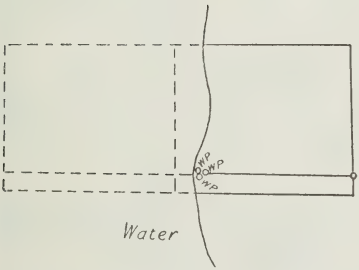
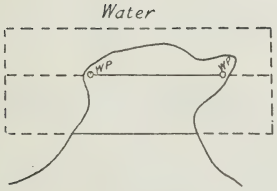
Explanatory Examples



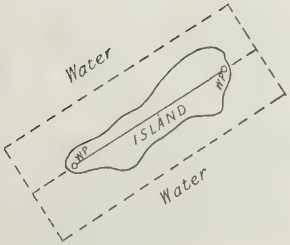
A witness post for an inaccessible extremity of a location line is placed at a suitable point as near as possible to the point which it is intended to witness.



Witness posts for both extremities of a location line for a totally submerged location are placed alongside and on the water side of the witness post for the adjoining marginal location.



Witness posts for inaccessible extremities of a location line for a marginal location are placed at suitable points as near as possible to the respective points to be witnessed.



When the location is situated on an island containing during periods of high water not more than the prescribed minimum area of 1280 acres, its least dimension may be in any direction regardless of the general direction of the shore line.

CERTIFIED to be a true copy of a Minute of a Meeting of the Treasury Board, approved by His Excellency the Governor General in Council, on the 23rd October, 1947.

THE Board recommend that Sections 67 (*b*), 67 (*d*), 69 and 69 (*a*) of the Civil Service Regulations be amended to read as follows:

"67(*b*) Sick leave may be granted only on the production of satisfactory evidence of the inability of the employee to perform his duties, in the form of a written declaration from the employee in cases where the absence has not exceeded three days and a certificate from a qualified medical practitioner where the absence has exceeded three days, such certificate to be submitted within seven days of beginning of absence. Provided that, if in exceptional cases it may be considered advisable to take administrative action on evidence in a form other than the certificate of a duly qualified medical practitioner the matter shall be referred, with full particulars, by the Department concerned to the Department of National Health and Welfare, for consideration and advice. It shall be competent for any deputy minister to reduce the number of days' absence for which a medical certificate will be required if it appears to him to be in the best interests of his department to do so."

For this purpose special leave credit may accumulate at the rate of one-half day for each completed month of continuous service up to a maximum of thirty days, deduction therefrom being made for any period of special paid leave. When the leave credit is thus reduced, it may again commence to accumulate until the maximum of thirty days is reached, but no employee shall at any time have more than thirty days' leave to his credit. Special leave with pay shall be granted only on the production of a written application from the employee, setting forth in detail the reasons why he considers that paid leave should be allowed and supported by such evidence as the deputy head may require; provided that in all cases of illness in family in excess of one day, a medical certificate shall be furnished."

"Causes for which special leave may be allowed shall be designated by the Commission and communicated to the departments"

"69 (*a*) Casual absences (which are defined as absences of three days' duration or less and which are covered by the employee's declaration only) shall not be allowed with pay in excess of eight days in any fiscal year on account of the illness of an employee or on account of illness in family. If the eight day limit is exceeded, a medical certificate shall be furnished, otherwise, no further pay will be allowed for such absences unless, on the employee's written request, they are charged to annual leave, provided that, if in exceptional cases it may be considered advisable to take administrative action on evidence in a form other than the certificate of a duly qualified medical practitioner the matter shall be referred, with full particulars, by the Department concerned to the Department of National Health and Welfare, for consideration and advice."

PRESENT:

HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL

HIS Excellency the Governor General in Council, on the recommendation of the Minister of Mines and Resources and pursuant to the powers conferred by the Dominion Lands Act, Chapter 113, Revised Statutes of Canada, 1927, and otherwise, is pleased to order as follows:

1. 8. 9. The removal of the sand, stone or gravel authorized by the permit shall be under the direct supervision of an officer to be named by the Minister and to his entire satisfaction.

10. The permit shall be subject to immediate cancellation at any time without compensation to the permittee, for a breach of any of the above conditions, or in case it should be shown to the satisfaction of the Minister that the removal of the sand, stone or gravel covered by the permit is likely to cause damage or obstruction, or to otherwise prejudicially affect the interests of the Crown or others.

11. The permittee shall keep the Crown indemnified against all actions, claims and demands that may be lawfully brought by reason of anything done by the permittee in the exercise or purported exercise of the rights and liberties granted under the permit.

12. A fee of one dollar ($1.00) shall be charged for each permit, together with dues at the rate of one cent (1c) per cubic yard for the quantity of material in excess of one thousand (1,000) cubic yards included in any one permit.

13. The permit to be issued under these Regulations shall be on such form as may be approved by the Minister. 45-4

Computations and Payments

4. (1) Except as otherwise provided an annual pension under these rules shall (subject to rule 2 (4)) be one-fiftieth of the average salary received by the contributor during the last ten years of his service multiplied by the aggregate of:

(*a*) the number of years of his service during which he was a contributor, and

(*b*) any period of service that may be counted under these rules without contribution, and

(*c*) any period of service in respect of which contributions were made by or on his behalf under these rules or under the provisions of section 15 (4) (ii) of the Bank of Canada Act

not, however, exceeding thirty-five years.

(2) An adjusted annual pension and a deferred adjusted annual pension granted under these rules shall be computed as provided for in paragraph (1) of this rule except that where the service of the contributor is less than ten years the average salary shall be the average annual salary received by him during his service. From the pension thus computed there shall be a deduction of one per centum of such pension for each whole year by which the number of years of service is less than twenty years.

(3) A deferred adjusted annual pension granted under paragraphs (3) or (4) of rule 3, shall become payable to the person to whom it is granted when he attains the age of sixty years, or when the person to whom it is granted becomes totally and permanently disabled so that he is thereby rendered incapable of pursuing continuously any substantially gainful occupation, whichever is earlier.

(4) If a contributor has, prior to becoming a contributor, served in the Bank or the Civil Service, or in any board, commission or corporation which is or was an agent or servant of His Majesty in right of Canada and which is designated by the Board, he may elect within six months after November 1, 1947, or three months after becoming a contributor, whichever is the later, to make contributions for the whole or any part of such service prior to becoming a contributor to the Pension Fund or the Civil Service Superannuation Fund for which he did not so contribute.

(5) The contribution required under the preceding paragraph in respect of the whole of the service of a contributor prior to the time he became a contributor to the Civil Service Superannuation Fund or Pension Fund for which he has not contributed, shall be an amount equal to that which he would have contributed had he during the said service made contributions at the relevant rates set forth in rule 2 (2), together with simple interest at the rate of four per centum per annum up to the time of his election. The contribution required in respect of any part of the said service shall be that proportion of the said amount which the said part is of the whole of the said service.

(6) In the case of a person who becomes a contributor, not being a person who at the date of his appointment was employed by the Civil Service, and who upon appointment to the staff of the Bank surrendered or forfeited prospective pension rights or benefits, such addition may be made to his period of service for the purposes of these rules as the Board may in the circumstances deem fair and reasonable, not, however, exceeding ten years.

(7) The period during which a contributor was absent on leave from the service of the Bank in active or full time service in the forces during World War II may be counted as service for the purposes of these rules, or the period of thirty-five years specified for the making of contributions, although he has not made any contribution in respect thereof, and for the purposes of these rules his salary during such period shall be deemed to have been the salary authorized as payable to him from time to time during the said period. In this paragraph "forces" means any of His Majesty's Naval, Military or Air Forces, the Armed Forces of the United States of America, and any other Forces designated by the Board.

(8) Where a person who enlisted in the force for service during World War II served on active service overseas in the forces, and was immediately prior to enlistment an employee of the Bank or in the Civil Service or in any board, commission or corporation designated by the Board under paragraph (4) of this rule, his service on active service overseas in the forces during World War II shall be deemed to be service in the Bank for the purposes of the Pension Fund if he elects to contribute in respect thereof. The contribution he shall be required to make shall be the amount he would have contributed had he during the said service contributed at the relevant rates under rule 2 (2), together with simple interest at four per centum per annum to the date of his election, and his salary during the said period shall be deemed to have been paid at the rate payable to him immediately prior to enlistment. Any election under this paragraph shall be made within six months after November 1, 1947, or three months after becoming a contributor, whichever is the later.

(9) Where a person who served on active service overseas in the forces during World War I or World War II, and was not immediately prior to enlistment an employee of the Bank, any part of his active service overseas in the forces which is not included in his service under these rules or in any service in consideration of which a grant of service has been made to him for the computation of any pension or benefit under these rules or under the Civil Service Superannuation Act, or for the computation of any annuity, pension or superannuation allowance payable to him under the pension fund or plan of a previous employer, shall be deemed for the purposes of the Pension Fund to be service in the Bank if he elects to contribute in respect thereof. The contribution he shall be required to make, if he elects to contribute for the whole or any part of such period or periods under these rules, shall be the amount he would have contributed had he during the said service contributed at twice the relevant rates under rule 2(2), together with simple interest at four per centum per annum to the date of his election and he shall be deemed to have been in

receipt of a salary at a rate during the period of his active service overseas in the forces, equal to the rate of salary payable to him immediately after his appointment to the Bank. Any election under this paragraph shall be made within six months after November 1, 1947, or three months after becoming a contributor, whichever is the later.

(10) In computing the pension to be granted to a contributor who waives a right or benefit in the Civil Service Superannuation Fund under the provisions of section 15(4) (ii) of the Bank of Canada Act, and if such right or benefit had been governed by section 16 or 21 of the Civil Service Superannuation Act, the average salary shall be based upon the salary received by the contributor during the last five years of his service.

(11) Notwithstanding anything contained in these rules, no period shall be counted more than once, and no period in respect of which contributions have not been made shall be counted except as provided in this rule or in section 15(4) (ii) of the Bank of Canada Act, for the purpose of computing any pension or gratuity under these rules.

5. The annual pensions and adjusted annual pensions provided for in these rules shall, unless otherwise provided by regulations made in pursuance of the provisions of these rules, be payable in equal monthly instalments and, unless otherwise herein specified, shall continue during the lifetime of the recipient; provided that the Board may, by regulation, authorize the payment of a pension to the last day of the month in which the recipient dies.

6. If the average salary for the period fixed by these rules for the purpose of computing pension or adjusted pension of a contributor is less than the average salary for any like period during the said contributor's service, the contributor, or his widow or children under the age of eighteen years, as the case may be, may be granted, in addition to a pension or adjusted pension under these rules, a gratuity not exceeding the amount of the contributions made in respect of the excess of his salary during any like period over his salary for the period so fixed; provided that the Board may determine the basis of such gratuity and when a contributor has died without receiving such gratuity, the person or persons amongst the surviving widow and children, or children only, of such contributor to whom it shall be paid, and if to more than one of them, the manner in which it shall be apportioned.

7. Except as provided in paragraph 7 of rule 4, no period of absence of a contributor from duty without pay after March 11, 1935, shall be counted as service for the purpose of computing the length of the contributor's service on which any pension, adjusted pension, deferred adjusted pension or gratuity shall be based unless the contributor contributes during such period of absence, the contributions to be due and payable not later than the last day of each month during the said period, the contributions which he would have contributed under these rules if the salary authorized as payable to him from time to time during the said period had been paid to him, and if he so contributes he shall be deemed for the purposes of these rules to have received the said salary during the said period.

Retirement

8. Retirement from the service of the Bank shall be compulsory on every contributor to whom the pension is offered, but such offer shall not be considered as implying any censure on the person to whom it is made, nor shall any person be considered as having a right to such a pension, but it shall be granted only in consideration of good and faithful service during the period in respect of which it is calculated.

9. No contributor shall be retained in the service of the Bank beyond the age of sixty-five years; provided that if on account of his peculiar efficiency and fitness for his position the continuance in office of such contributor beyond the said age is in the interests of the Bank, the Board may extend annually the service of such contributor beyond the said age for a period not exceeding five years.

10. The provisions of rules 8 and 9 of this By-law shall not have effect to bring about the retirement of a Governor, Deputy Governor or Assistant Deputy Governor inconsistently with the provisions of the Bank of Canada Act.

Limitations and Discontinuance

11. No pension, adjusted pension, deferred adjusted pension or gratuity shall be granted unless the recipient is eligible within the meaning of these rules.

12. No pension shall be granted to the widow or any child of the contributor

(*a*) if the person to whom it is proposed to grant the pension is, in the opinion of the Board, unworthy of it; or

(*b*) if the contributor marries after a pension or adjusted pension becomes payable; or

(*c*) if the said contributor dies within one year after his marriage, unless the Board is satisfied that he was in good health at the time of his marriage and that there are no other objections to the granting of the pension;

provided, however, that a breach by the said contributor of the conditions as to marriage prescribed by this rule shall not prejudice the right to a pension of a child by an earlier marriage of the said contributor.

13. If the contributor marries after July 19, 1924, and if his age exceeds that of his wife by twenty years or upwards, the pension to such wife shall be reduced by such an amount as the Board may by regulation prescribe.

14. (1) If there be any assignment or attempted assignment of a pension, or if by process of law or in any other way a pension would at any time become payable but for this provision to any person other than the person who has been granted a pension under these rules, the pension shall cease and the person to whom it was granted shall not receive any further payment or have any claim upon or for amounts contributed by him.

(2) If any contributor or widow or child who is receiving a pension under these rules is convicted of any criminal offence, or is guilty of any grave misconduct proved to the satisfaction of the Board, the Board may direct that payment of the pension be discontinued and thereafter the person to whom it was granted shall not receive any further payment or have any claim upon or for amounts contributed by him.

(3) If, in the opinion of the Board, any contributor who is receiving a pension has deserted his wife or children and left her or them without means of support, or if he is incapable of managing his own affairs, the Board may direct that payment of the pension be discontinued and thereafter the person to whom it was granted shall not receive any further payment or have any claim upon or for amounts contributed by him, and if a gratuity is payable to him the Board may direct that it or any part thereof be paid to such person or persons as it deems advisable.

(4) In the cases mentioned in paragraphs (1), (2) and (3) of this rule the Board shall have power to pay the pensions which the said pensioners would otherwise have received, to any others whom it considers proper persons to receive same, subject to such conditions as it may deem expedient, or to restore the previous pensioner to his or her former position as a pensioner if it shall think proper.

(5) For the purposes of this rule "pension" shall include adjusted pension and deferred adjusted pension.

Special Cases

15. In the case of a contributor who is in receipt of a salary in excess of fifteen thousand dollars per annum, no contribution shall be made to the Pension Fund from that portion of the salary which is in excess of fifteen thousand dollars per annum and the said excess shall be excluded from any computation which is made for the purpose of establishing a payment or benefit.

16. In the case of a contributor who has been granted leave of absence with pay, pending his retirement from the service of the Bank, the Board may fix such salary for the contributor for the purposes of these rules as it deems fit without regard to the amount of salary paid to such contributor.

17. (1) A contribution for prior service made under these rules may be made in one sum or by instalments of equivalent value payable, by reservation from salary or otherwise, for life, or for a period of years or for life whichever is the shorter, the said instalments to be computed on such bases as to morality and interest as the Board may by regulation prescribe.

(2) Where a contributor who is contributing by instalments in respect of prior service under these rules retires before payment of the said instalments in full, he shall be deemed to have contributed in respect of the said service for which he elected to contribute and the remaining instalments shall be reserved out of any pension, or the equivalent present value thereof shall be deducted from any gratuity granted under these rules on his retirement.

18. (1) If the service of a Governor, Deputy Governor or Assistant Deputy Governor is not less than five years and if his service is terminated for any reason other than death, and if he has in addition to the contributions required by rule 2 and subject to the limitation of rule 14, made the special contributions required by paragraph 3 of this rule from September 12, 1938, or if subsequently appointed as a Governor, Deputy Governor or Assistant Deputy Governor, then from the date of such appointment, he shall receive an annual pension.

(2) Except that where the service is less than ten years when the average salary for the computation of a pension shall be the average annual salary during the lesser period, an annual pension under this rule shall be computed and paid in accordance with the provisions for the computation and payment of annual pensions elsewhere in these rules contained; provided, that if the service of a Governor, Deputy Governor or Assistant Deputy Governor is terminated by death no pension or gratuity granted to his widow or other dependents shall be determined by the provisions of paragraph (1) of this rule.

(3) The special contributions required under paragraph (1) of this rule shall be at the rate of five per centum of salary which is not in excess of fifteen thousand dollars per annum and unless service is terminated by death shall be made by monthly deductions for a period of seven years.

(4) Where service is terminated under this rule for any reasons other than death before the special contributions have been made for a full period of seven years, they shall be deemed to have been made for seven years and the special contributions which remain unpaid shall be reserved out of any pension granted to a Governor, Deputy Governor or Assistant Deputy Governor under this rule.

(5) Nothing in this rule shall require the special contributions referred to herein to be made from salary after the contributor attains age sixty.

General

19. Nothing herein contained shall be understood as impairing or affecting the right of the Board to dismiss or remove any contributor from the service of the Bank.

20. The Board may withhold from any payment in respect of a pension or gratuity granted under these rules, the amount of any indebtedness or liability to the Bank of the contributor to or in respect of whom the pension or gratuity is granted.

21. The Board shall make such regulations as may be deemed necessary to give effect to the provisions of these rules.
